Thank you for your interest in serving on the Stadium Screening Committee. The Governor and his staff will be reviewing applications soon and we hope to make final committee selections within the next week.

Due to the high volume of public interest, we are not able to personally respond to every inquiry. Each email inquiry is being reviewed by staff and will receive the appropriate follow-up.

Your willingness to serve on this committee and the Great State of Minnesota is very much appreciated.

Sincerely,
 John Doan
 Stadium Screening Committee Coordinator

I've lived in the great state of Minnesota for 49 years.Born and raised in Mankato Minnesota.

I was apart of the red cross strike team,which included flood patrol, as well as my fathers assistant,who ran Mankato 12hrs. on 12hrs. off, during flood times.

I was apart of the 1972, 100% Voter turn in Skyline, a suburb of Mankato. I was taught the importance of getting the message out! that you care,and to be active part in your state, what ever the calling.

I also understand the wants and needs, of the people.And to leave a place alittle nicer, then you found it!

A firm believer in ; "If you can't find the time to do it right the first time, how are you going to find time to do it over! the clock is running ! AND THE TIME IS NOW! Lets do it right the first time!

I will bring: A fan perspective, A tax payers perspective,also a future perspective

The solo auther of "Minnesota Peoples Tax" Should be a state wide issue,and vote .Not the 7 county metro area decision!

Broncos, Steelers movin' on up

"Out with the old, in with the new." That seems to be the ongoing trend when it comes to NFL stadiums. The Denver Broncos and Pittsburgh Steelers begin a new era with state-of-the-art stadiums: the Broncos in Invesco Field at Mile High and the Steelers in Heinz Field.

Invesco Field at Mile High

Built in the shadows of their home of 41 years, Denver's new stadium carried over some of the traditional aspects of Mile High. The same type of steel treads and risers that helped create the deafening roar of the crowd were used. And don't forget Bucko the Bronco, the team's mascot. He made the trip and was unveiled at an Eagles concert Aug. 11.

Bucko the Bronco

The white stallion that graced Mile High Stadium for 25 years recently had a makeover. The 16,000-pound, 27-foot-tall statue was repainted and refinished for his move next door to the new stadium, perched atop the south end-zone scoreboard.

By David Zalubowski, AP

Bricklaying

Commemorative bricks can be purchased and engraved with a name, special date or occasion and remain forever part of the stadium. Almost 4,000 bricks have been purchased. The bricks will pave the entranceways into the stadium.

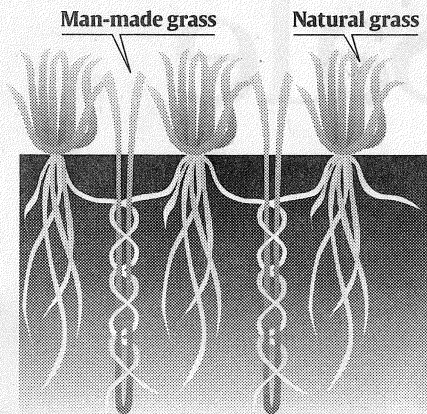

Stadium turf

Invesco Field is the first in the NFL to use DD GrassMaster. It's a natural grass surface reinforced by artificial grass fibers. For every 100 blades of grass on the field, three blades are man-made. This type of turf specializes in durability and stability. It's maintained just like any other natural grass field.

By David Zalubowski, AP

Have a seat: One of the more unique features is the seats in the north end zone. When empty, the Broncos logo can be seen in the 500 level. It takes up three sections of the upper deck. All other upper-deck seats are blue. Each seat is colored, not painted. The steps are painted to fill in the color. An orange seat designates the bronco's eye.
