Ms. Bev Kroiss  
Director, Real Estate Management Division  
Minnesota Department of Administration  
50 Sherburne Ave., St. Paul, MN 55155

**RECEIVED**

SEP 20 2002

**REAL ESTATE MANAGEMENT**

Dear Ms. Kroiss:

Enclosed is the "Inventory of State-Owned Land" information as specified in Commissioner David Fisher's letter of July 1, 2002, Minnesota Laws 2002, Chapter 393, Section 36, and as we discussed in our telephone conversation of 8/6/2002. Included are paper copies of the aggregated inventory information arranged by DNR management unit and by Department of Administration use codes. Also included is a CD-ROM including detail records containing the legal description information (county, township, range direction, range, section, forty, government lot) for each land record as well as gross acreage, administrative unit, and DNR management program. The detail records are included in three formats: a Microsoft Access 97 database, a dBase IV file, and a text file. My recommendation is that if you need to use the detail records, the Access database will be the easiest to use - provided you are familiar with the software. Also included on the CD-ROM are lookup files located in the Access 97 database and in dBase IV format for the county name and DNR management program. Finally, I have also included a copy of the Excel 2000 spreadsheet used to make the printed aggregated reports.

As we discussed, the information being reported includes transactions finalized in the DNR Land Records as of September 18, 2002 in order to meet the September 30, 2002 publication deadline. Additional transactions in process to be completed during calendar 2002 will need to be reflected in future versions of the 2002 inventory.

Thanks very much for your advice on the production of the inventory. Please let me know if any additional information is required.

Sincerely,

Mike Jordan  
DNR Land Records Data Administrator  
Minnesota DNR Lands and Minerals Division
