# STATE LIBRARY SERVICES

State Library Services, a division of the Minnesota Department of Education, is the Minnesota state library agency. The state library provides leadership and support to the Minnesota library community in planning, developing and implementing high quality library and information services statewide. State Library Services administers federal and state grants-in-aid programs for libraries.

## Vision Statement

State Library Services, acting as the State Library Agency for the Minnesota Department of Education, leads in developing, planning and implementing excellent library and information services statewide. The State Library Agency ensures that Minnesota libraries and their communities have access to the present and future information resources they need through partnerships with public information and cultural institutions.

## Mission Statement

To provide the library services and information resources needed by Minnesotans, the Minnesota State Library Agency will:

- Administer statewide library services;
- Develop and implement standards of accountability of state and federal funding recipients;
- Develop and implement statewide and regional library services, initiatives and programs;
- Implement statewide planning and evaluation for library development for all types of libraries;
- Develop and implement standards for libraries;
- Provide leadership for career and education opportunities;
- Certify library eligibility for state and federal assistance;
- Advise the governor, the legislature and regional and local governing bodies on library-related issues; and
- Facilitate partnerships between libraries and other agencies.

Minnesotans deserve equitable access to library services and information resources regardless of geographic location, economic or social status, cultural background, age, or level of intellectual or physical ability. The library network of trustees, friends, librarians, administrators and their communities must work together to voice their concerns and support for equitable access to their funding entities, including their congressional, legislative, county and city officials. This collaboration will help to foster a more informed citizenry, a stronger democracy, and more economically viable communities statewide.

State Library Services operates the Minnesota Braille and Talking Book Library, located in Faribault.

## NOTES AND GLOSSARY

1. Officially, as cited on 2006 Statistical Highlights, page i, Minnesota has 139 public library administrative agencies responsible for 157 library buildings<sup>1</sup>. Three regional public library systems, Metropolitan Library Service Agency (MELSA), Southeastern Libraries Cooperating (SELCO) and Traverse des Sioux Library System (TdS) provide support services to their member libraries that benefit library users but do not work directly with the public. When applicable, most notably in the financial report sections, their data are included in the regional and statewide summaries. SELCO had previously been classified as a public library because of its bookmobile service. SELCO ended the service on December 31, 2005.
2. Federal operating revenue (pages i, 2 6, 9 and 34-39) includes Library Services and Technology Act (LSTA) funds allocated to regional public library systems or individual public libraries only. The state dollar amount does not include state library agency initiatives funded by LSTA. The total LSTA funds received for federal fiscal year 2006 was \$1,903,187
3. State operating revenue (pages i, 2 6, 9 and 34-39) includes funds allocated to regional library systems or individual libraries. The state dollar amount does not include the \$900,000 annual appropriation to support the Electronic Library of Minnesota databases, which are available at all affiliated public libraries.
4. Populations of the twelve regional public library systems are based on the 2005 county population estimates of the Minnesota State Demographic Center. Individual library populations are estimated by the library directors. Because of overlapping estimates by directors, it is possible for the sum of populations served by the individual libraries to exceed the population of a regional public library system designated population.
5. Physical materials are tangible items that are available on-site from a library. As technology increases the availability of downloadable library resources such as books, music and films, a decrease in tangible resources may not reflect a decrease in available resources.
6. Internet Users has replaced Internet Access Terminals, used previously.
7. Meeting Room Use has replaced Public Room Use, used previously.
8. Previous surveys requested a count of the number of persons using electronic resources. The 2006 census asked for a count of persons using computers connected to the Internet. Out of privacy considerations, libraries were instructed to count all users if a computer could be used for multiple purposes. The individual library reports indicate whether the number includes other uses or not.
9. The definition of Internet computers available to the public has been expanded to include laptop computers provided by the library.
10. Two new data elements dealing with internet connectivity and speed have been added to the annual report at the regional level (pages 4 and 5).
11. The survey and data element definitions are available at State Library Services statistics web page, as are the individual library reports which are the basis for this compilation: [http://education.state.mn.us/MDE/Learning\\_Support/Library\\_Services/Minnesota\\_Libraries\\_and\\_Librarians/Library\\_Statistics/index.html](http://education.state.mn.us/MDE/Learning_Support/Library_Services/Minnesota_Libraries_and_Librarians/Library_Statistics/index.html)
12. An unaffiliated library is one whose city has decided not to be a member of a regional public library system. Their status prohibits them from receiving any state derived benefits. The five communities are: Clarkfield, Crosby, East Grand Forks, Hendricks, and Taylors Falls.
13. Reciprocal borrowing is defined as occurring when an individual whose residence is in one regional public library system personally borrows materials from a library located in a different regional public library system. An interlibrary loan occurs when a request for materials is made remotely and the material is transported to the library of choice of the individual.
14. Tables and data were compiled by Bruce Pomerantz, Library Development Specialist. Data not available through this publication or the Excel spreadsheet posted on the State Libraries Services website may be requested by phoning 651-582-8890 or contacting [bruce.pomerantz@state.mn.us](mailto:bruce.pomerantz@state.mn.us).

<sup>1</sup>An earlier edition of this publication had a typographical error indicating 157 buildings.

<sup>1</sup>2003-2005 national data comes from the annual *Public Libraries in the United States*, published by National Center for Education Statistics (NCES), U.S. Department of Education and is the most recent data available for national comparisons. The 2005 and 2006 Minnesota numbers are based on unduplicated state population of 5,205,091 and 5,231,106,, respectively, and calculated by State Library Services. NCES calculates population on libraries' service area populations. Because of overlapping library service areas, a state's service population may be larger than the true population, which is the case with Minnesota by approximately 500,000. Consequently, the Minnesota numbers differ slightly from what is printed in the NCES publication, usually between one and two tenths. The 2005 and 2006 Minnesota data includes the three regional public library system agencies that NCES excludes from its calculations. See Note 1, page vi. Starting with 2005 data, NCES calculated numbers to one decimal point. To remain consistent within this table, the Minnesota numbers have been rounded to one decimal point. Due to rounding, state numbers in this table may differ by one decimal point from the same state measures in other tables in this publication. The Minnesota rankings are calculated by State Library Services from the *Public Libraries in the United States* data that includes the larger population figure.

<sup>2</sup>The national data and rankings include the 50 states and the District of Columbia.

<sup>3</sup>All dollar figures are given in current dollars.

<sup>4</sup>NCES did not tabulate the 2005 data for (1) various staffing measures per 25,000 population and (2) revenue per capita from local, state and federal funds as it had in previous years. It did begin a new measure of revenue source by percentage and expenditure categories as a percentage of all expenditures.

<sup>6</sup>ALA/MLS signifies a person with a Masters of Library Science degree from a graduate program accredited by the American Library Association.
