

# Contamination Cleanup and Investigation Grants Program

Annual Report to the Legislature  
as required by Minnesota Statute 116J.555, Subd. 2(b)

October 2013  
Author: Meredith Udoibok, Director, Office of Brownfields and Redevelopment  
Minnesota Department of Employment and Economic Development

Total cost of salaries, printing, and supplies in  
developing/preparing this report is \$175 [estimated cost]  
(reported as required by Minn. Stat. 3.197)

## Background

Begun in 1993, the Contamination Cleanup and Investigation Grants Program assists cities, counties, port authorities, housing and redevelopment authorities, and economic development authorities with contamination investigations, the development of Response Action Plans (RAPs, which identify how development authorities intend to clean up sites), or with contamination cleanup activities as prescribed in a Minnesota Pollution Control Agency (MPCA)-approved RAP on a site that will be redeveloped.

Both publicly and privately owned sites with known or suspected soil or groundwater contamination qualify for this program. Grant applications require a 25 percent local match, participation in the Metropolitan Council's Local Housing Incentives Programs for Twin Cities metro-area applicants, and the serious expectation that the site will be redeveloped.

## Ranking criteria

Applications are ranked on the following criteria:

- Tax base increase resulting from the cleanup and redevelopment of the site
- Social value of the cleanup, demonstrated by the number of jobs created through cleanup and redevelopment.
- An evaluation by the Minnesota Pollution Control Agency of the reduced threat to public health and the environment as a result of cleanup.
- Likelihood that the site will be cleaned up without government money.
- Cleanup cost.
- Commitment of local authorities to pay the local match

## Program results

Contamination Cleanup and Investigation Grants have been highly effective in stimulating private investment. To date, \$136,736,272 in grants will leverage almost \$3.9 billion in private investments resulting in 34,275 new and retained jobs and 11,950 new housing units.

*Note: The numbers listed on the following spreadsheet represent both final and projected data.*

**DATA TABLE KEY**  
**For Contamination Cleanup and**  
**Investigation Program Funded Projects**

<b>Fund Source</b>	<b>GF</b> = General Fund <b>Petro, PF</b> = Petrofund <b>CT</b> = Contamination Tax Fund	<b>EF</b> = Environmental Fund <b>MV</b> = Motor Vehicle Fund <b>GO</b> = Bond Funds
<b>Grant Type</b>	<b>C</b> = Cleanup Grant <b>I</b> = Investigation Grant	<b>SPAP</b> = Special Appropriations Grant

**\*** Means the project has been funded in more than one cycle, (for example: a city that has been funded for both an investigation and a cleanup grant) and its statistics are reported only once in the table to avoid duplication of benefit data. To find reference to the other funding cycles funded for this project, look under “Project Name”.

**n** Means that collection of this data was not required during this period.

**Tax Increase Achieved or Projected** This is the increase in the amount of annual property taxes generated (in the case of a Closed Project) or that is anticipated by a County Assessor (in the case of an Awarded Project).

**Private Investment** The amount of private (non-state and non-local government) investment in the development costs of site, after the site has been investigated and/or cleaned up.

**Status as of October 2013**

**Awarded** = Grant has been awarded and project has been started.

**Closed, Pending Development** = The site has been cleaned, but the planned development has not yet occurred.

**Closed, No Development** = A cleanup was completed, but development did not move forward and is unlikely in the near future.

**Closed, Pending Monitoring** = All grant funds have been spent down and the project needs to be reviewed.

**Closed Pending RAP Approval** = The investigation has been completed. A letter of approval from MPCA is required for the plan to remediate the site.

**Closed, Pending Audit** = All funds have been spent down and site has been monitored, waiting for final financial audit information.

**Closed, Pending Cleanup or RAP Implementation** = All funds have been spent down and site has been monitored, waiting for Certification of Cleanup or Letter showing that cleanup has been approved by the MPCA.

**Closed, Pending Final Report** = All funds have been spent down and site has been monitored, currently waiting for report documenting the jobs and/or housing units created, the tax increases achieved and other benefits achieved.

**Terminated** = The project did not move forward and the Grantee returned the grant award to DEED.

**Date of Status Change** The date the status in the previous column was achieved.
