EXECUTIVE ORDER NO. 130

Designating the Mississippi River Corridor as a Critical Area

I, Wendell R. Anderson, Governor of the State of Minnesota, by virtue of the authority vested in me by the Critical Area Act of 1973, Minnesota Statutes, Chapter 116G, hereby issue this Executive Order:

WHEREAS, the Mississippi River Corridor through the seven-county Twin Cities Metropolitan Area satisfies the following characteristics as outlined in MEQC 52(a) and pursuant to M.S., Chapter 116G:

(1) It is an Area affected by existing or proposed major governmental development including: four major lock and dams across the River and a nine-foot navigational channel built and operated by the federal government; seven large industrial projects built with the help of public funds; six regional parks; a major regional sewage treatment plant and discharge points for six other existing or proposed waste treatment plants; one major
airport and the facilities of another major airport; at least 22 river crossings for major roadways; and other governmental facilities, all of which facilities serve persons outside of the proposed corridor; and all of which generate substantial development or urbanization.

(2) It is an area containing historic, natural, scientific, or cultural resources of regional or statewide importance.

(a) The corridor contains historical resources of statewide or regional significance, including five areas listed on the National Register of Historic Places and twelve areas identified by the Minnesota Historical Society.

(b) The corridor contains natural resources of statewide or regional significance, including the river itself used for transportation, waste assimilation, recreation, sand and gravel deposits, and habitat suitable for the maintenance of fish and wildlife.

(c) The corridor contains cultural resources of statewide and regional significance, including Indian burial grounds, parks, water recreational facilities, and early settlements.

(d) The corridor contains scientific resources of statewide and regional significance including opportunities for floodplain and hydrological investigation, geological investigation, and historic investigation.
WHEREAS, the Mississippi River Corridor meets all of the criteria outlined in MEQC 52(b) to be designated as a critical area as follows:

(1) The area was recognized to be of significant regional or statewide public interest because it is a regional transportation corridor, a regional recreational area, and it has been or is being studied by a number of local, state and federal agencies and commissions;

(2) Other legal powers are unavailable to provide coordinated regulation of the area to protect the public interest:
   (a) Four townships, twenty cities, five counties, three regional agencies, five special purpose governmental districts, four state agencies, and four federal agencies have regulatory or planning authority in the corridor.
   (b) No state agency, or local government has the legal authority to coordinate the regulatory and planning authority of the state and local agencies involved.
   (c) The Metropolitan Council has no zoning authority in the area and can only suspend particular development for a limited period of time.
   (d) The Floodplain Management Act regulated floodplain development, but is primarily aimed at reducing flood damage. The Act will not control development outside of the floodplain.
   (e) The Shoreland Management Act only regulates development
within three hundred feet of the river or to the
landward extent of the floodplain, whichever is greater.
It does not assist in regulating development outside
of this area which may have a major effect on the
river.

(f) The State Wild, Scenic, and Recreational Rivers Act
is unavailable for most of the corridor. Nor does
it provide for coordination of planning among state
and local governments.

(3) The area is one of a limited number within the state. No
other area in Minnesota provides such important transpor-
tation, recreational, and water-related functions as the
River does as it flows through the Metropolitan Area.
Thus, it is a unique resource in Minnesota because of its
importance and in its proximity to the large number of
people in the Metropolitan Area.

(4) The area has been specifically identified by legal descrip-
tion.

WHEREAS, unregulated development and uncoordinated plan-
ing threatens the public interest in the Mississippi River
Corridor; many decisions affecting the use of the River Corridor
are made by local governmental units without adequate regard for
protecting the regional interest in the regional resource; and

WHEREAS, the advantages of coordinated planning for the
area will achieve development of the River Corridor as a regional
multi-purpose resource, resolve the conflicts of use of land and
water, preserve and enhance its natural, aesthetic, cultural, and historical value for the public use, and protect its environmentally sensitive areas;

NOW, THEREFORE, I order the Mississippi River Corridor located within the Twin Cities Metropolitan Area designated a critical area.

1. The boundaries of the Mississippi River Corridor Critical Area are delineated in the legal description which is attached and incorporated hereby into this Order.

2. The Standards and Guidelines to be followed by local units of government, regional agencies and state agencies in the preparation and adoption of plans and regulations for the Critical Area are attached and incorporated hereby into this Order.

3. The Interim Development Regulations to be followed in granting development permits during the Interim Period are attached and incorporated hereby into this Order.

4. The Department of Natural Resources shall prepare the Scenic and Recreational Plan for the eight mile stretch of the river corridor in the Cities of Dayton and Ramsey. The Cities of Dayton and Ramsey shall prepare regulations for the implementation of the plan and both the regulations and the plan shall conform to the critical area standards and guidelines. The DNR plan and the local regulations shall be submitted to the EQC for approval, and once approval is granted, the
critical area designation order for the eight mile stretch of the river corridor shall lapse. At that time, the Department of Natural Resources shall assume management responsibilities under the authority of the State Wild and Scenic River Act.

5. The State Planning Agency shall determine and administer the amount of funds needed for the preparation and adoption of plans and regulations.

6. The designation order for the remainder of the critical area corridor shall be effective for no longer than three years pending final approval by the Legislature or the Metropolitan Council.

This Order shall be effective immediately and shall be in force until rescinded by the proper authority.

IN TESTIMONY WHEREOF, I hereunto set my hand on this 18th day of October, 1976.

APPENDIX C
DEFINITIONS

The following terms as used in these Regulations shall have the following meanings, unless otherwise defined:

2. "Accessory Use" means a use or portion of a use or structure subordinate to and serving the principal use or structure on the same lot and customarily incidental thereto.

3. "Adjacent" means having a boundary which physically touches or adjoins.

4. "Agriculture" means the utilization of land and structures thereon for production of farm crops, including but not limited to vegetables, fruit trees, grain, poultry and domestic farm animals and uses necessary or customarily incidental thereto.

5. "Backwater" means a body of water connected with, but little affected by the main stream.

6. "Barge Fleeting Area" means an area on the river, on or off channel, where barges are temporarily parked and secured while tows are assembled or broken up.

7. "Barge Slip" means a basin, usually adjacent to a wharf, jetty, dock or other cargo handling facility, where barges are brought for the purpose of loading or unloading cargo.

8. "Bluffline" means a line delineating the top of a slope connecting the points at which the slope becomes less than 18 percent. More than one bluffline may be encountered proceeding landward from the water.

9. "Building Height" means the vertical distance to be measured from the grade of a building line to the top to the cornice of a flat roof, to the deck line of a mansard roof, to a point on the roof directly above the highest wall of a shed roof, to the uppermost point on a round or other arch type roof, to the mean distance of the highest gable on a pitched or hip roof.

10. "Clear Cutting" means the removal of an entire stand of trees and shrubs.

11. "Cluster Development" means a pattern of subdivision which places housing units into compact groupings while providing a network of commonly owned or dedicated open space.

13. "Development" means the making of any material change in the use or appearance of any structure or land including, but not limited to: a reconstruction, alteration of the size, or material change in the external appearance of a structure on the land; a change in the intensity of use of the land; alteration of a shore or bank of a river, stream, lake or pond; commencement of drilling (except to obtain soil samples), mining or excavation; demolition of a structure; clearing of land as an adjunct to construction; deposit of refuse, solid or liquid waste, or fill on a parcel of land; the dividing of land into two or more parcels.

14. "Development Permit" means a building permit, zoning permit, water use permit, discharge permit, permit for dredging, filling, or altering any portion of a watercourse; plat approval, re-zoning, certification, variance or other action having the effect of permitting any development as defined in the Act or these Interim Development Regulations.

15. "Dimension Variance" means a modification or variation of the height or setback provisions of the Interim Development Regulations where it is determined that by reason of special and unusual circumstances relating to a specific lot, that strict application of the provisions would cause an undue or unnecessary hardship, or that strict conformity with the provisions would be unreasonable, impractical or unfeasible under the circumstances.

16. "Dwelling Unit" means a residential building or portion thereof intended for occupancy by a single family, but not including hotels, motels, boarding or rooming houses or tourist homes.

17. "Essential Services" means underground or overhead gas, electrical, steam or water distribution systems including poles, wires, mains, drains, sewers, pipes, conduits, cables, and other similar equipment and accessories in conjunction therewith, but not including buildings or transmission services.

18. "Feedlots" means a confined unenclosed area for the feeding, breeding, raising or holding of livestock, where livestock manure can accumulate, and where there is no vegetation.

19. "Floodway" means the river channel and the portions of the adjoining floodplain which are reasonably required to carry and discharge the regional flood.

20. "Floodplain" means the areas adjoining a watercourse which has been or hereafter may be covered by a regional flood.

21. "Regional Flood" means a flood which is representative of large floods known to have occurred generally in Minnesota and reasonably characteristic of what can be expected to occur on an average frequency in the magnitude of the 100-year recurrence interval.

22. "General Advertising Signs" means those signs which direct attention to a product, service, business or entertainment not exclusively related to the premises where such sign is located.

23. "Government Development" means any development financed in whole, or in more than 50 percent of its total financing, directly or indirectly, by the United States, the State of Minnesota, or any agency or political subdivision thereof.
24. "Historic Preservation" means the protection by various means of buildings or other structures, land areas, or districts which are identified by the Minnesota Historical Society or the National Register of Historic Places.

25. "Industrial Use" includes without limitation, factory, office building, warehouse, elevators, material transfer site, pipeline, refuse and material storage areas.

26. "Interim Development Regulations" means the regulations in the Order which indicate the development that shall be permitted pending the adoption of plans and regulations consistent with the policies of the Act and Minnesota Regulations MEQC 51 through MEQC 57.

27. "Landscaping" means plants such as trees, grass, and shrubs.

28. "Livestock" includes, but is not limited to horses, cattle, pigs and turkeys.

29. "Local Unit of Government" means any political subdivision of the State, including but not limited to counties, municipalities, townships, and all agencies and boards thereof.

30. "Lot" means a parcel, piece, or portion of land designated by metes and bounds, registered land survey, plat, or other means and separated from other parcels or portions by said description that is recorded or to be recorded in the Office of the Register of Deeds (or Registrar of Titles).

31. "Major Expansion" means an expansion involving a 20% or greater addition to the total land area presently covered or used by an industrial, commercial, recreational or public facility.

32. "Metropolitan Development Framework" means that chapter of the Metropolitan Development Guide which deals primarily with the physical development of the metropolitan area.

33. "Metropolitan Plans, Guides, and Standards" means and refers to all documents, reports, and materials which have been adopted by the Metropolitan Council and includes, but is not limited to Metropolitan Development Guide Sections, including the Development Framework Chapter and policy plans for Development Programs of all Metropolitan Commissions.

34. "Metropolitan Systems" means those facilities for which the Metropolitan Council has planning responsibility including, but not limited to interceptor sanitary sewers, sewage treatment plants, transit facilities, regional parks, and major highways.

35. "Metropolitan Urban Service Area (MUSA)" means the portion of the Metropolitan Area having metropolitan sewer service available, good highway access, transit service, and most municipal services as designated in the Development Framework chapter of the Metropolitan Development Guide.

36. "Mining" means the extraction of sand, gravel, rock, soil or other material from the land in the amount of one thousand cubic yards or more and the removing thereof from the site without processing with the exception of the removal of materials associated with construction of a building, which is approved in a building permit.
37. "Mississippi River Corridor" means that area within the boundaries of the Mississippi River Corridor Critical Area.

38. "Mobile Home Court" means any area on which spaces are rented for the placement of occupied mobile homes.

39. "Mobile Home" means a housing unit designed for transportation after fabrication on streets and highways on its own wheels or on flatbed or other trailers, and arriving at the site where it is to be occupied as a dwelling unit complete and ready for occupancy, except for minor and incidental unpacking and assembly operations, location on jacks or permanent foundations, connection to utilities and the like.

40. "Multi-family Development" means three or more dwelling units in one structure, including but not limited to an apartment building.

41. "Normal Highwater Mark" means a mark delineating the highest water level that has been maintained for a sufficient period of time to leave evidence of the level upon the landscape. It is commonly that point where the natural vegetation changes from predominantly aquatic to predominantly terrestrial. When the normal highwater mark is not evident, setbacks shall be measured from the stream bank of the following water bodies that have permanent flow or open water: the main channel, adjoining side channels, backwaters, and sloughs. At the option of the local unit of government, the normal highwater mark may be delineated as the 100-year floodway line as defined by the Minnesota Department of Natural Resources.

42. "Non-conforming Use" means any use of land established before the effective date of the Interim Development Regulations, which does not conform to the use restrictions of a particular use district of the Interim Development Regulations. This should not be confused with substandard dimensions of a conforming use.

43. "Order" means the Governor's Executive Order that formally designates the Mississippi River Corridor as a Critical Area.

44. "Plan" means a compilation of policy statements, goals, standards, and maps for guiding the physical, social, and economic development, both private and public of the county, municipality, and township. It may include, but not be limited to the following: statement of policies, goals, standards, a land use plan, a community facilities plan, a transportation plan and recommendations for plan implementation.

45. "Public Facility" means all public buildings, including schools, libraries, fire stations, administrative offices, roads, bridges.

46. "Public Safety Facilities" means hydrants, fire alarm boxes, street lights, railway crossing signals, and similar facilities and accessories, but not including buildings.

47. "Public Transportation" means all modes of transportation provided by or dedicated to public use including, but not limited to roadways, transit facilities, railroads, and bikeways.

48. "Regional Agencies" means the Metropolitan Council, Metropolitan Waste Control Commission, Metropolitan Airport Commission, Metropolitan Transit Commission, and Metropolitan Park Board.
49. "Recreation Open Space" means recreation uses particularly oriented to and utilizing the outdoor character of an area; including, but not limited to hiking, riding trails, primitive campsites, campgrounds, parks, and recreation areas.

50. "Rules and Regulations" means the instruments by which state and local units of government control the physical development of the Mississippi River Corridor or any part or detail thereof. Regulations include, but are not limited to, ordinances establishing zoning, subdivision control, platting, and the adoption of official maps.

51. "Re-zone" means a change of permitted uses within a local zoning district or of the boundaries of a local zoning district, adopted by ordinance by the local government unit.

52. "Selective Cutting" means the removal of single scattered trees or shrubs. Selective cutting shall not be construed to mean the removal of all trees or shrubs in a given area resulting in the clearing of the land.

53. "Compatible Use" means a use which may be compatible or desirable in a specified district, but requires special conditions for approval because if not carefully located or designed, it may create special problems such as excessive height or bulk or abnormal traffic congestion.

54. "Setback" means the minimum horizontal landward distance between any part of a structure and the normal highwater mark or the established bluffline.

55. "Sewage Disposal System" means any system for the collection, treatment, and dispersion of sewage including, but not limited to, septic tank soil absorption systems.

56. "Single Family Unit" means a detached building containing one (1) dwelling unit.

57. "Structure" means anything constructed or installed or portable, the use of which requires a location on a parcel of land. It includes a movable structure which can, while it is located on land, be used for housing, business, commercial, agricultural, or office purposes either temporarily or permanently. Structure also includes roads, billboards, swimming pools, poles, pipelines, transmission lines, tracks and advertising signs.

58. "Subdivision" means the division of any parcel of land into two or more lots, including re-subdivision.

59. "Transmissions Services" means electric power, telephone, and telegraph lines, cables, pipelines or conduits that are used to transport large blocks of power between two points. In the case of electrical power, this will generally mean 69 kilovolts or more. For mains or pipelines for gas, liquids, or solids in suspension, this means those that are used to transport large amounts of gas, liquids, or solids in suspension between two points.
60. "Treeline" means the more or less continuous line formed by the tops of trees in a wooded area when viewed from a particular point. Such line shall be determined during all seasons as if under full foliage.

61. "Wetlands" are low-lying areas which may be covered with shallow water. They are frequently associated with a highwater table. Swamps, bogs, marshes, potholes, wet meadows, and sloughs are wetlands. They may occur adjacent to or within natural drainageways or as free-standing low areas. Wetlands shall consist of Types 1 to 8 as defined in U.S.D.I. Fish and Wildlife Service Circular 39.
