

# **Limited Market Value Report**

**2005 Assessment Year  
Taxes Payable 2006**

**Tax Research Division  
March 1, 2006**

# MINNESOTA • REVENUE

March 1, 2006

**To The Members of the Legislature of the State of Minnesota:**

I am pleased to transmit to you the Limited Market Value Report for taxes payable 2006, undertaken by the Department of Revenue in response to Laws of Minnesota for 1993, Chapter 375, Article 5, Section 42 regarding the market value exclusion under Minnesota Statutes, Section 273.11, Subdivision 1a.

The report provides summary and municipal tables on the market value limitation exclusion for farm, residential and seasonal recreational residential property. The market value exclusion for this limitation for taxes payable 2006 sums to \$32,495,299,823 at the statewide level, or 7.9 percent of the total taxable market value of the limited classes of property.

Minnesota Statutes, Section 3.197, specifies that a report to the Legislature must include the cost of its preparation. The approximate cost of preparing this report was \$3,300.

Sincerely,

Daniel A. Salomone  
Commissioner

## Executive Summary

This report presents information on the effects of Minnesota's Limited Market Value law. The law, enacted in 1993, currently excludes from taxation annual increases in the market value of favored properties that exceed 15% of the prior year's taxable market value, or 25% of the difference between the current estimated market value and the prior year's value. The law defines favored properties as farms, residential homesteads and non-homesteads, seasonal recreational residential property (cabins), and timberland.

Under current law, this limitation will end after taxes payable in 2009. Payable 2010 taxes will be based on full estimated market valuations without this limitation.

Over the past 30 years, governors and legislatures have been very concerned about rising property taxes, particularly on residential homesteads. Enactment of the Limited Market Value law in 1993 was one of many attempts to slow the growth in property taxes, particularly for the favored classes, since the late 1960s.

Absent other mitigating policies, preferential valuations redistribute local property tax bases, shifting taxes across and within classes of property. It decreases taxes on some properties, while increasing taxes on others.

This is the 13<sup>th</sup> annual report on the impacts of the limitation. It is prepared each year at the request of the legislature (Law of Minnesota, 1993, Chapter 375, Article 5, Section 42).

### Key Findings

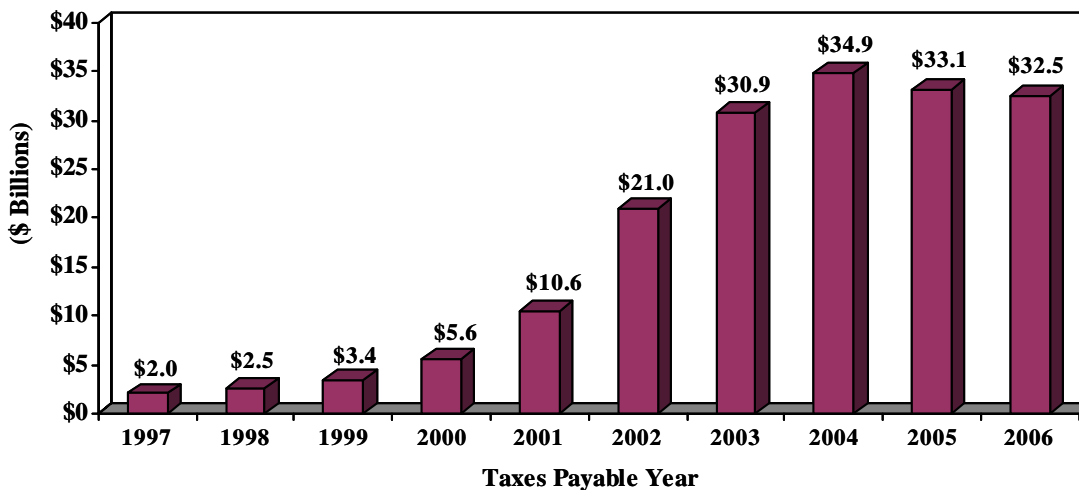

#### *Statewide Impacts – Taxes Payable in 2006*

- Minnesota's Limited Market Value law has excluded nearly \$32.5 billion in property valuation, statewide. This represents 7.9% of total pre-limit taxable market value of the limited classes of property (farm, residential, and seasonal recreational residential (non-commercial properties)).
- The percentage of value excluded for payable 2006 (7.9%) is less than the percent excluded in the previous four years, but considerably higher than the annual percentage excluded in the years 1994 through 2001. The biggest annual percentage exclusion occurred in payable years 2003 and 2004 (10.8%). As shown in the table and graph on the next page.

### Total Market Value Limitation

Payable Year	Total Exclusion Amount (Dollars)	Percent of Value Excluded
1994	\$669,050,104	0.5%
1995	1,047,762,545	0.8
1996	1,615,639,650	1.1
1997	2,045,660,418	1.4
1998	2,529,034,086	1.6
1999	3,389,506,961	1.9
2000	5,621,821,611	2.8
2001	10,573,691,372	4.7
2002	20,961,007,763	8.1
2003	30,879,740,466	10.8
2004	34,862,284,559	10.8
2005	33,067,516,329	9.1
2006	32,495,299,823	7.9

### Market Value Limitation, Pay 1997 - 2006

- Compared to other properties, statewide, the value of seasonal recreational residential property (cabins) was reduced the most, by 22.73% for payable 2006. The value of farm property was reduced by 16.32% (including a 31.64% reduction for timberland), homestead residential values were cut by 4.54%, and non-homestead residential values were reduced by 11.87% (Table 2).
- Major limited properties shared the total \$32.5 billion exclusion in the following proportions: 40.9% for residential homesteads, 33.6% for farms, 14.7% for seasonal recreational residential, and 10.8% for residential non-homestead (Table 3).
- In percentage terms, changes in the taxable share of market value for each property class are relatively small. Farm homesteads' share fell from 9.86% to 8.94%, Farm non-homestead and timberland fell from 3.61% to 3.12%, seasonal recreational residential (cabins) fell from 4.23% to 3.50%, residential homesteads rose from 58.92% to 60.18%, and residential non-homesteads fell from 5.94% to 5.60% (Table 4).

### ***Metro Area Impacts***

- The total metro valuation exclusion is \$13.7 billion. This represents 6.09% of total pre-limit taxable market value (Table 2).
- By class, the excluded value and percent reduction in value were as follows: farms \$1.73 billion (31.67%); seasonal recreational residential \$81.8 million (23.07%); residential non-homestead \$2.43 billion (12.42%); residential homestead \$9.48 billion (4.74%) (Table 2).
- Major limited properties shared the total \$13.7 billion exclusion in the following proportions: 69.1% for residential homesteads, 12.6% for farms, 0.6% for seasonal recreational residential, and 17.7% for residential non-homestead (Table 3).

### ***Greater Minnesota Impacts***

- The total value exclusion in Greater Minnesota was \$18.8 billion, 10.16% of pre-limit values (Table 2).
- By class, the excluded value and percent reduction were as follows: farms \$9.2 billion (14.96%); seasonal recreational residential \$4.7 billion (22.72%); residential non-homestead \$1.1 billion (10.79%); residential homestead \$3.8 billion (4.11%) (Table 2).
- Major limited properties shared the total \$18.8 billion exclusion in the following proportions: 20.3% for residential homesteads, 49.0% for farms, 25.0% for seasonal recreational residential, and 5.7% for residential non-homestead (Table 3).

### ***Limited Market Value Shifts Taxes Across Property Classes***

- Statewide, the Limited Market Value law increased net taxes for residential homestead properties by \$17.1 million (0.57%) relative to the tax that would have been paid without the limitation. Taxes on all other classes of property subject to the limitation decreased as follows: Farms -\$43.6 million (-10.9%); cabins -\$15.1 million (-8.4%); residential non-homestead -\$21.4 million (-6.09%) (Table 6).
- Payable 2006 is the first year in which residential homestead properties as a group statewide have experienced a net increase in property taxes because of the Limited Market Value law.
- Non-limited properties (apartments, commercial and industrial properties, resorts, public utilities, mineral, railroad and personal property) paid \$78 million more in taxes because of limited market value (+3.3%) (Table 6).

## ***Limited Market Value Shifts Taxes Within Property Classes***

### **Residential Homesteads**

- In 2006, the Limited Market Value law increased property taxes on 78% of the state's 1.4 million residential homesteads (1.1 million parcels), by \$106 million (an average of \$96 per parcel). For the other 22% of residential homesteads (314,000), the law decreased property taxes by \$86 million (an average of \$273 per parcel). 16% of the parcels with tax increases resulting from the limitation actually had some valuation withheld. This seemingly counter-intuitive result occurs because the limitation on these residential homestead properties was overwhelmed by proportionately larger limitations on other properties. The net tax increase of \$20 million on residential homesteads as a group results from shifts off of other limited classes of property.

### **Seasonal Recreational Residential Property (Cabins)**

- In 2006, the Limited Market Value law decreased property taxes on 70% of the state's seasonal recreational residential properties (140,000 parcels) by \$23 million (an average of \$167 per parcel). For the other 30% of parcels (59,000), the limitation law increased property taxes by \$6 million (average of \$103 per parcel). The net tax reduction of \$17 million for cabins as a group resulted in shifts onto other classes of limited and non-limited properties.

### **Greatest Degree of Limitation Reductions Occurred in Sparsely Populated Areas and Lake Areas of the State**

- The greatest degree of limitation occurred in north east and north central Minnesota (Table 7 and Appendix Tables A-1 and A-2).

## Introduction

This report presents information on the effects of Minnesota’s Limited Market Value law. The law, enacted in 1993, currently excludes from taxation any annual increase in the market value of favored properties that exceeds 15% of the prior year’s taxable market value, or 25% of the difference between the current estimated market value and the prior year’s value. The law defines favored properties as farms, residential homesteads and non-homesteads, seasonal recreational residential property (cabins), and timberland.

Under current law, this limitation will end after taxes payable in 2009. Payable 2010 taxes will be based on full estimated market valuations without this limitation.

Over the past 30 years, governors and legislatures have been very concerned about rising property taxes, particularly on residential homesteads. Enactment of the Limited Market Value law in 1993 was one of many attempts to slow the growth in property taxes, particularly for the favored classes, since the late 1960s.

Absent other mitigating policies, preferential valuations redistribute local property tax bases, shifting taxes across and within classes of property. It decreases taxes on some properties, while increasing taxes on others.

Table 1 below shows the history of the Limited Market Value law from its enactment in 1993 through the 2005 legislative changes.

**Table 1**  
**History of Limited Market Value Law**

Year Enacted	Limit	Difference Factor	Effective Assessment Year	
1993	Established program/sunset after 6 years	10%	33.33%	1993 – 1998
1994	Sunset one year earlier	10%	33.33%	Ends in 1997
1997	Extended program and increased number eligible	10%	25%	1998 – 2001
1999	Increased number eligible	8.5%	18%	1999 – 2001
2001	Extended program, but established phaseout schedule	10%	15%	2002
		12%	20%	2003
		15%	25%	2004
		15%	33%	2005
		15%	50%	2006
Repealed after Assessment Year 2006				
2005	Delayed phaseout by 2 years	15%	25%	2005
		15%	25%	2006
		15%	33%	2007
		15%	50%	2008
Repealed after Assessment Year 2008				

In response to the mandate in Laws of Minnesota for 1993, Chapter 375, Article 5, Section 42, this is the thirteenth annual report on the total value excluded from taxation by the limitation law for each property type in each city or township.

For taxes payable in 2006, Appendix A includes the mandated table of excluded value by property type for each city or township. Cities or townships with the largest percentage reductions under the limit are shown in rank order in Table 7. The report also summarizes the effects of the limit at the statewide and regional levels, showing how limited market value changes taxable market value for different property tax classes.

For residential homesteads and seasonal recreational property (non-commercial), the parcel level analysis in the report identifies the number of parcels that pay less tax and the number that pay more because of limited market value.

The sources of information for the summary are the 2005 fall mini-abstract of assessment and the 2005 final abstract of assessment (which report taxable market values after the limitation reduction and other property value exclusions). Each county assessor submitted these abstracts to the Department of Revenue. The limitation amounts by type of property were obtained from data listed on the mini-abstract.

### **How Does the Limit Actually Work?**

The limitation provision in Section 273.11, Subd. 1a limits the annual increase in the market value of eligible properties that is subject to taxation to increases of no more than 15 percent of the prior year's value or 25% of the difference between the current estimated market value and the prior year's value, whichever is greater. The prior year value used in this calculation is the prior year's market value, after limitation, after any reductions for "green acres" (273.111) and "open space" (273.112), and excluding any new improvements made during the year. (This value is before any exclusions for platted lands, "this old house" or "this old business".)

As Figure 1 shows, the "maximum market value" is first determined by increasing the previous year's taxable market value by 15 percent or by taking 25% of the increase in value. The "limited market value" then is the greater of the two maximum market values.

**Figure 1**  
**Limited Market Value**  
**Determination Examples**

	<u>Examples</u>		
	A	B	C
<b>Estimated Market Value Comparison</b>			
1) 2005 Taxes Payable Market Value	\$ 100,000	\$ 100,000	\$ 100,000
2) 2006 Taxes Payable Estimated Market Value *	\$ 105,000	\$ 130,000	\$ 200,000
3) Market Value Increase (2-1)	\$ 5,000	\$ 30,000	\$ 100,000
Percentage Increase	5.0%	30.0%	100.0%
<b>Maximum Market Value Determination</b>			
4) 115% of 2005 Taxes Payable Market Value (1 x 115%)	\$ 115,000	\$ 115,000	\$ 115,000
5) 2005 Taxes Payable Market Value Plus 25% of Estimated Market Value Increase [(1 + (3 x 25%))]	\$ 101,250	\$ 107,500	\$ 125,000
6) 2006 Taxes Payable Maximum Market Value (Greater of 4 or 5)	\$ 115,000	\$ 115,000	\$ 125,000
<b>Limited Market Value Determination</b>			
7) 2006 Taxes Payable Limited Market Value (Lesser of 2 or 6)	\$ 105,000	\$ 115,000	\$ 125,000
Percentage Increase	5.0%	15.0%	25.0%

Example A: Limitation does not apply.

Example B: 15 percent limitation applies.

Example C: 25 percent limitation applies.

\* Excluding the value of new improvements for pay 2006.

The limit applies to farm, residential and seasonal recreational residential (non-commercial) properties for assessment years 1993 to 2008 (taxes payable 1994 to 2009). Timberland is included in farm non-homestead. All rental housing with three or fewer units is included as residential non-homestead property. New ownership of a previously limited parcel does not change the market value limitation. New improvements, whether to land or structures, are excluded from the limit calculation in the year in which the new improvements become taxable, but thereafter become part of the estimated market value used in determining the market value limitation in subsequent years. Limitation does not continue to apply when a property class changes from a favored class to a non-favored class.<sup>1</sup> Also note that the exclusions in law for platted vacant land, green acres and “this old house” take precedence over the Limited Market Value law and are calculated without taking into account the limitation reduction.<sup>2</sup>

### **Statewide and Regional Limitation Amounts by Property Class**

The total limitation reduction statewide for taxes payable 2006 is \$32,495,299,823. As Table 2 shows, the reduction remains significant. In percentage terms, the value of seasonal recreational residential property was reduced the most (22.73 percent statewide). The taxable value of residential homestead property was reduced the least (4.54 percent statewide). Regionally, the limit reduced the market value of favored classes more in Greater Minnesota (10.16 percent) than in the metro area (6.09 percent).

In dollar terms, most of the limitation (57.8 percent) occurs in Greater Minnesota (down by \$18.8 billion), where the limit affects farm homestead property more than other property classes. Market values in the metro region were reduced by \$13.7 billion (42.2 percent of the statewide reduction). The reduction for residential homestead property statewide was \$13.3 billion, with \$9.5 billion of this reduction in the metro region.

Table 3 provides a percentage distribution of the total limitation by region and property type. Residential homestead reductions account for 69.1 percent of the total reductions in the metro area, but only 20.3 percent in Greater Minnesota.

### **Statewide Changes in Distribution of Market Values Across Property Classes**

As Table 4 shows, the value limitation reduced the share of taxable market value for most eligible property classes, but in percentage terms the changes are relatively small. The limit reduced the shares of total market value most for farm homestead property, from 9.86 percent to 8.94 percent of total market value. The shares for farm, seasonal recreational, and residential non-homestead property declined. In contrast, limited market value increased the shares for residential homestead, apartment, commercial, industrial, and public utility property.

### Changes from Pay 2005 to 2006

Table 5 shows that the Limited Market Value law has excluded nearly \$35 billion in property values statewide. The total exclusion decreased statewide from \$33.1 billion for taxes payable 2005 to \$32.5 billion for payable 2006, a drop of \$0.6 billion or 1.7 percent. Table 5 also shows that the total limitation increased by 14.8 percent in Greater Minnesota while falling by 17.9 percent in the metro region. In dollar terms, the exclusion increased by \$2.4 billion in Greater Minnesota and decreased by \$3.0 billion in the metro area.

### Statewide and Regional Changes in Distribution of Net Tax Amounts Across Property Classes

Table 6 shows how limited market value changes the statewide distribution of net tax payable in 2006 across property classes. The non-limitation simulation holds the state levy constant, allows market value credits to change, and allows TIF levies to decrease due to lower tax rates on commercial property. In percentage terms, timberland property taxes fell the most, with a 21.4 percent decrease statewide. In 2006, for the first time, residential homesteads statewide have a higher net tax under LMV than without.

In terms of net tax dollar amounts the tax burden shift is most evident in the statewide reduction in the farm homestead property tax burden by \$25.6 million, and the increase in the commercial/industrial property tax burden by \$51.1 million.

In Greater Minnesota, the largest reduction in net tax in dollar terms (\$20.0 million) is for farm homestead property.

## **Parcel Level Analysis: Change in Net Tax Within Property Classes**

The reductions in valuations shown in this report have the effect of increasing local property tax rates and consequently shifting property taxes from properties with faster growing valuations to those growing more slowly.

To estimate the parcel-level tax effects of the current limitation for taxes payable in 2006, parcel limited market value and limitation amounts for residential homesteads and non-commercial seasonal recreational residential property were taken from the market value sales ratio file created from county submissions. Local tax rates were computed with and without the limitation to identify the change in parcel level property tax due to the limitation.\*

In 2006, the Limited Market Value law increased property taxes on 78% of the state's 1.4 million residential homesteads (1.1 million parcels), by \$106 million (an average of \$96 per parcel). For the other 22% of residential homesteads (314,000), the law decreased property taxes by \$86 million (an average of \$273 per parcel). 16% of the parcels with tax increases resulting from the limitation actually had some valuation withheld. This seemingly counter-intuitive result occurs because the limitation on these residential homestead properties was overwhelmed by proportionately larger limitations on other properties. The net tax increase of \$20 million on residential homesteads as a group results from shifts off of other limited classes of property.

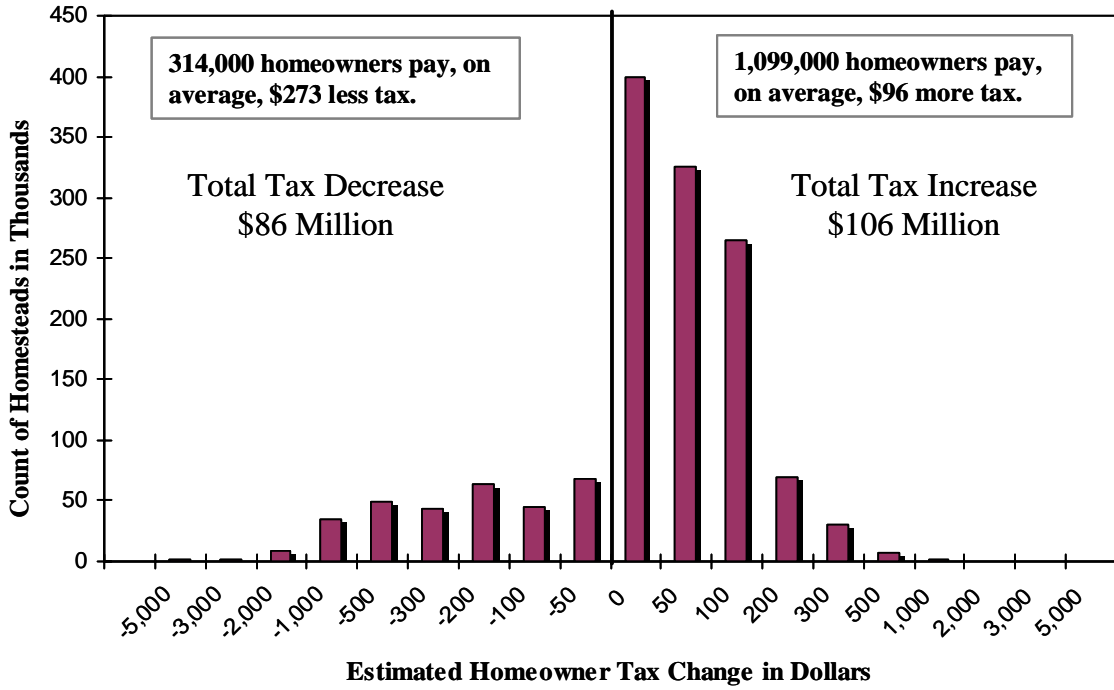

Figure 2 shows the distribution of counts of residential homestead parcels by net change in tax.

In 2006, the Limited Market Value decreased property taxes on 70% of the state's 199,000 seasonal recreational properties (140,000 parcels) by \$23 million (an average of \$167 per parcel). For the other 30% of parcels (59,000), the limitation law increased taxes by \$6 million (an average of \$103 per parcel). The net tax reduction of \$17 million for cabins as a group resulted in shifts onto other classes of limited and non-limited properties.

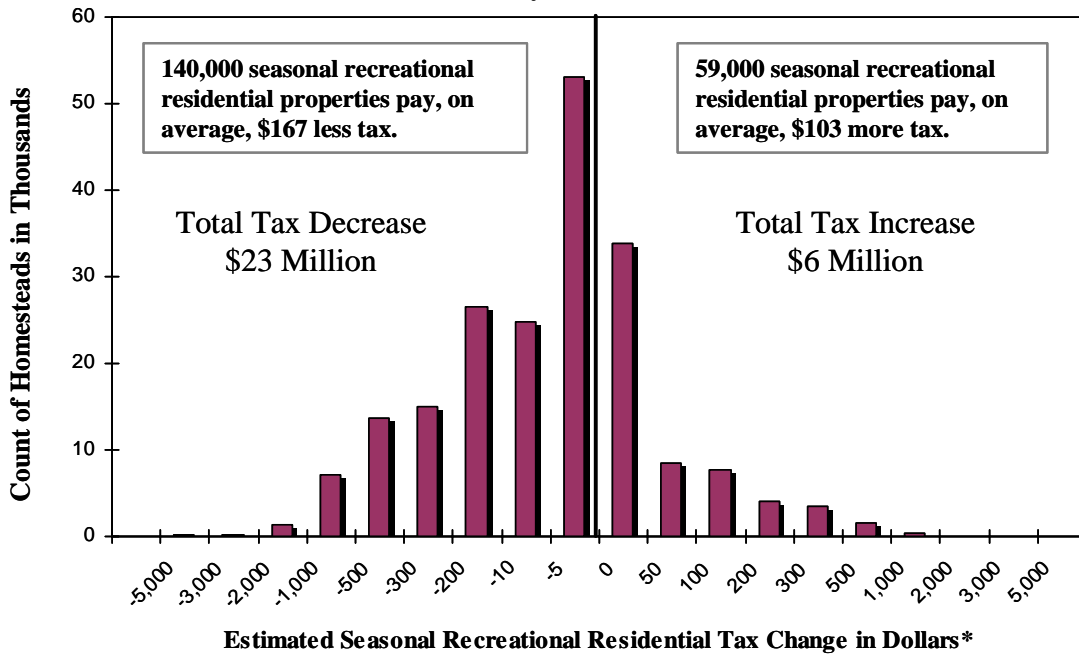

Figure 3 shows the distribution of counts of seasonal recreational homesteads by net change in tax.

\* For taxes payable 2006, 99.8% of residential homestead market value on the parcel file was captured compared to assessment abstracts. 100.2% of non-commercial seasonal recreational residential improved and unimproved parcel taxable market value was captured compared to assessment abstracts. Data inconsistency prevents a farm parcel analysis. Tax rates from the net tax analysis model runs were applied to market value before and after limitation using Truth-in-Taxation levies available in January.

\*Includes state tax. State tax rate adjusted to hold state tax amount constant.

## Pay 2006 Limitation Reductions at the City and Township Level

The greatest degree of market value limitation at the city and township level occurred in sparsely populated and lake areas of the state. Table 7 ranks cities and townships by the percentage of market value limitation for favored classes. As the table shows, the greatest degree of limitation occurred in northern and north central Minnesota, although a few Wright County municipalities also rank highly. Appendix Tables A-1 and A-2 provide a detailed breakdown in county order of the limitation reductions for each favored class in each city and township in the state. Total includes timberland limitation.

A map showing the location of the top 140 rankings from Table 7 appears at the end of the report.

## **APPENDIX TABLES**

### **Total Market Value Limitation and Reduction By City and Township**

#### **Details by Property Type**

Note: The market value limitation for the five property classes included in Tables A-1 and A-2 may sum to less than the total limitation shown in Table A-2. The difference is the limitation for timberland.

**Table A-1**  
**Total Market Value Limitation and Reduction by City and Township**  
**Farm Homestead, Farm Non-Homestead, and Seasonal Residential Recreational Property**  
**Taxes Payable 2006**
