**MILLE LACS COUNTY**  
**MILACA, MINNESOTA**

FOR THE YEAR ENDED DECEMBER 31, 2010

## **Description of the Office of the State Auditor**

The mission of the Office of the State Auditor is to oversee local government finances for Minnesota taxpayers by helping to ensure financial integrity and accountability in local governmental financial activities.

Through financial, compliance, and special audits, the State Auditor oversees and ensures that local government funds are used for the purposes intended by law and that local governments hold themselves to the highest standards of financial accountability.

The State Auditor performs approximately 160 financial and compliance audits per year and has oversight responsibilities for over 3,300 local units of government throughout the state. The office currently maintains five divisions:

**Audit Practice** - conducts financial and legal compliance audits of local governments;

**Government Information** - collects and analyzes financial information for cities, towns, counties, and special districts;

**Legal/Special Investigations** - provides legal analysis and counsel to the Office and responds to outside inquiries about Minnesota local government law; as well as investigates allegations of misfeasance, malfeasance, and nonfeasance in local government;

**Pension** - monitors investment, financial, and actuarial reporting for approximately 730 public pension funds; and

**Tax Increment Financing** - promotes compliance and accountability in local governments' use of tax increment financing through financial and compliance audits.

The State Auditor serves on the State Executive Council, State Board of Investment, Land Exchange Board, Public Employees Retirement Association Board, Minnesota Housing Finance Agency, and the Rural Finance Authority Board.

### INDEPENDENT AUDITOR'S REPORT

Board of County Commissioners  
Mille Lacs County

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Mille Lacs County, Minnesota, as of and for the year ended December 31, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Mille Lacs County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and U.S. Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Mille Lacs County as of December 31, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Required Supplementary Information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. In accordance with auditing standards generally accepted in the United States of America, we have applied certain limited procedures to the required supplementary information, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Mille Lacs County's basic financial statements taken as a whole. The supplementary information and other schedules, including the Schedule of Expenditures of Federal Awards required by OMB Circular A-133, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information and other schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 26, 2011, on our consideration of Mille Lacs County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

**MILLE LACS COUNTY  
MILACA, MINNESOTA**

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
DECEMBER 31, 2010  
(Unaudited)**

Mille Lacs County's Management's Discussion and Analysis (MD&A) provides an overview of the County's financial activities for the fiscal year ended December 31, 2010. We encourage readers to consider the information presented here in conjunction with the County's basic financial statements following this section. All amounts, unless otherwise indicated, are expressed in whole dollars.

**FINANCIAL HIGHLIGHTS**

- Governmental activities' total net assets are \$73,643,783, of which Mille Lacs County has invested \$51,921,583 in capital assets, net of related debt, and \$2,502,581 is restricted to specific purposes/uses by the County.
- The net cost of Mille Lacs County's governmental activities for the year ended December 31, 2010, was \$12,198,782; the net cost was funded by general revenues and other items totaling \$16,562,345.
- At the close of 2010, Mille Lacs County's governmental funds reported combined ending fund balances of \$23,172,437, an increase of \$1,457,436 from the previous year-end balance. At the end of the year, Mille Lacs County's unreserved fund balance totaled \$21,179,412, which is available for spending at the County Board's discretion.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

Mille Lacs County's MD&A serves as an introduction to the basic financial statements. The County's basic financial statements consist of three parts: government-wide financial statements, fund financial statements, and notes to the financial statements. The MD&A (this section), certain budgetary comparison schedules, and the Schedule of Funding Progress - Other Postemployment Benefits are required to accompany the basic financial statements and, therefore, are included as required supplementary information. The following chart demonstrates how the different pieces are inter-related.

<b>Management’s Discussion and Analysis</b> (Required Supplementary Information)
---

<b>Government-Wide Financial Statements</b>	<b>Fund Financial Statements</b>
<b>Notes to the Financial Statements</b>	

<b>Required Supplementary Information</b> (Other than Management’s Discussion and Analysis)
--

Mille Lacs County presents two government-wide financial statements. They are the Statement of Net Assets and the Statement of Activities. These two government-wide financial statements provide information about the activities of the County as a whole and present a longer-term view of Mille Lacs County’s finances. The County’s fund financial statements follow these two government-wide financial statements. For governmental activities, these statements tell how Mille Lacs County financed these services in the short term as well as what remains for future spending. Fund financial statements also report the County’s operations in more detail than the government-wide statements by providing information about the County’s most significant/major funds. The remaining statements provide financial information about activities for which the County acts solely as a trustee or agent for the benefit of those outside of the government.

**Government-Wide Financial Statements--The Statement of Net Assets and the Statement of Activities**

The Statement of Net Assets and the Statement of Activities report information about Mille Lacs County as a whole and about its activities in a way that helps the reader determine whether Mille Lacs County’s financial condition has improved or declined as a result of the current year’s activities. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies.

These two statements consider all of Mille Lacs County’s current year revenues and expenses, regardless of when the County receives the revenue or pays the expenditure, and report the County’s net assets and changes in them. You can think of the County’s net assets--the difference between assets and liabilities--as one way to measure Mille Lacs County’s financial health or financial position. Over time, increases or decreases in the County’s net assets are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the County’s property tax base and the general economic conditions of the state and County, to assess the overall health of Mille Lacs County.

Governmental activities--Mille Lacs County reports its basic services in the "Governmental Activities" column of these reports. The activities reported by the County include general government, public safety, highways and streets, sanitation, human services, health, culture and recreation, conservation of natural resources, economic development, and interest expense on long-term debt. Mille Lacs County finances the majority of these activities with local property taxes, state-paid aids, fees, charges for services, and federal and state grants.

### **Fund Financial Statements**

Mille Lacs County's fund financial statements provide detailed information about the significant funds--not the County as a whole. Significant governmental, proprietary, and fiduciary funds may be established by the County to meet requirements of a specific state law; to help control and manage money for a particular purpose/project; or to show that it is meeting specific legal responsibilities and obligations when expending property tax revenues, grants, and/or other funds designated for a specific purpose.

Governmental funds--Most of Mille Lacs County's basic services are reported in governmental funds, which focus on how money flows in and out of those funds and the balances left at year-end that are available for spending. These funds are reported in the financial statements using an accounting method called modified accrual accounting. This accounting method measures cash and other financial assets that the County can readily convert to cash. The governmental fund statements provide a detailed short-term view of the County's general government operations and the basic services it provides. Governmental fund information helps determine whether financial resources are available that can be spent in the near future to finance various programs within Mille Lacs County. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation statement following each governmental fund financial statement.

Proprietary funds--The County maintains one proprietary fund type, an internal service fund, which is an accounting device used to accumulate and allocate costs internally. Mille Lacs County uses an internal service fund to account for its self-insurance activities. These services benefit governmental functions and have been allocated to governmental activities in the government-wide financial statements.

### **Reporting the County's Fiduciary Responsibilities**

Mille Lacs County is the trustee, or fiduciary, over assets that can be used only for the trust beneficiaries based on the trust arrangement. The County reports all of its fiduciary activities in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets. These activities have been excluded from the County's other financial statements because the County cannot use these assets to finance its operations. Mille Lacs County is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

### **Governmental Activities**

Revenues for Mille Lacs County's governmental activities for the year ended December 31, 2010, were \$30,682,688. The County's cost for all governmental activities for the year ended December 31, 2010, was \$26,319,125. The net assets for the County's governmental activities increased by \$4,363,563 in 2010.

As shown in the Statement of Activities, the amount that Mille Lacs County taxpayers ultimately financed for these governmental activities through local property taxation was \$13,806,506, because \$3,015,810 of the costs were paid by those who directly benefited from the programs, and \$11,104,533 was paid by other governments and organizations that subsidized certain programs with grants and contributions. Mille Lacs County paid for the remaining "public benefit" portion of governmental activities with \$2,222,580 in grants and contributions not restricted to specific programs and \$533,259 in other revenues, such as investment income, mortgage registry tax, and state deed tax.

Table 3 presents the cost of each of Mille Lacs County's five largest program functions as well as each function's net cost (total cost, less revenues generated by the activities). The net cost shows the financial burden placed on Mille Lacs County's taxpayers by each of these functions.

**THE COUNTY’S FUNDS**

As Mille Lacs County completed the year, its governmental funds, as presented in the balance sheet, reported a combined fund balance of \$23,172,437.

**General Fund Budgetary Highlights**

The Mille Lacs County Board of Commissioners, over the course of a budget year, may amend/revise the County’s General Fund budget.

Budget amendments/revisions fall into one of three categories: new information changing original budget estimations, greater than anticipated revenues or costs, and final agreement reached on employee contracts.

In 2010, the General Fund actual revenues were below the expected revenues by \$34,793. The actual expenditures were \$759,104 less than budgeted expenditures; the largest portion of this unexpended amount was related to the Justice Center Building Project and the Courthouse Square remodel projects. The Justice Center project was completed under budget. Funds were budgeted for the Courthouse Square remodel, but due to construction time frames, the funds for furnishings and completion of the project were not needed until 2011.

## CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

At the end of 2010, Mille Lacs County had \$63,653,271 invested in a broad range of capital assets, net of depreciation. This investment in capital assets includes land, land improvements, buildings, highways and streets, equipment, and software (see Table 4 below).

**Table 4**

Total	<u>\$ 13,475,000</u>	<u>\$ 12,145,000</u>	10.95

Other long-term obligations include compensated absences and the other postemployment benefits liability. Mille Lacs County's notes to the financial statements provide detailed information about the County's long-term liabilities.

## **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The County's elected and appointed officials considered many factors when setting the fiscal year 2010 budget and tax rates.

- Major revenue sources for the County are state-paid aids, credits, and grants. The State of Minnesota has indicated that County Program Aid and various grant programs will be cut for 2010 and 2011. The County has reduced expenditures for 2010 and 2011 to reflect these estimated cuts.
- Mille Lacs County's annual unemployment rate for 2010 was 12 percent. This is significantly above the state-wide and national rates.

## **CONSTRUCTION/BONDING PLANS**

- Construction of the new Justice Center was underway for all of 2009 and was completed in April 2010. The Board authorized a \$7.985 million capital improvement bond to cover the majority of this project; this was issued in 2008. The remainder of the approximately \$10 million project has been paid out of the 2009 and 2010 Capital Projects Fund's budget and reserves.
- The Board authorized remodeling of the Courthouse Square Building in 2010 to accommodate the newly integrated Community and Veterans Services Department. The project is to be completed in 2011.
- The Board authorized the remodel of the Historic Courthouse in 2011. This remodel includes upgrades to the plumbing, heating, and electrical systems, as well as structural changes to accommodate office relocations and upgrading. This update will be funded through capital funds and the issuance of bonds.
- As part of the American Recovery and Reinvestment Act of 2009 (ARRA), Mille Lacs County issued \$920,000 of Recovery Zone Economic Development Bonds (RZEDBs), for which the County will receive a payment from the federal government equal to 45 percent of the amount of interest payable on each interest payment date. The Series 2010B bonds are direct pay tax credit RZEDBs. The County has complied with all requirements of ARRA to be eligible for the RZEDB interest credit. The Series 2010B bonds were issued as taxable obligations which the County will elect to irrevocably designate as qualified RZEDBs. The entire County has been designated as a recovery zone pursuant to a resolution adopted by the Board of County Commissioners on July 20, 2010.

- The County also issued General Obligation Capital Improvement Plan Bonds, Series 2010A, in the amount of \$900,000. Both the Series 2010A and 2010B bonds were issued for the Historic Courthouse remodel project. Neither of these bonds had any drawdown of funds as of December 31, 2010.

## **CONTACTING THE COUNTY'S FINANCIAL MANAGEMENT**

Mille Lacs County's financial report provides citizens, taxpayers, customers, investors, and creditors with a general overview of Mille Lacs County's finances and shows the County's accountability for the money it receives and spends. If you have questions about this report, or need additional financial information, contact Roxy Traxler, Mille Lacs County Administrator, (320-983-8218), Mille Lacs County Courthouse, 635 - 2nd Street S.E., Milaca, Minnesota 56353.

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES--GOVERNMENTAL ACTIVITIES  
FOR THE YEAR ENDED DECEMBER 31, 2010**

**Net change in fund balance - total governmental funds (Exhibit 5) \$ 1,490,767**

Amounts reported for governmental activities in the statement of activities are different because:

In the funds, under the modified accrual basis, receivables not available for expenditure are deferred. In the statement of activities, those revenues are recognized when earned. The adjustment to revenue between the fund statements and the statement of activities is the increase or decrease in revenue deferred as unavailable.

Deferred revenue - December 31	\$ 2,278,010	
Deferred revenue - January 1	<u>(2,532,054)</u>	(254,044)

Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. Also, in the statement of activities, only the gain or loss on the disposal of assets is reported; whereas, in the governmental funds, the proceeds from the sale increase financial resources. Therefore, the change in net assets differs from the change in fund balance by the net book value of the assets sold.

Expenditures for general capital assets and infrastructure	\$ 6,932,608	
Current year depreciation	<u>(2,157,651)</u>	4,774,957

Issuing long-term debt provides current financial resources to governmental funds, while the repayment of debt consumes current financial resources. Neither transaction, however, has any effect on net assets.

Proceeds of new debt		
Bonds issued	\$ (1,820,000)	
Issuance costs on bonds issued	<u>49,350</u>	(1,770,650)

Principal repayments		
General obligation bonds	\$ 400,000	
Lease revenue bonds	<u>90,000</u>	490,000

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Change in accrued interest payable	\$ (66,855)	
Change in compensated absences	(97,776)	
Change in OPEB liability	(169,105)	
Change in inventories	(33,331)	
Current year amortization of issuance costs, discounts, and premiums	<u>(11,212)</u>	(378,279)

An internal service fund is used by management to charge the costs of insurance to individual funds. The increase in net assets of the internal service fund is reported in the government-wide statement of activities.

**NOTES TO THE FINANCIAL STATEMENTS  
AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2010**

---

1. Summary of Significant Accounting Policies

The County's financial statements are prepared in accordance with generally accepted accounting principles (GAAP) as of and for the year ended December 31, 2010. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board issued through November 30, 1989, (when applicable) that do not conflict with or contradict GASB pronouncements. The more significant accounting policies established in GAAP and used by the County are discussed below.

A. Financial Reporting Entity

Mille Lacs County was established May 23, 1857, and is an organized county having the powers, duties, and privileges granted counties by Minn. Stat. ch. 373. The County is governed by a five-member Board of Commissioners elected from districts within the County. The Board is organized with a chair and vice chair elected at the annual meeting in January of each year. The County Administrator, who is an appointed officer, serves as the Clerk of the Board of Commissioners but does not vote in its decisions.

For financial reporting purposes, Mille Lacs County has included all funds, organizations, account groups, agencies, boards, commissions, and authorities, and has considered all potential component units for which the County is financially accountable, and other organizations for which the nature and significance of their relationship with the County are such that exclusion would cause Mille Lacs County's financial statements to be misleading or incomplete. GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the County to impose its will on that organization; or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the County.

As required by accounting principles generally accepted in the United States of America, these financial statements present Mille Lacs County (the primary government) and its component unit for which the County is financially accountable.

A. Financial Reporting Entity (Continued)

Blended Component Unit

The Mille Lacs County Housing and Redevelopment Authority (HRA), a blended component unit of Mille Lacs County, is governed by a five-member Board consisting of the Mille Lacs County Board of Commissioners and has the power to levy taxes, issue bonds, and enter into contracts. The HRA was established to assist with the implementation of a redevelopment plan to promote economic development within Mille Lacs County. Although it is legally separate from the County, the activity of the HRA is included in the Mille Lacs County reporting entity as the Housing and Redevelopment Authority Special Revenue Fund because the HRA's governing body is the same as the governing body of Mille Lacs County. Separate financial statements are not available for the Mille Lacs County HRA.

Joint Ventures

The County participates in several joint ventures described in Note 5.C.

B. Basic Financial Statements

1. Government-Wide Statements

The government-wide financial statements (the statement of net assets and the statement of activities) display information about the primary government and its component unit. These statements include the financial activities of the overall County government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities, which normally are supported by taxes and intergovernmental revenue, are reported in a single column.

In the government-wide statement of net assets, the governmental activities column is presented: (a) on a consolidated basis and (b) is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The County's net assets are reported in three parts: (1) invested in capital assets, net of related debt; (2) restricted net assets; and (3) unrestricted net assets. The County first utilizes restricted resources to finance qualifying activities.

---

1. Summary of Significant Accounting Policies

B. Basic Financial Statements

1. Government-Wide Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of each function of the County's governmental activities are offset by program revenues. Direct expenses are those clearly identifiable with a specific function or activity. Program revenues include: (1) fees, fines, and charges paid by the recipients of goods, services, or privileges provided by a given function or activity; and (2) grants and contributions restricted to meeting the operational or capital requirements of a particular function or activity. Revenues not classified as program revenues, including all taxes, are presented as general revenues.

2. Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component unit. Separate statements for each fund category--governmental, proprietary, and fiduciary--are presented. The emphasis of governmental and proprietary fund financial statements is on major individual governmental and internal service funds, with each displayed as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor funds.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

The principal operating revenues of the County's internal service fund include insurance fees, and the principal operating expenses include insurance payments. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

B. Basic Financial Statements

2. Fund Financial Statements (Continued)

The County reports the following major governmental funds:

The General Fund is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Road and Bridge Special Revenue Fund is used to account for revenues and expenditures of the County Highway Department, which is responsible for the construction and maintenance of roads, bridges, and other projects affecting County roadways.

The Family Services Special Revenue Fund is used to account for economic assistance and community social services programs.

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, principal, interest, and related costs of general long-term debt.

The Capital Projects Fund is used to account for the financial resources to be used for capital acquisition, construction, or improvement of capital assets, exclusive of infrastructure (roads, bridges, etc.).

Additionally, the County reports the following fund types:

The Self-Insurance Internal Service Fund accounts for the County's self-insurance activities.

The Private-Purpose Trust Fund accounts for funds that the County Auditor/Treasurer is holding for the cemetery, missing heirs, and Court Administrator.

The Agency Fund is custodial in nature and does not present results of operations or have a measurement focus. This fund accounts for assets that the County holds for others in an agent capacity.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Mille Lacs County considers all revenues as available if collected within 60 days after the end of the current period. Property and other taxes, licenses, and interest are all considered susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, compensated absences, and claims and judgments, which are recognized as expenditures to the extent that they have matured. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources. When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first and then unrestricted resources as needed.

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

The cash balances of substantially all funds are pooled and invested by the County Auditor/Treasurer for the purpose of increasing earnings through investment activities. Pooled and fund investments are reported at their fair value at December 31, 2010, based on market prices. Pursuant to Minn. Stat. § 385.07, investment earnings on cash and pooled investments of governmental and fiduciary funds are credited to the General Fund. Other funds received investment earnings based on other state statutes, grant agreements, contracts, and bond covenants. Pooled investment earnings for 2010 were \$171,709.

1. Summary of Significant Accounting Policies

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments (Continued)

Cash and cash equivalents are identified only for the purpose of the statement of cash flows for the proprietary fund. Pooled investments, which have the characteristics of demand deposits, are considered to be cash and cash equivalents on the statement of cash flows.

Mille Lacs County invests in an external investment pool, the Minnesota Association of Governments Investing for Counties (MAGIC) Fund, which is created under a joint powers agreement pursuant to Minn. Stat. § 471.59. The MAGIC Fund is not registered with the Securities and Exchange Commission (SEC), but does operate in a manner consistent with Rule 2a-7 prescribed by the SEC pursuant to the Investment Company Act of 1940 (17 C.F.R. § 270.2a-7). Therefore, the fair value of the County's position in the pool is the same as the value of the pool shares.

2. Receivables and Payables

Activities between funds representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (the current portion of interfund loans) or "advances to/from other funds" (the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

Property taxes are levied as of January 1 on property values assessed as of January 1 of the previous year. The tax levy notice is mailed in March with the first half payment due May 15 and the second half payment due October 15. Unpaid taxes at December 31 become liens on the respective property and are classified in the financial statements as delinquent taxes receivable.

---

1. Summary of Significant Accounting Policies

D. Assets, Liabilities, and Net Assets or Equity (Continued)

3. Inventories and Prepaid Items

All inventories are valued at cost using the first in/first out method. Inventories in governmental funds are recorded as expenditures when purchased rather than when consumed. Reported inventories are equally offset by reserved fund balance to indicate that they do not constitute available spendable resources.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

4. Capital Assets

Capital assets, including property, plant, equipment, and infrastructure assets (for example, roads, bridges, and similar items), are reported in the government-wide financial statements. The County defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the County are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	20 - 35
Buildings	25 - 40
Machinery and equipment	3 - 15
Infrastructure	15 - 70
Software	5

**MILLE LACS COUNTY

1. Summary of Significant Accounting Policies

D. Assets, Liabilities, and Net Assets or Equity (Continued)

5. Compensated Absences

The liability for compensated absences reported in the financial statements consists of unpaid, accumulated annual and sick leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included. Compensated absences are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

6. Deferred Revenue

All County funds and the government-wide financial statements defer revenue for resources that have been received, but not yet earned. Governmental funds also report deferred revenue in connection with receivables for revenues not considered to be available to liquidate liabilities of the current period.

7. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as an other financing source. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

1. Summary of Significant Accounting Policies

D. Assets, Liabilities, and Net Assets or Equity (Continued)

8. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans subject to change. The unreserved, undesignated account indicates the portion of equity available for appropriation in future periods.

9. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Stewardship, Compliance, and Accountability

A. Deficit Fund Equity

Three of five drainage systems of the Ditch Special Revenue Fund have incurred expenditures in excess of revenues and available resources. These deficits will be eliminated with future special assessment levies against benefited properties. The following summary shows the unreserved, undesignated fund balance for the year ended December 31, 2010:

Account balances	\$ 16,360
Account deficits	<u>(31,321)</u>
Total Fund Balance	<u><u>\$ (14,961)</u></u>

1. Deposits and Investments (Continued)

a. Deposits

The County is authorized by Minn. Stat. §§ 118A.02 and 118A.04 to designate a depository for public funds and to invest in certificates of deposit. The County is required by Minn. Stat. § 118A.03 to protect deposits with insurance, surety bond, or collateral. The market value of collateral pledged shall be at least ten percent more than the amount on deposit at the close of the financial institution's banking day, not covered by insurance or bonds.

Authorized collateral includes treasury bills, notes and bonds; issues of U.S. government agencies; general obligations rated "A" or better and revenue obligations rated "AA" or better; irrevocable standby letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution not owned or controlled by the financial institution furnishing the collateral.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a financial institution failure, the County's deposits may not be returned to it. The County does not have a deposit policy for custodial credit risk other than complying with the requirements of Minnesota statutes. As of December 31, 2010, the County's deposits were not exposed to custodial credit risk.

b. Investments

The County may invest in the following types of investments as authorized by Minn. Stat. §§ 118A.04 and 118A.05:

- (1) securities which are direct obligations or are guaranteed or insured issues of the United States, its agencies, its instrumentalities, or organizations created by an act of Congress, except mortgage-backed securities defined as "high risk" by Minn. Stat. § 118A.04, subd. 6;

- (2) mutual funds through shares of registered investment companies provided the mutual fund receives certain ratings depending on its investments;
- (3) general obligations of the State of Minnesota and its municipalities, and in certain state agency and local obligations of Minnesota and other states provided such obligations have certain specified bond ratings by a national bond rating service;
- (4) bankers' acceptances of United States banks;
- (5) commercial paper issued by United States corporations or their Canadian subsidiaries that is rated in the highest quality category by two nationally recognized rating agencies and matures in 270 days or less; and
- (6) with certain restrictions, in repurchase agreements, securities lending agreements, joint powers investment trusts, and guaranteed investment contracts.

Interest Rate Risk

Interest rate risk is the risk that changes in the market interest rates will adversely affect the fair value of an investment. The County does not have a policy regarding interest rate risk.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. It is the County's policy to invest only in securities that meet the ratings requirements set by state statute.

b. Investments (Continued)

Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The County does not have a policy on custodial credit risk. At December 31, 2010, none of the County's investments were subject to custodial credit risk.

Concentration of Credit Risk

The concentration of credit risk is the risk of loss that may be caused by the County's investment in a single issuer. It is the County's policy that U.S. Treasury securities, U.S. agency securities, and obligations backed by U.S. Treasury and/or U.S. agency securities may be held without limit.

The following table presents the County's deposit and investment balances at December 31, 2010, and information relating to potential investment risks:

As part of the American Recovery and Reinvestment Act of 2009 (ARRA), Mille Lacs County issued \$920,000 of Recovery Zone Economic Development Bonds (RZEDBs), which were issued for the Historical Courthouse Square remodel project. The Series 2010B bonds are direct pay tax credit RZEDBs, in which the County will receive a payment from the federal government equal to 45 percent of the amount of interest payable on each interest payment date. The County has complied with all requirements of ARRA to be eligible for the RZEDB

interest credit. The Series 2010B bonds were issued as taxable obligations, which the County will elect to irrevocably designate as qualified RZEDBs. The entire County has been designated as a recovery zone pursuant to a resolution adopted by the Board of Commissioners of the County on July 20, 2010.

Taking into consideration the above RZEDB interest credit, as of December 31, 2010, the County's net annual debt service requirements to amortize all taxable general obligation bonds outstanding, including interest of \$250,797 on the governmental activities debt, is as follows:

D. Contract Commitments

The County has entered into contract commitments of \$39,590 for County-wide energy efficiency and \$679,507 for the Courthouse Square remodel project, which have not been completed as of December 31, 2010.

4. Employee Retirement Systems and Pension Plans

A. Defined Benefit Plans

Plan Description

All full-time and certain part-time employees of Mille Lacs County are covered by defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA administers the General Employees Retirement Fund, the Public Employees Police and Fire Fund, and the Local Government Correctional Service Retirement Fund (the Public Employees Correctional Fund), which are cost-sharing, multiple-employer retirement plans. These plans are established and administered in accordance with Minn. Stat. chs. 353 and 356.

General Employees Retirement Fund members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security, and Basic Plan members are not. All new members must participate in the Coordinated Plan, and benefits vest after three years of credited service (five years for those first eligible for membership after June 30, 2010).

All police officers, firefighters, and peace officers who qualify for membership by statute are covered by the Public Employees Police and Fire Fund. Members who are employed in a county correctional institution as a correctional guard or officer, a joint jailer/dispatcher, or as a supervisor of correctional guards or officers or of joint jailer/dispatchers and are directly responsible for the direct security, custody, and control of the county correctional institution and its inmates, are covered by the Public Employees Correctional Fund. For members first eligible for membership after June 30, 2010, benefits vest on a graduated schedule starting with 50 percent after five years and increasing 10 percent for each year of service until fully vested after ten years. Members eligible for membership before July 1, 2010, are fully vested after three years of service.

4. Employee Retirement Systems and Pension Plans

A. Defined Benefit Plans

Plan Description (Continued)

PERA provides retirement benefits as well as disability benefits to members and benefits to survivors upon death of eligible members. Benefits are established by state statute. Defined retirement benefits are based on a member's average yearly salary for the five highest-paid consecutive years of allowable service, age, and years of credit at termination of service.

Two methods are used to compute benefits for General Employees Retirement Fund Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first ten years of service and 2.7 percent for each year thereafter. For a Coordinated Plan member, the annuity accrual rate is 1.2 percent of average salary for each of the first ten years and 1.7 percent for each successive year. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For Public Employees Police and Fire Fund members, the annuity accrual rate is 3.0 percent of average salary for each year of service. For Public Employees Correctional Fund members, the annuity accrual rate is 1.9 percent of average salary for each year of service.

For all General Employees Retirement Fund members hired prior to July 1, 1989, whose annuity is calculated using Method 1, and for all Public Employees Police and Fire Fund and Public Employees Correctional Fund members, a full annuity is available when age plus years of service equal 90. Normal retirement age is 55 for Public Employees Police and Fire Fund members and Public Employees Correctional Fund members, and either 65 or 66 (depending on date hired) for General Employees Retirement Fund members. A reduced retirement annuity is also available to eligible members seeking early retirement.

The benefit provisions stated in the previous paragraphs of this section are current provisions and apply to active plan participants. Vested, terminated employees who are entitled to benefits but are not yet receiving them are bound by the provisions in effect at the time they last terminated public service.

4. Employee Retirement Systems and Pension Plans

A. Defined Benefit Plans

Plan Description (Continued)

PERA issues a publicly available financial report that includes financial statements and required supplementary information for the General Employees Retirement Fund, the Public Employees Police and Fire Fund, and the Public Employees Correctional Fund. That report may be obtained on the internet at [www.mnpera.org](http://www.mnpera.org); by writing to PERA at 60 Empire Drive, Suite 200, Saint Paul, Minnesota 55103-2088; or by calling 651-296-7460 or 1-800-652-9026.

Funding Policy

Pension benefits are funded from member and employer contributions and income from the investment of fund assets. Rates for employer and employee contributions are set by Minn. Stat. ch. 353. These statutes are established and amended by the State Legislature. The County makes annual contributions to the pension plans equal to the amount required by state statutes. General Employees Retirement Fund Basic Plan members and Coordinated Plan members are required to contribute 9.10 and 6.00 percent, respectively, of their annual covered salary. Public Employees Police and Fire Fund members are required to contribute 9.40 percent. Public Employees Correctional Fund members are required to contribute 5.83 percent of their annual covered salary.

The County is required to contribute the following percentages of annual covered payroll in 2010:

General Employees Retirement Fund	
Basic Plan members	11.78%
Coordinated Plan members	7.00
Public Employees Police and Fire Fund	14.10
Public Employees Correctional Fund	8.75

4. Employee Retirement Systems and Pension Plans

A. Defined Benefit Plans

Funding Policy (Continued)

The County's contributions for the years ending December 31, 2010, 2009, and 2008, for the General Employees Retirement Fund, the Public Employees Police and Fire Fund, and the Public Employees Correctional Fund were:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
General Employees Retirement Fund	\$ 532,097	\$ 501,239	\$ 476,247
Public Employees Police and Fire Fund	189,682	180,744	167,445
Public Employees Correctional Fund	164,413	157,080	153,231

These contribution amounts are equal to the contractually required contributions for each year as set by state statute.

B. Defined Contribution Plan

One Commissioner of Mille Lacs County is covered by the Public Employees Defined Contribution Plan, a multiple-employer, deferred compensation plan administered by PERA. The plan is established and administered in accordance with Minn. Stat. ch. 353D, which may be amended by the State Legislature. The plan is a tax qualified plan under Section 401(a) of the Internal Revenue Code, and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. For those qualified personnel who elect to participate, Minn. Stat. § 353D.03 specifies plan provisions, including the employee and employer contribution rates. An eligible elected official who decides to participate contributes 5.00 percent of salary, which is matched by the employer. Employees may elect to make member contributions in an amount not to exceed the employer share.

Employee and employer contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, PERA receives 2.00 percent of employer contributions and 0.25 percent of the assets in each member account annually.

B. Defined Contribution Plan (Continued)

Total contributions by dollar amount and percentage of covered payroll made by the County during the year ended December 31, 2010, were:

	<u>Employee</u>	<u>Employer</u>
Contribution amount	\$ 980	\$ 980
Percentage of covered payroll	5%	5%

Required contribution rates were 5.00 percent.

C. Other Postemployment Benefits (OPEB)

Plan Description

Mille Lacs County provides a single-employer defined benefit health care plan to eligible retirees and their spouses. The plan offers medical and dental insurance benefits. The County provides benefits for retirees as required by Minn. Stat. § 471.61, subd. 2b.

Funding Policy

The contribution requirements of the plan members and the County are established and may be amended by the Mille Lacs County Board of Commissioners. The required contribution is based on projected pay-as-you-go financing requirements. Retirees and their spouses contribute to the health care plan at the same rate as County employees. This results in the retirees receiving an implicit rate subsidy. For fiscal year 2010, the County contributed \$56,556 to the plan; there were 243 participants in the plan.

Annual OPEB Cost and Net OPEB Obligation

The County's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs

each year and amortize any unfunded actuarial accrued liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB obligation to the plan.

ARC	\$	229,837
Interest on net OPEB obligation		12,061
Adjustment to ARC		<u>(16,237)</u>
 Annual OPEB cost (expense)	 \$	 225,661
Contributions made - indirect implicit subsidy		<u>(56,556)</u>
 Increase in Net OPEB Obligation	 \$	 169,105
Net OPEB Obligation - Beginning of Year		<u>268,031</u>
 Net OPEB Obligation - Ending of Year	 \$	 <u>437,136</u>

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2010 was as follows:

<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Employer Contribution</u>	<u>Percentage Contributed</u>	<u>Net OPEB Obligation</u>
December 31, 2008	\$ 175,476	\$ 32,772	18.7%	\$ 142,704
December 31, 2009	175,476	50,149	28.6	268,031
December 31, 2010	225,661	56,556	25.1	437,136

As of January 1, 2010, the most recent actuarial valuation date, the County had no assets to fund the plan. The actuarial accrued liability for benefits was \$1,469,265, and the actuarial valuation of assets was zero, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,469,265. The covered payroll (annual payroll of active employees covered by the plan) was \$11,088,106, and the ratio of the UAAL to the covered payroll was 13.3 percent.

4. Employee Retirement Systems and Pension Plans

C. Other Postemployment Benefits (OPEB) (Continued)

Funded Status and Funding Progress

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the health care cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The Schedule of Funding Progress - Other Postemployment Benefits, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of the benefit cost between the employer and plan members to that point.

The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2010, actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions include a 4.5 percent investment rate of return (net of administrative expenses), which is Mille Lacs County's implicit rate of return on the General Fund. An initial health care cost trend rate of 8.5 percent was reduced incrementally to an ultimate rate of 5.0 percent after 7 years. Both rates included a 4.5 percent inflation assumption. The actuarial value of assets was set equal to the market value of assets. The UAAL is being amortized over 30 years on a closed basis. The remaining amortization period at December 31, 2010, was 27 years.

5. Summary of Significant Contingencies and Other Items

A. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disasters. To manage these risks, the County has entered into a joint powers agreement with other Minnesota counties to form the Minnesota Counties Intergovernmental Trust (MCIT). MCIT is a public entity risk pool currently operated as a common risk management and insurance program for its members. The County is a member of both the MCIT Workers' Compensation and Property and Casualty Divisions. For other risk, the County carries commercial insurance. There were no significant reductions in insurance coverage from the previous year or settlements in excess of insurance coverage for any of the past three years.

The Workers' Compensation Division of MCIT is self-sustaining based on the contributions charged, so that total contributions plus compounded earnings on these contributions will equal the amount needed to satisfy claims liabilities and other expenses. MCIT participates in the Workers' Compensation Reinsurance Association with coverage at \$450,000 per claim in 2010 and 2011. Should the MCIT Workers' Compensation Division liabilities exceed assets, MCIT may assess the County in a method and amount to be determined by MCIT.

The Property and Casualty Division of MCIT is self-sustaining, and the County pays an annual premium to cover current and future losses. MCIT carries reinsurance for its property lines to protect against catastrophic losses. Should the MCIT Property and Casualty Division liabilities exceed assets, MCIT may assess the County in a method and amount to be determined by MCIT.

On January 1, 2010, the County contracted with Delta Dental of Minnesota to administer the County's dental benefit plan for its employees as provided by the plan accepted from Delta Dental. The County sets annual premiums for the plan based on the recommendation of the plan administration and accumulates premiums collected from all participating funds in the Internal Service Fund.

At the beginning of each month, the County is billed by Delta Dental of Minnesota for the previous month's claims processed and the per employee administrative fee. The payment is made to Delta Dental from the premiums accumulated in the Internal Service Fund.

5. Summary of Significant Contingencies and Other Items (Continued)

B. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of the expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

The County, in connection with the normal conduct of its affairs, is involved in various claims, judgments, and litigation. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County Attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the County.

C. Joint Ventures

East Central Solid Waste Commission

The East Central Solid Waste Commission was established in March 1988 by a joint powers agreement among Chisago, Isanti, Kanabec, Mille Lacs, and Pine Counties to conduct a solid waste management program on behalf of the participating counties. The Commission is an organized joint venture having the powers, duties, and privileges granted joint powers by Minn. Stat. § 471.59. The Commission comprises five members--one voting member from each county. At its annual meeting, the Board of County Commissioners of each county chooses a member and an alternate, both County Commissioners, as representatives of the County. Each county has one voting member and, in the absence of the voting member, the alternate votes.

Each county's proportionate share of the total operating costs is based on the most recent census data available and is to be adjusted upon the admission of additional counties or the withdrawal of counties. The Commission will remain in existence as long as two or more counties remain as parties to the agreement. Upon dissolution of the Commission, there will be an accounting to determine assets and liabilities. The assets of the Commission will be liquidated and, after payment of liabilities, the proceeds will be distributed to the counties based on their respective ratios set by the most recent census data.

Snake River Watershed Management Board

The Snake River Watershed Management Board (SRWMB) was established in April 1993, pursuant to Minn. Stat. § 471.59, as a joint powers entity. Its purpose is to coordinate the member counties' water plans and to develop objectives to promote sound hydrologic management of the water and the related land resources. Members are Aitkin, Kanabec, Mille Lacs, and Pine Counties. Financial responsibility exists because, once the SRWMB has established a budget and determined which projects will be undertaken, each member county is required by the agreement to provide appropriate financial support. The SRWMB establishes an annual budget, and participation in the administrative costs is as follows:

Aitkin County	20.8%
Kanabec County	49.5
Mille Lacs County	9.2
Pine County	20.5

The Central Minnesota Regional Radio Board was established by a joint powers agreement among the City of St. Cloud and the Counties of Benton, Big Stone, Douglas, Grant, Kandiyohi, Meeker, Mille Lacs, Morrison, Otter Tail, Pope, Sherburne, Stearns, Stevens, Swift, Todd, Traverse, Wadena, Wilkin, and Wright. The Joint Powers Board is comprised of one City Council member from the City of St. Cloud and one County Commissioner from each member county. The parties entered into the joint powers agreement pursuant to Minn. Stat. §§ 403.39 and 471.59, for the purpose of preparing and administering a plan which provides for the installation, operation, and maintenance of local and regional enhancements to the Statewide Public Safety Radio and Communication System (ARMER) owned and operated by the State of Minnesota.

North Central Drug Task Force

Mille Lacs County, Aitkin County, Kanabec County, and the Mille Lacs Band of Ojibwe entered into a joint powers agreement, pursuant to Minn. Stat. § 471.59, for the purpose of developing and implementing a group of local law enforcement officers, which shall be available to assist any of the parties in the investigation of major drug and gang crimes within the three-county area and tribal lands. The governing board consists of the Sheriff of each member county, the police chief of the Mille Lacs Tribal Police, and the County Attorney of the host agency.

At least annually, in January, each law enforcement member county shall contribute an additional \$1,500, or its proportionate share thereof, to maintain the fund at \$6,000 per calendar year. In addition to the yearly \$1,500, each participating law enforcement agency will contribute towards a matching grant fund, not to exceed \$6,000.

**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION  
FOR THE YEAR ENDED DECEMBER 31, 2010**

---

---

1. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds, except for the Ditch Special Revenue Fund, the Housing and Redevelopment Authority Special Revenue Fund, the Debt Service Fund, and the Capital Projects Fund. All annual appropriations lapse at fiscal year-end unless specifically carried over to the next budget year by Board action.

On or before mid-June of each year, all departments and agencies submit requests for appropriations to the County Auditor/Treasurer so that a budget can be prepared. Before October 31, the proposed budget is presented to the County Board for review. The Board holds public hearings, and a final budget must be prepared and adopted no later than December 31.

The appropriated budget is prepared by fund, function, and department. The County's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require approval of the County Board. The legal level of budgetary control (the level at which expenditures may not legally exceed appropriations) is the function level.

Encumbrance accounting is employed in governmental funds. Encumbrances (such as purchase orders or contracts) outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be reapportioned and honored during the subsequent year.

2. Excess of Expenditures Over Appropriations

The following major governmental funds had expenditures in excess of budget at the function level for the year ended December 31, 2010:

	<u>Expenditures</u>	<u>Final Budget</u>	<u>Excess</u>
General Fund			
Current			
Public safety	\$ 7,054,166	\$ 6,676,472	\$ 377,694
Culture and recreation	92,920	6,667	86,253
Economic development	14,000	13,200	800
Debt service	33,850	-	33,850

2. Excess of Expenditures Over Appropriations (Continued)

	Expenditures	Final Budget	Excess
Road and Bridge Special Revenue Fund			
Current			
Highways and streets	6,553,826	6,463,836	89,990
Family Services Special Revenue Fund			
Current			
Human services	7,602,898	7,391,289	211,609

3. Other Postemployment Benefits Funding Status

Beginning in 2008, Mille Lacs County implemented Governmental Accounting Standards Board Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Since the County has not irrevocably deposited funds in a trust for future health benefits, the actuarial value of the assets is zero. Currently, only two actuarial valuations are available. Future reports will provide additional trend analysis to meet the three-year valuation funding status requirement as the information becomes available.

See Note 4.C. in the notes to the financial statements for additional information regarding the County's other postemployment benefits.

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
FOR THE YEAR ENDED DECEMBER 31, 2010**

---

---

1. Reporting Entity

The Schedule of Expenditures of Federal Awards presents the activities of federal award programs expended by Mille Lacs County. The County's reporting entity is defined in Note 1 to the financial statements.

2. Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Mille Lacs County under programs of the federal government for the year ended December 31, 2010. The information in this schedule is presented in accordance with the requirements of Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the schedule presents only a selected portion of the operations of Mille Lacs County, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Mille Lacs County.

3. Summary of Significant Accounting Policies

Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in OMB Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through grant numbers were not assigned by the pass-through agencies.

4. Subrecipients

During 2010, the County did not pass any federal money to subrecipients.

5. American Recovery and Reinvestment Act

The American Recovery and Reinvestment Act of 2009 (ARRA) requires recipients to clearly distinguish ARRA funds from non-ARRA funding. In the schedule, ARRA funds are denoted by the addition of ARRA to the program name.

Child Support Enforcement - ARRA	CFDA #93.563
Foster Care Title IV-E	CFDA #93.658
Medical Assistance Program	CFDA #93.778

- H. The threshold for distinguishing between Types A and B programs was \$300,000.
- I. Mille Lacs County was not determined to be a low-risk auditee.

**II. FINDINGS RELATED TO FINANCIAL STATEMENTS AUDITED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

INTERNAL CONTROL

PREVIOUSLY REPORTED ITEMS NOT RESOLVED

96-1 Departmental Internal Accounting Control

Due to the limited number of office personnel within the various County offices, segregation of the accounting functions necessary to ensure adequate internal accounting control is not possible. In some offices, there may be only one employee to receive and account for departmental collections. This is not unusual in small departmental situations; however, the County's management should constantly be aware of this condition and realize that the concentration of duties and responsibilities in a limited number of individuals is not desirable from an accounting point of view.

Examples of incompatible duties that should be performed by separate individuals are:

- receipting collections, posting collections to registers, and making bank deposits;
- signing checks and reconciling the bank accounts;
- receipting collections and posting collections to the accounts receivable records;
- approving receivable write-offs/write-downs and posting adjustments to the accounts receivable records; and
- data entry, adjusting accounting codes, and reviewing the monthly detailed report of receipts and disbursements for accuracy.

Some procedures the County's management may wish to consider to strengthen controls in these offices include:

- departmental collections should be remitted to the County Auditor/Treasurer more frequently than once each month, perhaps weekly or even daily, to reduce the amount of funds on hand;

- department heads should monitor operations within their offices to determine that reports are submitted properly and are in agreement with cash balances and grant expenditures; and
- when an office has only a department head and one other employee, the department head should perform some of the accounting functions.

We recommend that County management be aware of the lack of segregation of the accounting functions and implement oversight procedures to ensure that adequate controls are in place over cash, receivables, and other items.

Client's Response:

*Management is continually aware of the lack of internal controls. We have implemented policies and procedures, and continue to review them on a regular basis. As new programs and procedures are developed, internal controls are made a part of the development of those programs.*

02-1 Preparation of Financial Statements

Mille Lacs County is required to prepare financial statements in accordance with generally accepted accounting principles (GAAP). The preparation of the financial statements is the responsibility of the County's management. Financial statement preparation in accordance with GAAP requires internal controls over both: (1) recording, processing, and summarizing accounting data (maintaining internal books and records); and (2) preparing and reporting appropriate government-wide and fund financial statements, including the related notes to the financial statements.

Mille Lacs County has established controls and procedures for the recording, processing, and summarizing of its accounting data used in the preparation of its financial statements.

As is the case with many small and medium-sized entities, the County has relied on its independent external auditors to assist in the preparation of the basic financial statements, including notes to the financial statements, as part of its external financial reporting process. Accordingly, the County's ability to prepare financial statements in accordance with GAAP is based, at least in part, on its reliance on its external auditors, who cannot by definition be considered part of the government's internal control. This condition was caused by the County's decision that it is more cost effective to have its auditors prepare its annual basic financial statements than to incur the time and expense of obtaining the necessary training and expertise required to prepare the financial statements internally. As a result of this condition, the government lacks internal control over the preparation and reporting of financial statements in accordance with GAAP.

We recommend Mille Lacs County obtain the training and expertise to internally prepare its annual financial statements in accordance with GAAP. If Mille Lacs County still intends to have staff from the Office of the State Auditor assist in preparation then, at a minimum, it must identify and train individuals to obtain the expertise that can sufficiently review, understand, and approve the County's financial statements, including notes.

Client's Response:

*Mille Lacs County continues to provide more of the information necessary for the completion of the financial statements and to gain the understanding to review and approve the financial statements and notes. We recognize the value of completing our own financial statements and continue to work toward that end.*

ITEM ARISING THIS YEAR

10-1 Preparation of the Schedule of Expenditures of Federal Awards

The Office of Management and Budget's (OMB) Circular A- 133, *Audits of States, Local Governments, and Non-Profit Organizations, Auditee responsibilities* subpart C.300(a) and (d) requires, "The auditee shall identify, in its accounts, all Federal awards received and expended and the Federal programs under which they were received. Federal program and award identification shall include, as applicable, the CFDA title and number, award number and year, name of the Federal agency, and name of the pass-through entity. The auditee shall prepare appropriate financial statements, including the schedule of expenditures of federal awards in accordance with subpart C.310."

Mille Lacs County does not prepare a Schedule of Expenditures of Federal Awards (SEFA), nor does it adequately identify federal programs by amount received and expended, federal grantor agency, pass-through agency, and Catalog of Federal Domestic Assistance (CFDA) title and number as required under OMB Circular A-133.

This condition results in a deficiency in internal control over financial statement preparation and the reporting of federal financial assistance by the County. Since the County has not developed procedures for properly identifying all federal financial assistance, the County relies on its auditors for assistance with preparing the SEFA. Independent auditors cannot be considered part of the County's internal control over financial reporting.

We recommend that Mille Lacs County management develop a process, including written procedures that will allow staff to adequately identify federal revenues and accumulate the information needed to prepare the SEFA. Specific measures could include having departments informing accounting/finance when they have received a grant award, holding in suspense accounts until properly identified as to nature and source any intergovernmental revenue receipts, and comparison of the prior year SEFA to the current

year. For each federal award identified, the County should determine the correct program CFDA title and number, award number and year, federal grantor agency, pass-through agency, amount received and expended, and whether American Recovery and Reinvestment Act funding is involved. The federal CFDA website is available to assist in this process. Those responsible for compiling the SEFA should obtain the training necessary (through courses or reference materials) to understand the components of the SEFA and properly gather the correct information and maintain supporting documentation. The County should also reconcile the SEFA amounts to the general ledger and financial statements.

Client's Response:

*We will focus on adequately identifying federal programs to provide information needed for the Schedule of Expenditures of Federal Awards (SEFA) for the 2011 audit. Through the 2011 audit process we will obtain more knowledge regarding the actual completion of the schedule. We will plan to complete the schedule for the 2012 financial statements.*

**III. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARD PROGRAMS**

None.

**IV. OTHER ITEM FOR CONSIDERATION**

GASB Statement 54

The Governmental Accounting Standards Board's (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, is effective for Mille Lacs County for the year ending December 31, 2011. The standard's objectives are to enhance the usefulness of fund balance information included in the financial report through clearer fund balance classifications that can be consistently applied and to clarify existing governmental fund type definitions.

Fund Balance Reporting

Statement 54 establishes new fund balance classifications based on constraints imposed on how resources can be spent. The existing components of fund balance are reserved, unreserved-designated, and unreserved-undesignated. Statement 54 replaces these components with nonspendable, restricted, committed, assigned, and unassigned as defined below:

- *Nonspendable* - amounts that cannot be spent because they are either not in spendable form (for example, inventory or prepaid items) or legally or contractually required to be maintained intact (such as the corpus of a permanent fund).

- *Restricted* - amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- *Committed* - amounts that can be used only for specific purposes determined by a formal action of a government's highest level of decision-making authority.
- *Assigned* - amounts a government intends to use for a specific purpose that do not meet the criteria to be classified as restricted or committed.
- *Unassigned* - spendable amounts not contained in the other classifications.

The County should begin the process for implementing the new fund balance classifications. A key step in successfully implementing the new fund balance requirements is to plan ahead. The County can start with the following steps:

- review the requirements of GASB Statement 54;
- review current fund balances and compare to the new classifications;
- reclassify January 1, 2011, fund balance using the new classifications;
- review/update/prepare a comprehensive fund balance policy;
- prepare appropriate Board resolutions to commit fund balance; and
- if the Board of County Commissioners intends to delegate authority to assign fund balance, prepare the resolutions delegating that authority.

#### Governmental Fund Type Definitions

The definitions of the general fund, special revenue fund type, capital projects fund type, debt service fund type, and permanent fund type are clarified in the new standard. The new definition for a special revenue fund could have significant impact on the County's current fund classifications.

GASB Statement 54 provides a new and clearer description of when it is appropriate to account for an activity using a special revenue fund. Special revenue funds are used to report specific revenue sources restricted or committed to specified purposes other than debt service and capital projects, where the restricted or committed revenue sources comprise a substantial portion of the fund's resources, and are expected to continue to do so in the future. The standard does not define substantial portion; however, most recommendations are generally that the restricted or committed revenues should comprise

at least 35 to 50 percent of total fund revenues. Under this definition, it is possible that some current special revenue funds will no longer meet the requirements for special revenue fund treatment. The County's management should review the County's special revenue funds to ensure these funds continue to warrant treatment as special revenue funds.

The County's management should perform the following steps prior to December 31, 2011:

- prepare a list of the County's special revenue funds;
- determine the sources of revenues for each of those funds;
- identify whether any of those revenues are restricted or committed;
- determine if these restricted or committed revenues represent a substantial portion of the fund's revenues and are expected to continue to be a substantial source of revenues;
  - if yes, the fund may continue to be classified as a special revenue fund;
  - if not, determine whether the County will combine that fund with the general fund or with a similar purpose special revenue fund that meets the new definition;
- code revenues in the general ledger by source constraints--restricted, committed, assigned, or unassigned; and
- determine if there needs to be a restatement of beginning fund balances.

Additional implementation steps could include: informing any component units that they also will need to meet the requirements; deciding on how fund balance will be presented in the financials, such as detailed vs. aggregate methods; and developing the potential note disclosures. Additional guidance on GASB Statement 54 can be found on the Office of the State Auditor's website at:

## **REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Board of County Commissioners  
Mille Lacs County

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Mille Lacs County as of and for the year ended December 31, 2010, which collectively comprise the County's basic financial statements, and have issued our report thereon dated September 26, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered Mille Lacs County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the Schedule of Findings and Questioned Costs as items 96-1, 02-1, and 10-1, that we consider to be significant deficiencies in internal control over financial reporting. A significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether Mille Lacs County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Minnesota Legal Compliance

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the provisions of the *Minnesota Legal Compliance Audit Guide for Political Subdivisions*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65. Accordingly, the audit included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The *Minnesota Legal Compliance Audit Guide for Political Subdivisions* contains seven categories of compliance to be tested: contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, claims and disbursements, miscellaneous provisions, and tax increment financing. Our study included all of the listed categories, except that we did not test for compliance in tax increment financing because the cities administer tax increment financing in Mille Lacs County.

The results of our tests indicate that, for the items tested, Mille Lacs County complied with the material terms and conditions of applicable legal provisions.

Also included in the Schedule of Findings and Questioned Costs is an other item for consideration. We believe this information to be of benefit to the County, and we are reporting it for that purpose.

Mille Lacs County's written responses to the internal control findings identified in our audit have been included in the Schedule of Findings and Questioned Costs. We did not audit the County's responses and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Board of County Commissioners, management, others within Mille Lacs County, and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than those specified parties.

## **REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Board of County Commissioners  
Mille Lacs County

### Compliance

We have audited Mille Lacs County's compliance of with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2010. Mille Lacs County's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Mille Lacs County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County's compliance with those requirements.

In our opinion, Mille Lacs County complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2010.

#### Internal Control Over Compliance

Management of Mille Lacs County is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of County Commissioners, management and others within the County, and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than those specified parties.
