

Annual Use Estimate of the Metropolitan Regional Parks System for 2005

**Based on a four-year average of visitation
data from 2002 through 2005**

June 2006

Metropolitan Council Members

	Peter Bell	Chair	
Roger Scherer	District 1	Natalie Haas Steffen	District 9
Tony Pistilli	District 2	Kris Sanda	District 10
Mary Hill Smith	District 3	Georgeanne Hilker	District 11
Julius C. Smith	District 4	Chris Georgacas	District 12
Russ Susag	District 5	Richard Aguilar	District 13
Peggy Leppik	District 6	Song Lo Fawcett	District 14
Annette Meeks	District 7	Daniel Wolter	District 15
Lynette Wittsack	District 8	Brian McDaniel	District 16

The mission of the Metropolitan Council is to develop, in cooperation with local communities, a comprehensive regional planning framework, focusing on transportation, wastewater, parks and aviation systems that guide the efficient growth of the metropolitan area. The Council operates transit and wastewater services and administers housing and other grant programs.

Publication No. 78-06-037

Executive Summary

- An estimated 33,437,100 visits were made to the Metropolitan Regional Parks System in 2005. Visitation increased 9.6 percent, or about 2,963,000 visits, from the 2004 estimate. This is the largest yearly increase since 1995. The increase is primarily attributed to the following factors:
 - Much drier and warmer summer weather in 2005 compared to 2004 attracted more visitors.
 - Four more park and trail units were counted that were not counted in 2004.
 - Improved facilities and expanded facilities attracted more visitors.
 - An increase in larger group activities and special events (e.g. Taste of Minnesota at Harriet Island Regional Park, which used to be held at the State Capitol)
- Estimated annual visits have increased 39.8 percent since 1995, when visits were estimated at 23.9 million. Forty percent of the increase is attributed to the opening or inclusion of 13 parks and trails to the Regional Park System during this period. A total of 77 park and trail units were sampled in 2005 compared to 73 units sampled in 2004, and 64 in 1995.

- Distribution of estimated visits by seasonal day use, camping and special events:

- The five most-visited regional parks, trails and special recreation features in 2005 were:

Park/Reserve/Trail	2005 Visits
1. Minneapolis Chain of Lakes Regional Park	5,780,200
2. Como Regional Park, Zoo and Conservatory Special Recreation Feature	2,126,700
3. Minnehaha Parkway Regional Trail	1,950,600
4. Mississippi Gorge Regional Park (<i>Minneapolis and St. Paul</i>)	1,938,100
5. Nokomis-Hiawatha Regional Park	1,247,300

- Estimated visits to regional trails grew about 12% and visits to park units (regional parks, park reserves and special recreation features) grew 8.9% from 2004.
 - Fifty-nine percent of all estimated visits occurred in regional parks and trails in Minneapolis and St. Paul. This continues a decrease in the share of visits to those parks and trails in the regional system over time (60.1% share in 2004). This is due primarily to more park and trail facilities and population growth occurring outside these two cities.
 - Walking is the top activity in the regional parks system (34 percent of all visits involved walking as an activity), followed by biking (19 percent), swimming (17 percent) and picnicking (13 percent) based on data collected in 1998-99 in the Metropolitan Regional Parks and Trails Study.
-

Acknowledgements

The Metropolitan Regional Parks System is owned and managed by 10 county, special park district or city implementing agencies. Each agency is responsible for conducting the annual counts for their Regional Parks System units. Over 3,200 staff hours across agencies were put into the annual use sample counts for 2005, along with significant amounts of staff training and oversight. Without the help of the implementing agencies, the annual use estimate would not be possible. The agencies and their count supervisors for 2005 are:

Anoka County – Jeff Perry

City of Bloomington – Mark Morrison

Carver County – Lenny Schmitz

Dakota County – Doug Gross

Minneapolis Park and Recreation Board – Belinda Davis

Ramsey County – Jody Yungers

City of Saint Paul – Rebecca Stenberg

Three Rivers Park District – Jon Nauman

Scott County (joint powers agreement with Three Rivers) – Jon Nauman

Washington County – Lori Meyers

Introduction

The Metropolitan Regional Parks System that was sampled for this estimate in 2005 encompassed approximately 52,600 acres of parkland and included 37 regional parks, 12 park reserves, 6 special recreation features and 22 regional trails. These park/trail units are owned and operated by 10 implementing agencies – counties, special park districts and cities. In 2005, the joint powers agreement between Scott County and Three Rivers Park District was modified so that Scott County took over ownership and management of Scott County Regional Trail, Spring Lake Regional Park (not sampled as it is currently not available for general public use) and Doyle-Kennefick Regional Park (not sampled as it is not available for public use). Three Rivers Park District retained its ownership and management of Cleary Lake Regional Park and Murphy-Hanrehan Park Reserve in Scott County. Data on these parks and Scott County Regional Trail are reported separately.

This report presents annual use estimates for 77 units sampled in the Regional Parks System from data collected in 2002 through 2005. The information is reported by park/trail units for each implementing agency. Some parks and trails have sub-units that are operated by different implementing agencies, so total use for that park or trail would be the sum of individual agency units.

Use estimates are reported in “visits.” One person entering the park represents one visit. Therefore, if a person visits a particular park once each week for a year, that represents 52 visits to that park.

How the annual use estimate is calculated

The annual use estimate is based on the average of four years (2002 – 2005) of summer counts of bikers, pedestrians, horse-riders, boats, vehicles and charter buses that enter the park through recognized park entrances. People in vehicles and buses are not counted individually. To determine the number of people entering in vehicles or buses, a person-per-vehicle average is multiplied by the number of vehicles or buses in each sample count. The person-per-vehicle averages come from the 1998 Regional Parks Visitor Study.

Counts are taken in two-hour samples between Memorial Day and Labor Day. Two-hour samples begin at 8 a.m., 10 a.m., 12 p.m., 2 p.m., 4 p.m. and 6 p.m. The entrances and times are randomly chosen, with the samples split evenly between weekdays and weekends. To accurately estimate summer use, at least 25 samples on weekends and 25 samples on weekdays in each park and trail are necessary, but it is cost-prohibitive to do 50 samples per park and trail every year. Consequently, the samples for the current year and the three previous years are combined to determine the annual use for each park and trail. For each year, at least 16 samples are drawn for each park and trail. The four-year approach results in a minimum of 32 samples on weekends and 32 samples on weekdays, which meets the statistical requirements for estimated visits.

The four-year approach reduces the effect of extreme weather or other anomalies on each park’s estimated visitation. It reduces the effects of a temporary closure of a popular facility and from road construction to the facility. The four-year average also somewhat underestimates increased visitation associated with a major new facility such as a swim pond or play structure. By the fourth year of the facility’s existence, its visitation is fully represented in the data. The annual estimate makes no attempt to correct for overestimates for temporary closures or underestimates for facility additions. All agencies in the regional system are adding desirable facilities and experiencing temporary closures of facilities that are being redeveloped. Consequently, it is

believed that the four-year average has negligible effects when comparing visitation across agencies.

Summer visitation is calculated by taking the total number of people entering the park during each sample and multiplying it by the number of entrances and time slots that sample represents. Winter, spring and fall seasonal visitation estimates are then calculated from the summer visitation using seasonal multipliers developed from the 1998/99 regional park and trail visitor studies done by the Metropolitan Council. Camping visits are also added to the annual estimate.

A camping visit is defined as a camper in the park for any part of a day, so a family of four who camped one night would be counted as 8 total visits. Special events are also added to the annual use estimate when the attendance was greater than 300 people for the event and did not take place during the sample counts. If sample counts occurred during a special event, they were not included in the estimate. Camping and special event data are not averaged across four years since the implementing agencies have records reflecting those types of visits on an annual basis.

Notes:

All visits are listed in units of 1,000 (i.e., "50.5" is equivalent to 50,500 visits)

RP = Regional Park; PR = Park Reserve; RT = Regional Trail; SRF = Special Recreation Feature

* OTHER: Camping is in "visitor-days," where each visit is one person in the park for one day. A family of four staying one night would have 8 visitor-days. Special events include events over 300 and any unusual park-specific situations. Special events and situations are detailed in Table 2.

^A 1st year sampled

^B 2nd year sampled

^C 3rd year sampled

⁴ Lake Minnetonka Islands total annual visitation data is provided from Three Rivers and is not based on the Metropolitan Council sample.

Table 3: Comparison of 2004 and 2005 visitation

Agency	2004	2005	# change	% change
	<i>(1,000's)</i>	<i>(1,000's)</i>	<i>(1,000's)</i>	
Anoka	2,685.5	2,773.5	88.0	3.3%
Bloomington	562.9	601.7	38.8	6.9%
Carver ¹	205.0	251.1	46.1	22.5%
Dakota	868.8	886.9	18.1	2.1%
Minneapolis ¹	12,953.3	14,125.6	1,172.3	9.1%
Ramsey ¹	2,759.8	3,154.3	394.5	14.3%
St Paul ²	5,371.6	5,632.1	260.5	4.8%
Three Rivers (Hennepin) ¹	4,091.6	4,825.0	733.4	17.9%
Three Rivers-Scott Co. ³	248.5	217.0	(31.5)	-12.7%
Scott County ³	NA	48.0	NA	NA
Washington ¹	727.3	921.8	194.5	26.7%
Total	30,474.3	33,437.1	2,962.8	9.7%

Notes for Table 3

¹ Significant increases in visits from 2004 to 2005 are due to one or more of the following factors: Additional park or trail units added in 2005 that weren't part of the park system or were not open for use in 2004; improved weather in 2005 for swimming compared to 2004; improved or new facilities that attracted visitors; and an increase in visitation by ethnic groups who recreate in larger groups.

² St. Paul has no count data for 2002. The 2005 estimate is based on data for 2005, 2004, 2003 and 2001.

³ Reduction due to deleting Scott Co. RT, which is managed by Scott County starting in 2005.

Table 4: Comparison of 2004 and 2005 park vs. trail visitation

	2004	2005	# change	% change	% of all visits in 2005
	<i>(1,000's)</i>	<i>(1,000's)</i>	<i>(1,000's)</i>		
Trail Visits ³	6,593.9	7,393.5	799.6	12.1%	22%
Park/Reserv/SRF Visits	23,919.7	26,043.6	2,123.9	8.9%	78%
Total Visits	30,513.6	33,437.1	2,923.5	9.6%	100%

Notes for Table 4

³ About 80% of all visits to the Mpls Chain of Lakes RP are trail visits. Mississippi Gorge Regional Park is also more similar to a parkway than a regional park. However, the above trail totals do not include those trail visits. If Mississippi Gorge & Mpls Chain of Lakes trail visits were included in the trail total, about 13.9 million, or 42% of all visits, are trail visits.

Table 5: Most-visited regional parks and trails

Rank by visits	Park/trail	Agency	2005 Visitation (1,000's)	Cumulative percent of total visitation
1	Minneapolis Chain-of-Lakes RP	MPRB	5,780.2	17.3%
2	Como RP, Zoo & Conservatory SRF	St. Paul	2,126.7	23.6%
3	Minnehaha Parkway RT	MPRB	1,950.6	29.5%
4	Mississippi Gorge RP	MPRB/St. Paul	1,938.1	35.3%
5	Nokomis-Hiawatha RP	MPRB	1,247.3	39.0%
6	Lilydale-Harriet Island RP	St. Paul	1,221.6	42.7%
7	Hyland/Bush/Anderson PR	Three Rivers/Bloomington	1,180.3	46.2%
8	Central Mississippi Riverfront RP	MPRB	1,056.4	49.3%
9	Wirth Memorial Parkway RT	MPRB	1,049.7	52.5%
10	Phalen/Keller RP	Ramsey/St. Paul	1,020.9	55.5%
11	Minnehaha RP	MPRB	781.0	57.9%
12	Bunker Hills RP	Anoka	682.6	59.9%
13	Battle Creek RP	Ramsey/St. Paul	664.8	61.9%
14	North Hennepin RT	Three Rivers	615.0	63.7%
15	Rice Creek W. RT	Ramsey/Anoka	511.5	65.3%
Total			21,826.6	
Percent of 2005 Visitation				65.3%

Table 6: Urban parks visitation

Agency	2005 Visitation (1,000's)
Minneapolis Parks Total	14,125.6
St. Paul Parks Total	5,632.1
Urban Total	19,757.7
Urban Percentage of 2005 visitation	59.1%

Table 7: Como visitation - park and zoo/conservatory

Park Unit	2005 Visitation (1,000's)	%
Como Zoo & Conservatory SRF ¹	1,714.1	80.6%
Como Park (non-zoo/conservatory visits)	412.6	19.4%
Como Total	2,126.7	100%

¹ Como Zoo & Conservatory Special Recreation Feature estimates are based on visitor interviews conducted in 1998 (see Metropolitan Council Publication #78-99-032) . That data indicated that 80.6% of all Como visitors were primarily visiting the Zoo & Conservatory. Zoo/Conservatory SRF visitors could possibly use Como RP for secondary activities during their visit, so the total use of Como RP is higher than the 19.4% listed for non-zoo/conservatory visits.

Table 8: Visitation estimates by agency for operations and maintenance funding formula purposes

Agency	2005 Visitation (1,000's)	% of total¹
Anoka County	2,773.5	8.34%
Bloomington	601.7	1.81%
Carver County	251.1	0.75%
Dakota County	886.9	2.67%
Minneapolis Park & Rec. Board	14,125.6	42.46%
Ramsey County	3,154.3	9.48%
St Paul	5,630.8	16.92%
Scott County	48.0	0.14%
Three Rivers Park District - Hennepin	4,660.3	14.01%
Three Rivers Park District - Scott	217.0	0.65%
Washington County	921.8	2.77%
TOTAL	33,271.1	100.00%

¹ Percentages are given to the second decimal point for use in the funding formula.

Note: O&M visitation estimates do not include enterprise facility visitation (downhill skiing at Hyland and Como).

¹ In 2005 Scott County took over management of Scott County Regional Trail, Spring Lake Regional Park and Doyle-Kennefick Regional Park from Three Rivers Park District. Three Rivers Park District continues to own and manage Cleary Lake Regional Park and Murphy-Hanrehan Park Reserve in Scott County. The amounts shown in this table reflect visits to park and trail units located in Scott County regardless of managing entity.

² Visitation estimates for 1995 through 1998 were adjusted to reflect the seasonal multipliers used from 1999 to the present so that estimates are comparable across all years.

³ The large increases in 1996, 1997 and 2005 are primarily the result of five units added in 1996, four units added in 1997, four units added in 2005 plus improved facilities attracting more visitors in other parks and trails and sunnier/drier weather compared to 2004.

Table 11: Top activities in the Regional Parks System - 2005

Activity	% of park activity occasions ¹	# of park activity occasions <i>1,000's</i>	% of trail activity occasions ²	# of trail activity occasions <i>1,000's</i>	Total # of activity occasions <i>1,000's</i>	% of total visits

Fishing	6%	1,511	0%	-	1,511	5%
Dog-walking	1%	156	6%	528	685	2%

Notes:

¹ Activity pattern data of regional park and trail visitors was collected in 1998-99 and published in the Regional Park Visitor Study by the Metropolitan Council (Metro Council publications 78-99-032 and 78-99-042). The activity patterns were applied to the 2005 visit estimate to generate this table. Visitors could do more than one activity during their visit to a regional park. Each time they did an activity, it was considered an activity occasion. Consequently, the total number of activity occasions is greater than the actual number of visits.

² For trail visits, visitors were asked to indicate only their primary trail activity. Consequently, each trail activity occasion represents one visit. However, it is believed that most trail visits involved only one activity.

³ "Relaxing" was a general activity on a list of activities that park visitors used to indicate what they did during their park visit. This activity was not specifically defined.
