MINNESOTA • REVENUE

March 1, 2008

To The Members of the Legislature of the State of Minnesota:

I am pleased to transmit to you the Limited Market Value Report for taxes payable 2008, undertaken by the Department of Revenue in response to Laws of Minnesota for 1993, Chapter 375, Article 5, Section 42 regarding the market value exclusion under Minnesota Statutes, Section 273.11, Subdivision 1a.

The report provides summary and municipal tables on the market value limitation exclusion for farm, residential and seasonal recreational residential property. The market value exclusion for this limitation for taxes payable 2008 sums to \$17,891,542,877 at the statewide level, or 3.8 percent of the total taxable market value of the limited classes of property.

Minnesota Statutes, Section 3.197, specifies that a report to the Legislature must include the cost of its preparation. The approximate cost of preparing this report was \$5,000.

Sincerely,

Ward Einess
Commissioner

Executive Summary

This report presents information on the effects of Minnesota's Limited Market Value law. The law, enacted in 1993, currently limits the increase in the value subject to tax to no more than (a) 15 percent of the prior year's taxable value or (b) 33% of the difference between the current estimated market value and the prior year's taxable value, whichever is greater. The law applies only to favored properties, defined as farms, residential homesteads and non-homesteads, seasonal recreational residential property (hereafter referred to as "cabins"), and timberland.

Under current law, this limitation will end after taxes payable in 2009. Payable 2010 taxes will be based on full estimated market valuations without this limitation.

Over the past 30 years, governors and legislatures have been very concerned about rising property taxes, particularly on residential homesteads. Enactment of the Limited Market Value law in 1993 was one of many attempts to slow the growth in property taxes, particularly for favored classes, since the late 1960s.

Absent other mitigating policies, preferential valuations redistribute local property tax bases, shifting taxes across and within classes of property. They decrease taxes on some properties, while increasing taxes on others.

This is the 15th annual report on the impacts of the limitation. It is prepared each year at the request of the legislature (Law of Minnesota, 1993, Chapter 375, Article 5, Section 42).

Data Error

In 2008 it was discovered that some counties had in previous years miscalculated the limitation amount as related to green acres and platted value. As a result, the limitation amounts were inflated by \$7 billion or 28% overall, mostly in farm classes. For payable 2008 data, corrected fall mini abstracts were sent to the Department of Revenue. For payable 2004 to 2007 comparison data in Tables 2 and 4, limitation amounts from the market value sales ratio file were used. See Appendix A-3 for more information.

Key Findings

Statewide Impacts – Taxes Payable in 2008

- Minnesota's Limited Market Value law has excluded over \$17.9 billion in property valuation, statewide as shown in the Table 1-E. This represents 3.8% of total pre-limit taxable market value of the favored classes of property (farms, residential property, and cabins).
- Since 2004, the amount of value excluded has declined by 43.7%.

**Table 1-E
Total Market Value Limitation**

| Payable Year | Total Exclusion Amount (Dollars) | Limited Classes Taxable Market Value | Percent of Value Excluded |
|---------------------|---|---|----------------------------------|
| 2004 | \$31,786,863,304 | \$288,021,229,010 | 9.9% |
| 2005 | 28,935,827,216 | 331,536,356,580 | 8.0% |
| 2006 | 27,091,550,693 | 377,650,643,364 | 6.7% |
| 2007 | 26,223,892,950 | 424,164,823,020 | 5.8% |
| 2008 | 17,891,542,877 | 458,503,391,202 | 3.8% |

- Favored properties shared the total \$17.9 billion exclusion in the following proportions: 32.0% for farms, 28.4% for residential homesteads, 26.9% for cabins, and 12.0% for residential non-homestead (*Table 3*).
- Compared to other properties, statewide, the value of cabins was reduced the most, by 17.1% for payable 2008. The value of farm property was reduced by 7.7% (including a 28.8% reduction for timberland), non-homestead residential values were reduced by 5.1%, and homestead residential values were reduced by 1.5% (*Table 2*).
- In percentage terms, changes in the share of taxable market value for each property class are relatively small. Farm homesteads' share fell from 9.3% to 9.1%, residential non-homesteads fell from 7.3% to 7.1%, cabins fell from 4.9% to 4.2%, and farm non-homestead and timberland fell from 3.9% to 3.5%. In contrast, the Limited Market Value law increased residential homesteads' share of taxable market value from 56.9% to 57.8% (*Table 4*).

Metro Area Impacts

- The total metro valuation exclusion is \$4.6 billion, *down* 50% from \$9.2 billion in 2007. This represents 1.8% of total pre-limit taxable market value (*Tables 2 and 5*).
- By class, the excluded value and percent reduction in value were as follows: residential homestead \$2.5 billion (1.1%); residential non-homestead \$1.3 billion (4.5%); farms \$0.7 billion (13.2%); cabins \$75.8 million (17.8%); (*Table 2*).

Greater Minnesota Impacts

- The total value exclusion in Greater Minnesota was \$13.3 billion, *down* from \$17.0 billion in 2007. This represents 6.0% of pre-limit values (*Tables 2 and 5*).
- By class, the excluded value and percent reduction were as follows: farms \$5.2 billion (7.3%); cabins \$4.7 billion (17.0%); residential homestead \$2.6 billion (2.4%); residential non-homestead \$0.9 billion (6.2%) (*Table 2*).

Limited Market Value Shifts Taxes Across Property Classes

- Statewide, the Limited Market Value law increased net taxes for residential homestead properties by \$20.9 million (0.6%) relative to the tax that would have been paid without the limitation as shown in Figure 1-E. Taxes on other classes of property subject to the limitation decreased as follows: cabins -\$14.8 million (-6.8%); farms -\$13.8 million (-2.7%); farms -\$13.7 million (-3.1%); timberland -\$3.8 million (-20.4%) (Table 6).
- Payable 2008 is the third year in which residential homestead properties as a group statewide have experienced a net increase in property taxes because of the Limited Market Value law.
- Non-limited properties (apartments, commercial and industrial properties, resorts, public utilities, mineral, railroad, and personal property) paid \$30.7 million more in taxes because of limited market value (+1.1%) (Table 6).

**Figure 1-E
Statewide Average Percent Change in Property Tax
Due to LMV, by Class of Property
Taxes Payable 2008**

Limited Market Value Shifts Taxes Within Property Classes

Residential Homesteads

- In 2008, the Limited Market Value law increased property taxes on 93% of the state’s 1.4 million residential homesteads (1.3 million parcels) by \$60 million (an average of \$46 per parcel). For the other 7% of residential homesteads (138,000), the law decreased property taxes by \$35 million (an average of \$256 per parcel). Approximately 53,000 parcels with limited value had an increase in the tax. This seemingly counter-intuitive result occurs because the limitation on these residential homestead properties was overwhelmed by proportionately larger limitations on other properties. The net tax increase of \$25 million on residential homesteads as a group results from shifts from other limited classes of property.

Cabins

- In 2008, the Limited Market Value law decreased property taxes on 69% of the state's 209,000 cabins (145,000 parcels) by \$25 million (an average of \$173 per parcel). For the other 31% of parcels (62,000), the limitation law increased property taxes by \$5 million (average of \$87 per parcel). The net tax reduction of \$20 million for cabins as a group resulted in shifts onto other classes of limited and non-limited properties.

Greatest Degree of Limitation Reductions Occurred in Sparsely Populated Areas and Lake Areas of the State

- The greatest degree of limitation occurred in north east and north central Minnesota (*Table 7 and Appendix Tables A-1 and A-2*).

Introduction

This report presents information on the effects of Minnesota’s Limited Market Value law. The law, enacted in 1993, currently limits the increase in the value subject to tax to no more than (a) 15 percent of the prior year’s taxable value or (b) 33% of the difference between the current estimated market value and the prior year’s taxable value, whichever is greater. The law applies only to favored properties, defined as farms, residential homesteads and non-homesteads,¹ seasonal recreational residential property (hereafter referred to as “cabins”), and timberland.

Under current law, this limitation will end after taxes payable in 2009. Payable 2010 taxes will be based on full estimated market valuations without this limitation.

Over the past 30 years, governors and legislatures have been very concerned about rising property taxes, particularly on residential homesteads. Enactment of the Limited Market Value law in 1993 was one of many attempts to slow the growth in property taxes, particularly for the favored classes, since the late 1960s.

Absent other mitigating policies, preferential valuations redistribute local property tax bases, shifting taxes both across and within classes of property. It decreases taxes on some properties, while increasing taxes on others.

Table 1 below shows the history of the Limited Market Value law from its enactment in 1993 through the 2005 legislative changes.

Table 1
History of Limited Market Value Law

| Year Enacted | Limit | Difference Factor | Effective Assessment Year | |
|-------------------------------------|--|-------------------|---------------------------|--------------|
| 1993 | Established program/sunset after 6 years | 10% | 33.33% | 1993 – 1998 |
| 1994 | Sunset one year earlier | 10% | 33.33% | Ends in 1997 |
| 1997 | Extended program and increased number eligible | 10% | 25% | 1998 – 2001 |
| 1999 | Increased number eligible | 8.5% | 18% | 1999 – 2001 |
| 2001 | Extended program, but established phaseout schedule. (Also added timberland as favored class.) | 10% | 15% | 2002 |

¹ Non-homestead residential includes rental property with three or fewer units.

As mandated in Laws of Minnesota for 1993, Chapter 375, Article 5, Section 42, this is the fifteenth annual report on the total value excluded from taxation by the limitation law in 2008.

The report summarizes the effects of the limitation law at the statewide and regional levels. Tables 2 through 4 show the amounts by which the law reduces taxable market value for each of the favored property tax classes. Table 5 shows how those limitation amounts changed between pay 2007 and pay 2008. Table 6 summarizes how the law changes net tax liability for each property class, including those classes whose values are not limited

Within favored classes there are both winners and losers. For two favored classes – residential homesteads and cabin property – the parcel-level analysis in the report identifies how many parcels pay less tax because of limited market value, and how many pay more. (See *Figures 5 and 6.*)

Table 7 lists the cities or townships with the largest percentage reductions in rank order, which are also shown on the accompanying map. Appendix A includes the mandated tables of excluded value, by property type, for each city and township in the state.

The sources of information used in this report are the 2008 fall mini-abstract of assessment and the 2008 final abstract of assessment (which report taxable market values after the limitation reduction and other property value exclusions). Each county assessor submits these abstracts to the Department of Revenue. The limitation amounts by type of property were obtained from data listed on the mini-abstract.

Data Error

In 2008 it was discovered that some counties had in previous years miscalculated the limitation amount as related to green acres and platted value. As a result, the limitation amounts were inflated by \$7 billion or 28%, mostly in farm classes. For payable 2008 data, corrected fall mini abstracts were sent to the Department of Revenue. For payable 2004 to 2007 comparison data in Tables 2 and 4, limitation amounts from the market value sales ratio file were used. See Appendix A-3 for more information.

How Does the Limit Actually Work?

For eligible properties, the limitation provision in Section 273.11, Subd. 1a limits the annual increase in market value subject to tax to increases of no more than (a) 15 percent of the prior year's taxable value or (b) 33% of the difference between the current estimated market value and the prior year's taxable value, whichever is greater. The prior year value used in this calculation is the prior year's market value, after limitation.²

Figure 1 illustrates the calculation of value subject to tax in 2008 for a property with 2007 market value of \$200,000 (and no limited value in 2007).

- Example A. If market value rises by 10 percent in 2008 (to \$220,000), the limitation law has no effect. The value subject to tax rises by the full 10 percent (to \$220,000).

² Prior year's value is after any reductions for "green acres" (273.111) and "open space" (273.112), and before any exclusions for platted lands, "this old house" or "this old business."

- Example B. If market value rises by 30 percent in 2008 (to \$260,000), the value subject to tax will rise by only 15 percent (to \$230,000).
- Example C. If market value rises by 80 percent in 2008 (to \$360,000), the value subject to tax will rise by 26 percent (to \$252,000). This exceeds 15 percent because at least 33 percent of the \$160,000 increase must be subject to tax.
- Example D. If property value increased by 100 percent in 2007 (to \$400,000), the value subject to tax would rise by 33 percent (to \$266,000). This exceeds 15 percent because at least 33 percent of the \$200,000 increase must be subject to tax.

Figure 1
Limited Market Value Examples*

| | Examples | | | |
|---|------------|------------|------------|------------|
| | A | B | C | D |
| Estimated Market Value Comparison | | | | |
| 1) 2007 Taxes Payable Market Value | \$ 200,000 | \$ 200,000 | \$ 200,000 | \$ 200,000 |
| 2) 2008 Taxes Payable Estimated Market Value** | \$ 220,000 | \$ 260,000 | \$ 360,000 | \$ 400,000 |
| 3) Market Value Increase (2-1) | \$ 20,000 | \$ 60,000 | \$ 160,000 | \$ 200,000 |
| Percentage Increase | 10% | 30% | 80% | 100% |
| Maximum Market Value Determination | | | | |
| 4) 115% of 2007 Taxes Payable Market Value (1 x 115%) | \$ 230,000 | \$ 230,000 | \$ 230,000 | \$ 230,000 |
| 5) 2007 Taxes Payable Market Value Plus 33% of Estimated Market Value Increase [(1 + (3 x 33%))] | \$ 206,600 | \$ 219,800 | \$ 252,800 | \$ 266,000 |
| 6) 2007 Taxes Payable Maximum Market Value (Greater of 4 or 5) | \$ 230,000 | \$ 230,000 | \$ 252,800 | \$ 266,000 |
| Limited Market Value Determination | | | | |
| 7) 2008 Taxes Payable Limited Market Value (Lesser of 2 or 6) | \$ 220,000 | \$ 230,000 | \$ 252,800 | \$ 266,000 |
| Percentage Increase | 10% | 15% | 26% | 33% |

Example A: Limitation does not apply.

Example B: 15 percent limitation applies.

Example C and D: 33 percent limitation applies.

* Examples assume limitation does not apply to this parcel for taxes payable 2007.

** Excluding the value of new improvements for pay 2008.

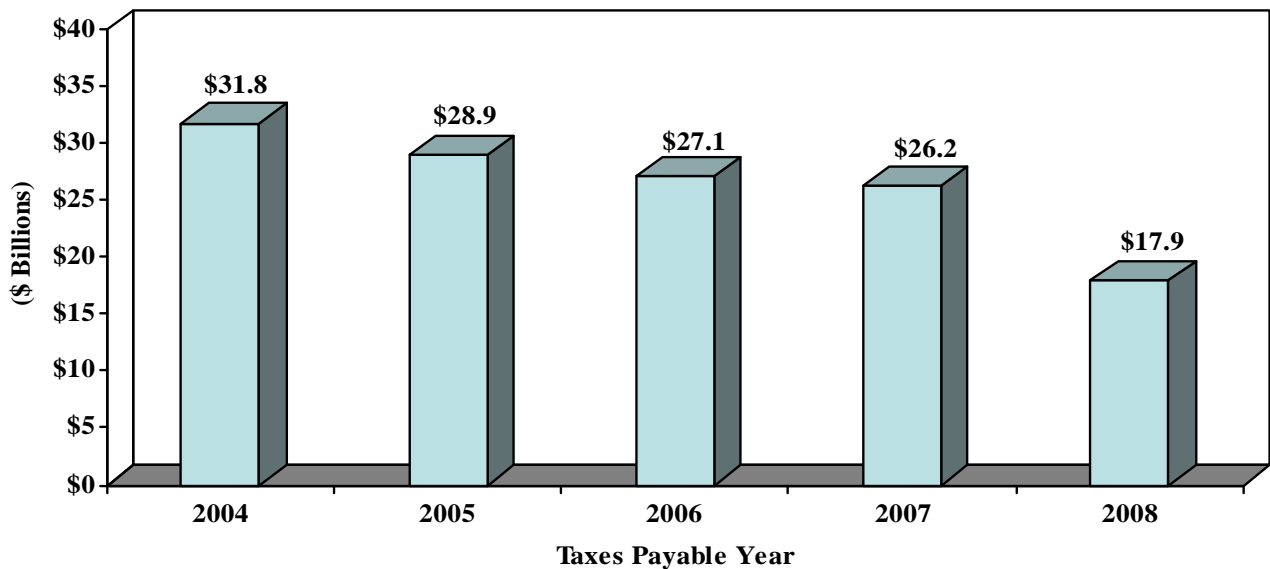

The limit applies to farm, residential, and cabin properties. Timberland is included in farm non-homestead. All rental housing with three or fewer units is included as residential non-homestead property.

- New ownership of a previously limited parcel does not change the market value limitation.
- New improvements, whether to land or structures, are excluded from the limit calculation in the year in which the new improvements become taxable, but thereafter become part of the estimated market value used in determining the market value limitation in subsequent years.
- Limitation does not continue to apply when a property class changes from a favored class to a non-favored class.³
- The exclusions in law for platted vacant land, green acres, and “this old house” take precedence over the Limited Market Value law and are calculated without taking into account the limitation reduction.⁴

Statewide and Regional Limitation Amounts by Property Class

The total limitation reduction statewide for taxes payable 2008 is \$17,891,542,877. As Figure 2 shows, this is a decrease of 32 percent from the 2007 level.

Figure 2
Market Value Limitation, Pay 2004 – 2008

³ Memo from Michael P. Wandmacher to all county assessors, June 23, 1993, pp. 3-4.

⁴ Minnesota Department of Revenue, “Supplement to the Instructions for Limits on Increases to Estimated Market Value,” 1994.

Table 2 shows that the reduction remains significant. In percentage terms, the value of cabin property was reduced the most (17.1 percent statewide).

| Cabins | \$ 27,750,655,031 | \$ 23,021,030,140 | \$ 4,729,624,891 | 17.0% |
| Residential Homestead | \$ 108,261,978,631 | \$ 105,707,883,868 | \$ 2,554,094,763 | 2.4% |
| Residential Non-Homestead | 14,000,800,879 | 13,129,786,260 | 871,014,619 | 6.2% |
| Total Residential | <u>\$ 122,262,779,510</u> | <u>\$ 118,837,670,128</u> | <u>\$ 3,425,109,382</u> | <u>2.8%</u> |
| Total | \$ 221,297,183,104 | \$ 207,960,775,527 | \$ 13,336,407,577 | 6.0% |

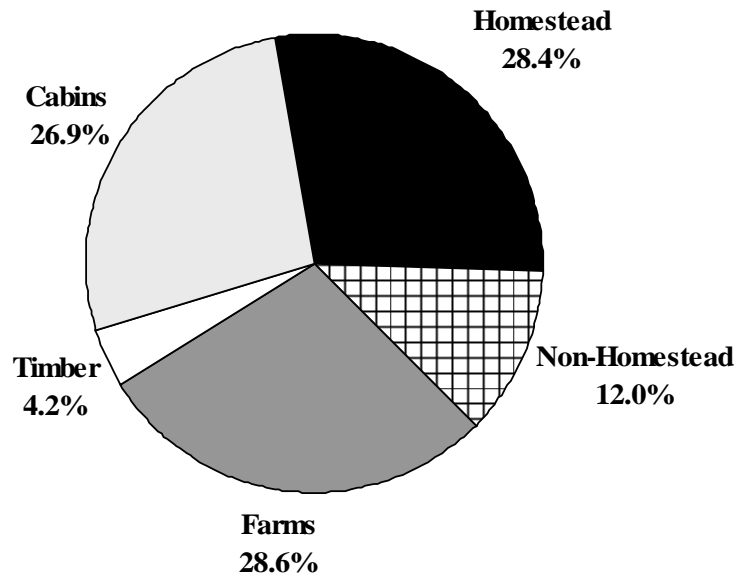

Regionally, the market value of all favored classes combined was reduced by more in Greater Minnesota (6.0 percent) than in the metro area (1.8 percent). In dollar terms, most of the limitation (74.5 percent) occurs in Greater Minnesota (\$13.3 billion), where the limit affects cabin property more than other property classes. Market values in the metro region were reduced by \$4.6 billion (25.5 percent of the statewide reduction). The reduction for residential homestead property statewide was \$5.1 billion, with \$2.5 billion of this reduction in the metro region.

As shown in Table 3 and Figure 3, statewide 32.8 percent of the limitation is for farm property (including timberland), 40.3 percent for residential property, and 26.9 percent for cabin property. Residential homestead reductions account for 55.3 percent of the total reductions in the metro area, but only 19.2 percent in Greater Minnesota.

Table 3
Market Value Limitation Shares by Region
Taxes Payable 2008

| <u>Property Type</u> | <u>Total Limitation</u> | <u>Share of Region</u> | <u>Share of State</u> |
|---------------------------|-----------------------------|----------------------------|---------------------------|
| Statewide | | | |
| Farm Homestead | \$ 3,143,869,222 | | 17.6% |

Figure 3
Statewide Market Value Limitations

Statewide Changes in Distribution of Market Values Across Property Classes

As Table 4 shows, the value limitation reduced the share of taxable market value for most eligible property classes, but in percentage terms, the changes are relatively small. The shares for farm, cabin, and residential non-homestead property declined. In contrast, limited market value increased the shares for all classes of property not in a favored class (apartment, commercial, industrial, and public utility property) and for one favored class (residential homestead property).

Changes from Pay 2007 to 2008

Table 5 shows that the Limited Market Value law has excluded \$17.9 billion in property values statewide. The total exclusion decreased statewide from \$26.2 billion for taxes payable 2007, a decrease of \$8.3 billion. The total limitation decreased by 21.7 percent in Greater Minnesota while falling by 50.4 percent in the metro region.

Statewide and Regional Changes in Distribution of Net Tax Amounts Across Property Classes

Table 6 shows how limited market value changes the statewide distribution of net tax payable in 2008 across property classes. The non-limitation simulation holds the state levy constant, allows market value credits to change, and allows TIF levies to decrease due to lower tax rates on commercial property.

Figure 4 shows the change in net tax by property class. In percentage terms, timberland property taxes fell the most, with a 20.4 percent decrease statewide. Farm taxes fell by 3.1 percent, cabin property taxes by 6.8 percent, and residential non-homestead property taxes by 2.7 percent. In 2008, for the third time, residential homesteads statewide have a higher net tax under LMV than without, with an increase of 0.6 percent. Commercial/industrial and utility property taxes rose by 0.9 percent and 1.8 percent respectively. Apartment taxes rose 1.6 percent, and resort property taxes rose by 8.6 percent.

Due to LMV, by Class of Property
Taxes Payable 2008

Parcel-Level Analysis: Change in Net Tax Within Property Classes

The reductions in valuations shown in this report have the effect of increasing local property tax rates and consequently shifting property taxes from properties with faster growing valuations to those growing more slowly.

To estimate the parcel-level tax effects of the current limitation for taxes payable in 2008, parcel limited market value and limitation amounts for residential homesteads and cabin property were taken from the market value sales ratio file created from county submissions. Local tax rates were computed with and without the limitation to identify the change in parcel-level property tax due to the limitation.⁵

In 2008, the Limited Market Value law increased property taxes on 93% of the state's 1.4 million residential homesteads (1.3 million parcels), by \$60 million (an average increase of \$46 per parcel). For the other 7% of residential homesteads (138,000), the law decreased property taxes by \$35 million (an average reduction of \$256 per parcel). Approximately 53,000 parcels with limited value had an increase in tax. This seemingly counter-intuitive result occurs because the limitation on these residential homestead properties was overwhelmed by proportionately larger limitations on other properties. The net tax increase of \$25 million on residential homesteads as a group results from shifts from other limited classes of property.

Figure 5 shows the distribution of counts of residential homestead parcels by net change in tax.

In 2008, the Limited Market Value law decreased property taxes on 69% of the state's 209,000 cabin properties (145,000 parcels) by \$25 million (an average of \$173 per parcel). For the other 31% of parcels (62,000), the limitation law increased taxes by \$5 million (an average of \$87 per parcel). The net tax reduction of \$20 million for cabins as a group resulted in shifts onto other classes of limited and non-limited properties.

Figure 6 shows the distribution of counts of cabin properties by net change in tax.

⁵ For taxes payable 2008, 99.8% of residential homestead market value on the parcel file was captured compared to assessment abstracts. 100.2% of non-commercial seasonal recreational residential improved and unimproved parcel taxable market value was captured compared to assessment abstracts. Tax rates from the net tax analysis model runs were applied to market value before and after limitation using Truth-in-Taxation levies available in January.

Pay 2008 Limitation Reductions at the City and Township Level

The greatest degree of market value limitation at the city and township level occurred in sparsely populated and lake areas of the state. The map shows cities and townships with the highest percentage of market value limitation for all favored classes combined. The greatest degree of limitation occurred in northern and north central Minnesota, although a few Wright County municipalities were also included. Table 7 lists the top 140 cities and townships that have the greatest percent reduction in value.

Appendix Tables provide a detailed breakdown in county order of the limitation reductions for each favored class in each city and township in the state. Total includes timberland limitation.

APPENDIX TABLES

A-1 and A-2

Total Market Value Limitation and Reduction By City and Township

Details by Property Type

Note: The market value limitation for the five property classes included in Tables A-1 and A-2 may sum to less than the total limitation shown in Table A-2. The difference is the limitation for timberland.

Table A-1
