Executive Summary

The Department of Employee Relations (DOER) is responsible for the enforcement of the Local Government Pay Equity Act (Minnesota Statutes 471.991 - .999 and Minnesota Rules Chapter 3920).

The Local Government Pay Equity Act applies to approximately 1,500 local governments in Minnesota, and affects a total of about 220,000 local government employees. Jurisdictions are scheduled to report on a three-year cycle, meaning that the department receives approximately 500 reports each year. In January of 2006, approximately 500 jurisdictions submitted reports. Another 500 jurisdictions reported in 2007, another 500 will report in 2008 and a new cycle begins in 2009.

Overall governments have achieved a high level of compliance - both in meeting reporting requirements and implementing pay equity for their employees. The success of this program is largely attributable to the ongoing assistance and monitoring provided by the Department of Employee Relations (DOER)-Pay Equity Unit and to the commitment on the part of local governments.

When reports were submitted in 2007, the initial analysis showed that approximately half of the 502 jurisdictions reporting were in compliance and approximately half were either out of compliance or their reports needed further correction or clarification. With DOER's assistance, most of the non-complying jurisdictions and those whose reports needed corrections have achieved compliance. At this time, 451 (90%) of the jurisdictions reporting in 2007 are in compliance, 42 (8%) remain out of compliance and 9 (2%) need further clarification or correction.

The review of the 2007 reports was typical of previous reporting results. Since Pay Equity Implementation Reports have been required, approximately one-fourth to one-third of reporting jurisdictions have been initially found out of compliance. While individual jurisdictions achieved compliance in previous reporting years, a significant number failed to maintain that compliance in subsequent reports. As in previous years, the department will continue to assist local governments in meeting compliance requirements.

About This Report

The Department of Employee Relations (DOER) is responsible for enforcement of the Local Government Pay Equity Act, and is required to submit an annual report to the state legislature regarding local government pay equity compliance. Minnesota Statute (M.S.) 471.999 states:

The report must include a list of the political subdivisions in compliance with section 471.992, subdivision 1, and the estimated cost of compliance. The report must also include a list of political subdivisions found by the commissioner to be not in compliance, the basis for that finding, recommended changes to achieve compliance, estimated cost of compliance, and recommended penalties, if any. The commissioner's report must include a list of subdivisions that did not comply with the reporting requirements of this section. The commissioner may request, and a subdivision shall provide, any additional information needed for the preparation of a report under this subdivision.

The 2008 Minnesota Local Government Pay Equity Report was prepared entirely by the Department of Employee Relations staff as part of routine work assignments. Twenty copies of the report were printed in-house. The cost of staff time to prepare the report was approximately \$490.

This document can be made available, upon request, in alternate formats such as large print, Braille or audiotape.

Questions regarding this report may be directed to the DOER pay equity coordinator at (651) 259-3761.

Section One

Background Information

Requirements of the Law

The Local Government Pay Equity Act (LGPEA) of 1984 (M.S. 471.991 to 471.999) required local governments to “establish equitable compensation relationships” by December 31, 1991. Other common terms for “equitable compensation relationships” are “comparable worth” or “pay equity.” Compliance must be maintained and jurisdictions are periodically evaluated. Jurisdictions are on a three-year reporting cycle with approximately 500 jurisdictions reporting each year.

The purpose of the law is “to eliminate sex-based wage disparities in public employment in this state.” Equitable compensation relationships are achieved when “the compensation for female-dominated classes is not consistently below the compensation for male-dominated classes of comparable work value... within the political subdivision.”

The law requires DOER to determine whether local governments have achieved pay equity, based on implementation reports submitted by local governments.

Responsibilities of the Department of Employee Relations

A. Pay Equity Rule Adopted

In 1991, the Legislature authorized DOER to adopt rules under the Administrative Procedures Act to assure compliance with the Local Government Pay Equity Act (Laws 1991, chapter 128, section 2).

That same year, DOER asked employer organizations, unions, and women's groups to name representatives to serve on a rulemaking advisory committee. This 30-member group met to discuss and review compliance guidelines and advise the department on the pay equity rule. DOER adopted the rule MCAR 3920, October 1992.

B. Assistance to Local Governments

In 1989, DOER established a full-time pay equity coordinator position. The coordinator has assisted local governments through extensive training, consultation, and analysis of their pay equity reports.

DOER has communicated through various means with the approximately 1,500 local governments required to comply with the law. The department has produced numerous free technical assistance publications.

In addition, DOER has developed computer software to help jurisdictions determine the underpayment of female job classes and calculate the results for several of the compliance tests. Over 1000 jurisdictions have used the software to evaluate their compensation structure with respect to pay equity. An upgraded version of the software was launched in November of 2007, available to download free of charge from DOER's website. DOER has periodically offered training sessions, and thousands of individuals throughout the state have attended. DOER has also made videos explaining reporting requirements, compliance requirements and job evaluation methodology.

In addition to ongoing daily technical assistance, the pay equity coordinator conducted the following major activities in 2007.

Pay Equity Implementation Reports

- **Analysis of Pay Equity Reports**

Completed an initial review of the 502 reports submitted in January of 2007. After the initial analysis of the reports, approximately half were in compliance and half were either out of compliance or needed further clarification or corrections. All non-complying jurisdictions were required to submit new reports with current data, so approximately 200 "second reports" were also analyzed. Currently, approximately 451 (90%) are in compliance, 42 (8%) are out of compliance and 9 (2%) need further clarification or correction. All jurisdictions that are out of compliance and those whose reports need correction or clarification require considerable follow-up work sometimes involving several preliminary reports and investigations to verify accuracy.

- **Notification Packet**

Prepared and sent an email version of the reporting "notification packet" to approximately 500 jurisdictions required to report in 2008. Instead of including hard copies of the 14-page instruction booklet and 17-page guidebook, the notice directed users to DOER's Web site for these materials. The notice provided directions for downloading and using the recently enhanced version of the pay equity software and a new "fill in the blank" form for smaller jurisdictions that would not normally use the software. A system is in place for users to prepare and send reports via email. The electronic reports are downloaded into our pay equity data base for calculation and processing. The department's new practice of requiring electronic reporting has prompted the need for additional technical assistance in operating the new tools.

- **Cost Savings**

Coordinated savings by changing to an electronic notice/reporting format. The electronic mailings included the notice to report, notice of compliance, and follow up communication regarding incomplete or inaccurate reports. An annual savings of \$1000 - \$1500 has been realized and the feedback on the changes has been very positive.

- **2007 Annual Report to Legislature**

Prepared the report to the legislature on the status of compliance and non-compliance regarding each of local governments.

- **Communication Regarding Non-Compliance**

Continued the courtesy of sending a reminder letter of the need to submit a new report before the final deadline to achieve compliance expires.

Prepared materials, evaluated evidence and continued coordination of an internal team of DOER staff to review and make decisions regarding reconsideration requests and requests for suspension of penalties.

Conducted meetings with jurisdictions that were found out of compliance to discuss their particular circumstances and develop strategies to achieve compliance and avoid any potential penalties.

Software Upgrade

- DOER launched a major initiative to establish a new version of the Pay Equity Analysis software on the internet. New versions of Microsoft and other technological changes made it necessary to update the software. The new software was made available to all users in November, 2007. As in the past, the new software is available online free of charge.

Ongoing Activities

- **State Job Match Job Evaluation System**

Continued distribution of the Revised 2002 State Job Match job evaluation system. This manual has been distributed free of charge since 1984 and provides jurisdictions with an “in-house” option for evaluating jobs in terms of skill, effort, responsibility and working conditions. The booklet includes hundreds of job matches, describes how to access over 1,800 state job descriptions and outlines instructions for evaluating jobs. All information is available on DOER’s Web site.

- **Instructional DVD & Technical Assistance**

Continued distribution of the DVD, “Pay Equity Reporting and Compliance Requirements” to interested parties for a fee of \$15.

Provided technical assistance and guidance for achieving compliance on a daily basis to local governments, employees and the general public via phone calls, emails, letters and faxes.

Provided testimony and written materials to members of the legislature and legislative commissions and/or committees.

- **DOER Web Site**

Continued to maintain and update DOER's pay equity Web page and the State Job Match booklet. The Web page also includes pay equity reporting instructions, compliance requirements, pay equity analysis software and forms. All are available on the web free of charge. Over 1,100 downloads of the software have been recorded.

Section Two

Tests for Compliance

A. Tests for Compliance

The tests for compliance are summarized below. Complete details for each of the tests can be found in the pay equity rule. The “recommended action” after each is a brief overview of the general advice DOER gave to jurisdictions that did not pass a particular test. Reports to each jurisdiction were individualized and identified specific problems and requirements to pass the compliance test(s).

1. **Completeness and accuracy test (CA)** - determines whether jurisdictions have filed reports on time, included correct data and supplied all required information.

Recommended action: *Supply any required information not included in the report, make certain all data is correct and submit report by the required date.*

2. **Statistical analysis test (ST)** - compares salary data to determine if female classes are paid consistently below male classes of comparable work value (job points). Software is used to calculate this test. For smaller jurisdictions, the alternative analysis is used instead of the statistical analysis.

Recommended action: *Adjust salaries to reduce the number of female classes compensated below male classes of comparable value, or reduce the difference between the average compensation for male classes and female classes to the level where it is not statistically significant.*

3. **Alternative analysis test (ALT)** - compares salary data to determine if female classes are paid below male classes even though the female classes have similar or greater work value (job points). Also evaluates the compensation for female classes rated lower than all other classes to see if it is as reasonably proportionate to points as other classes.

Recommended action: *Eliminate the amount of the inequity identified between the salaries for female classes and male classes.*

4. **Salary range test (SR)** - compares the average number of years it takes for individuals in male and female classes to reach the top of a salary range. This test only applies to jurisdictions that have classes where there are an established number of years to move through salary ranges.

Recommended action: *Bring more consistency to the average number of years it takes to move through a salary range for male and female classes to meet the minimum standard for passing the test.*

-
5. **Exceptional service pay test (ESP)** - compares the number of male classes in which individuals receive longevity or performance pay above the maximum of the salary range to the number of female classes where this occurs. This test applies only to jurisdictions that provide exceptional service pay.

Recommended action: *Bring more consistency to the number of male and female classes receiving exceptional service pay to meet the minimum standard for passing the test.*

B. Summary of Tests Failed After Initial Analysis

The following is a summary of 502 reports submitted in 2007. Of the 132 jurisdictions whose reports were initially found out of compliance, 68% failed the completeness and accuracy test. Approximately 22% failed either the statistical or alternative analysis tests, tests that compare salaries and indicate wage inequities. A specific breakdown regarding each test follows:

Test Failed	Number
Completeness and Accuracy Test	90
Statistical Analysis Test	7
Alternative Analysis Test	22
Salary Range Test	3
Exceptional Service Pay Test	6
More than one Test	4
Total	132

Section Three

Summary of Compliance Status of Local Governments

Due to the three-year reporting cycle that began in 1994 and a two-year moratorium on reporting in 2004 and 2005, the current compliance status of local governments includes a composite of results from the years, 2003, 2006 and 2007. At this time, 96% of all jurisdictions are in compliance.

Summary of Compliance Status by Jurisdictional Type - Composite 2003, 2006 & 2007

Jurisdiction Type	In Compliance	Out of Compliance	Decision Pending	Total
City	617	19	4	640
County	86	1	0	87
Schools	327	11	3	341
Soil & Water Conservation Districts (SWCDs)	83	0	0	83
Other Districts	128	1	2	131
Housing and Redevelopment Authorities (HRAs)	74	1	0	75
Townships	75	8	0	83
Utilities	41	3	0	44
Health Care Fac.	42	2	0	44
TOTAL	1473	46	9	1528

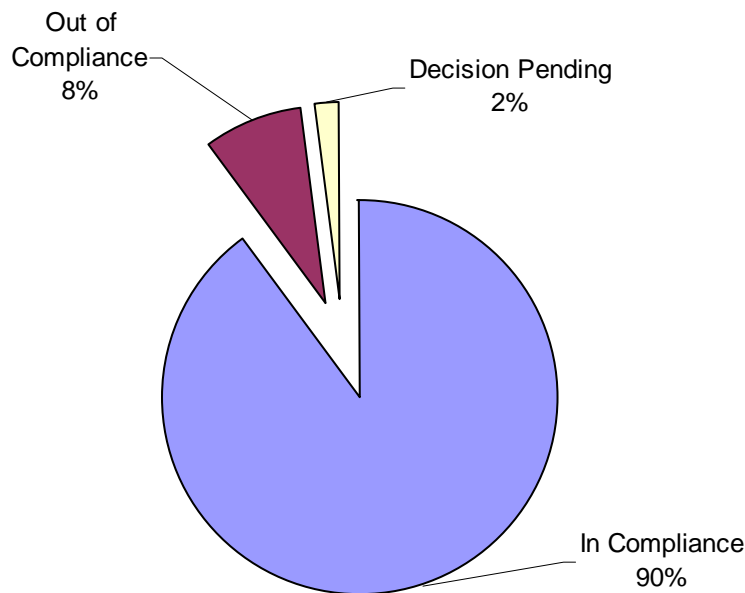

Compliance Status of 2007 Reports

After the initial analysis of the 502 reports submitted in 2007, 361 (72%) were in compliance and 132 (26%) were found out of compliance. The decision is pending for 9 jurisdictions (2%). Over two-thirds of the jurisdictions initially found out of compliance have now achieved compliance.

Jurisdictions found out of compliance were given a grace period of at least 90 days to make adjustments and submit new second reports. Non-complying jurisdictions were also given 30 days to file reconsideration requests if they wanted the grace period extended or wanted to explain their particular circumstances and seek a reversal of DOER's decision. Several of the 132 jurisdictions initially found out of compliance exercised their option to request reconsideration.

Jurisdictions failing to achieve compliance within the grace period and found out of compliance a second time, may be subject to a penalty.

Compliance Status of 2007 Reports

Inequities Identified in Reports Submitted in 2007

For the past several reporting years, DOER has examined the inequities found in jurisdictions that were not in compliance to determine how the wage gap between comparable male and female job classes changed after pay equity wage increases were given. This report includes examples of inequities that were found and corrected in some of the jurisdictions that were found out of compliance.

Inequities were identified in instances where females were paid less than males even though their job evaluation ratings indicated that the females should be paid at least equal to the males. In addition, disparities could not be accounted for by length of service or performance differences. For example, a female in the position of city clerk, rating of 275 points, was paid less than a male in a maintenance position with a rating of 213 points. The dollar amounts of such inequities were calculated and appear on the next page.

Typical inequities in cities were found primarily between city clerks and maintenance workers. In schools, female classes of secretaries, food service workers and teacher aides were paid less than male classes such as custodians.

The examples on the next page show that wages for females were adjusted an average of \$1.69 per hour or 13%. Before the inequities were corrected, the average pay for females in the examples was \$12.95 per hour and average for males was \$15.44 per hour. That is, the females were paid 83% of the wages paid to males despite job evaluation ratings that indicated that the pay for the females should be more equitable to the pay for males. After adjustments were made, the average pay for females was \$14.64 per hour and for males it was \$16.34 per hour. The wage gap narrowed and, on average, wages for females increased to 90% of their male counterparts.

Wages Before and After Pay Equity Adjustments

(Calculation of examples of inequities in jurisdictions found out of compliance)

Examples of Inequities Identified in 2007 Reports

Position	Hourly Wage "Before"	Hourly Wage "After"	Difference
<i>Admin. Asst.</i>	10.07	11.71	1.64
<i>Ambulance Director</i>	13.45	15.00	1.55
<i>Asst. Librarian</i>	8.50	9.86	1.36
<i>Asst. Liquor St. Mgr.</i>	8.90	11.48	2.58

<i>Township Clerk</i>	15.93	17.00	1.07
<i>Transportation Sup.</i>	14.90	19.42	4.52
Averages	\$12.95	\$14.64	\$1.69

Section Four

Jurisdictions Not in Compliance

A. Jurisdictions Not in Compliance - Penalty May Be Assessed

The jurisdictions listed below have all received a “first notice of non-compliance” but at this time no penalties have been assessed. Some of the jurisdictions on this list have recently submitted second reports yet to be reviewed or they submitted reconsideration requests. Any jurisdiction on this list could receive a penalty notice at a later time if they fail to submit a new report that passes all compliance tests. The specific actions DOER recommended to each jurisdiction to achieve compliance are described in section two.

The abbreviations for the tests for compliance used in this section are: CA – completeness and accuracy; ST – statistical salary comparison analysis; ALT – alternative salary comparison salary analysis; SR – salary range and ESP – exceptional service pay. A complete description of each of these tests can be found in section two of this report.

Jurisdiction	Test(s) Failed	Est. Monthly Cost to Achieve Compliance	Cost as % Payroll
Cities			
Akeley	ALT	1308	0.6
Biscay	ALT	164	1.0

Newberg Township	CA	*	0.1
Paynesville Township	CA	*	0.1
Pike Bay Township	CA	*	0.1

*Data to calculate a specific amount was not available to DOER at the time of this report, but based on DOER analysis of average costs, DOER estimates that the cost would not exceed 0.1% of payroll and would probably be less.

**All cost estimates less than 0.1% of payroll were rounded to 0.1%.

B. Jurisdictions Not in Compliance - Penalties Assessed

At this time there are no jurisdictions that have received a second notice of non-compliance with the Local Government Pay Equity Act and a notice that they are subject to a penalty. If there were any jurisdictions in this category, DOER would have specified the reason for non-compliance, recommended actions to achieve compliance and estimated the cost of achieving for compliance for each of these jurisdictions.

Prior to any penalties being assessed, a jurisdiction subject to a penalty would have had several opportunities to avoid such a notice including a first notice of non-compliance and a grace period to make corrections and achieve compliance. In addition, non-compliant jurisdictions would have been:

- Warned that failure to achieve compliance by the end of the grace period would result in a second notice of non-compliance and a penalty notice. Also, that the penalty would be the greater of a 5% reduction in state aid or \$100 per day assessed from the original deadline for compliance and would continue until compliance was achieved.
- Advised of the reason they were found out of compliance, the results of the tests for compliance and an explanation of the results.
- Encouraged to contact DOER for technical assistance and review of potential salary and other adjustments to see if they would meet compliance requirements.
- Advised to request reconsideration if they wished to explain circumstances and ask for a reversal of DOER's decision, or request an extension of the grace period to achieve compliance.
- Sent a courtesy reminder letter from DOER 30 days prior to the end of their grace period to remind them of the deadline for achieving compliance and submitting a new report.

Any penalized jurisdiction would have had the option to request a suspension of the penalty and/or file a contested case appeal. Penalties may not be imposed while an appeal is pending.

The law allows DOER to consider the following factors when deciding whether to suspend any portion of a penalty: circumstances beyond a jurisdiction's control, severe hardship, non-compliance due to factors unrelated to gender, and steps the jurisdiction has taken to achieve compliance. Jurisdictions also have the option to submit a contested case appeal on the new penalty amounts.

Because penalties continue until compliance is achieved, jurisdictions that do not achieve compliance are subject to additional penalties. No penalties may be imposed until the end of the legislative session in which DOER submits a report listing a jurisdiction as not in compliance. DOER makes compliance decisions on an ongoing basis and updates the legislature annually.

C. Jurisdictions Not in Compliance – Penalties Resolved

There were no penalty cases initiated in 2006 and currently there are no penalty cases pending. A total of 94 penalty cases have been resolved over the past ten years resulting in approximately \$1.62 million in total restitution paid to approximately 1100 employees for past inequities. A total of \$210,233 has been collected in penalties. The penalties go to the general fund and not to DOER.
