MINNESOTA COUNCIL ON LATINOAffairs (MCLA)
(formerly known as Chicano Latino Affairs Council)
-State of Minnesota-

Report to the Chairs of the committees in
the House of Representatives and
Minnesota Senate

January 15, 2016

This document is made available electronically by the Minnesota Legislative Reference Library as part of an ongoing digital archiving project. http://www.leg.state.mn.us/lrl/lrl.asp
A council must report on the measurable outcomes achieved in the council's current strategic plan to meet its statutory duties, along with the specific objectives and outcome measures proposed for the following year. The council must submit the report by January 15 each year to the chairs of the committees in the house of representatives and the senate with primary jurisdiction over state government operations. Each report must cover the calendar year of the year before the report is submitted. The specific objectives and outcome measures for the following current year must focus on three or four achievable objectives, action steps, and measurable outcomes for which the council will be held accountable. The strategic plan may include other items that support the statutory purposes of the council but should not distract from the primary statutory proposals presented. The funding request of each council, after approval by the Legislative Coordinating Commission, must also be presented by February 1 in each odd-numbered year.

I. Letter from the Council Chair Uriel Perez Espinoza

Dear Legislative Committee Chairs and the people of Minnesota,

As we compiled this legislative report, we quickly realized how much we have accomplished in a year that had many challenges, changes and transition for us. We began 2015 as the Chicano Latino Affairs Council (CLAC) and would end the year as the Minnesota Council on Latino Affairs (MCLA). In November, we became a complete board with the addition of 4 new council members and by mid-December we were joined by our new Executive Director. Although, we found this difficult for strategic planning and direction, our staff kept working hard on initiatives much needed for our Latino constituency. Our statutory mandates might have changed but our commitment to assuring that the needs of our Latino constituency are address through the legislative and policy process has never been stronger.

Our 2015 accomplishments within this report are the end of our era as CLAC. Nevertheless, we are excited of our future as MCLA.

You will find that our work aligns with addressing Minnesota’s disparities. We want to continue much of this good work but we will focus our efforts in legislative and policy initiatives.

The following are a few 2015 highlights of the many you will find within this legislative report:

- Our new legislative Director hit the ground running by working on several bills that included; HOME bill, MinneMinds, Driver’s License and the Ethnic Council restructuring
- As part of the MinneMinds Coalition, we were able to provide legislative support to secure appropriations so that financially challenge 3 and 4 year olds have access to quality early care and education environments through scholarships
- Increased Latino civic participation on state boards, commissions and task forces
- Rochester’s “The Hub” Early Childhood Education Pilot Project - solution oriented business plan presented to area leadership
- Researched Minnesota Latino demographics and created 20 different maps that provide valuable information per state county
- Supported initiatives that would help diversify the economic vitality in the Southern Minnesota region

As you take a look at our report, please take in mind that most of the work was done under the format mandated by our prior governing statute. However, our attempt is to begin to report our efforts as mandated under our current statute. Due to the changes our full board and staff have not been complete until recently and are just now beginning a strategic planning process that will include defined objectives and measurable metrics. Once our strategic plan is complete we will submit it as an amendment to this report prior to the start of the 2016 legislative session.

We are excited to continue working with the legislature and governor on issues that matter most to our Latino constituency.

Thank you for the opportunity to present this legislative report for your evaluation.

Uriel Perez Espinoza
Council Chair
II. MN Statute: 15.0145 Ethnic Councils

Subd. 6. Duties of council.

(a) A council must work for the implementation of economic, social, legal, and political equality for its constituency. The council shall work with the legislature and governor to carry out this work by performing the duties in this section.

(b) A council shall advise the governor and the legislature on issues confronting the constituency of the council. This may include, but is not limited to, presenting the results of surveys, studies, and community forums to the appropriate executive departments and legislative committees.

(c) A council shall advise the governor and the legislature of administrative and legislative changes needed to improve the economic and social condition of the constituency of the council. This may include but is not limited to working with legislators to develop legislation to address these issues and to work for passage of the legislation. This may also include making recommendations regarding the state's affirmative action program and the state's targeted group small business program, or working with state agencies and organizations to develop business opportunities and promote economic development for the constituency of the council.

(d) A council shall advise the governor and the legislature of the implications and effect of proposed administrative and legislative changes on the constituency of the council. This may include but is not limited to tracking legislation, testifying as appropriate, and meeting with executive departments and legislators.

(e) A council shall serve as a liaison between state government and organizations that serve the constituency of the council. This may include but is not limited to working with these organizations to carry out the duties in paragraphs (a) to (d), and working with these organizations to develop informational programs or publications to involve and empower the constituency in seeking improvement in their economic and social conditions.

(f) A council shall perform or contract for the performance of studies designed to suggest solutions to the problems of the constituency of the council in the areas of education, employment, human rights, health, housing, social welfare, and other related areas.

(g) In carrying out duties under this subdivision, councils may act to advise on issues that affect the shared constituencies of more than one council.
**CLAC Mission:** Our mission is to advise the governor and legislators on matters related to the Latino community and make recommendations for introduction of legislation, which promotes the smooth integration and socioeconomic well-being of Latinos in Minnesota.

**CLAC Vision:** Our vision is to raise the social and economic well-being and solidarity of Minnesota’s Latino community through public service.

**CLAC Approach:** Two Prong approach - Legislative and Policy

**CLAC Focus areas:** Economic Development and Education

**Goals:**
1. Reduce education disparities for Latino students
2. Serve as a connector between key stakeholders invested in eliminating disparities in the Latino Community
3. Conduct relevant research and provide information about the Latino community to the state Legislature and Governor’s Office
4. Increase Latino community civic engagement through community collaboration and leadership development
5. Develop a cohesive legislative and policy program building civic engagement and injecting the Latino voice, priorities and concerns into the policy making arena.
CLAC Strategies:
1. Systemic Thinking - shifting barriers in systemic design to minimize disparate impact on Latino Minnesotans by implementing compliance components to legislative/policy initiatives.

2. Solution – oriented proposals
   (A. Research independently and in collaboration with other entities to support recommendations.
   B. Work with policy makers and state agencies to design and implement public policy and programs that benefit the Latino community.)

3. Being at the decision-making tables (Work actively with state department commissioners, mayors, and local governments, nonprofits, corporations, chamber of commerce, law enforcement agencies and educational institutions)

4. Latino image campaign (Promote the strength and vitality of the Latino Community and its contribution towards MN success.)

5. Leveraging strategic partnerships (Building alliances and collaboration with institutions and groups to share resources to further common goals and objectives)

6. Structuring and implementing a coordinated legislative and policy program reflective of Latino Minnesotan's priorities, concerns and contributions.
Problem identified by OLA: Isolation from state policy making.
Solution to address deficiency: Develop a cohesive legislative and policy program building civic engagement and injecting the Latino voice, priorities and concerns into the policy making arena.

What is the purpose for the outcome measurement processes in assessing the Legislative Program?
• To support new program design & identify success in a new program area(s)
• To support program redesign by determining whether the program's underlying theories and assumptions are correct
• To support funding requests and describe how you will measure a program’s impact
• To support staff or council body planning processes and report on a program’s impact
• To support a funder or stakeholder’s request for evidence of the program's effectiveness
• To support internal reviews and determine whether to continue to allocate funding/resources to a program
• To support organization-wide quality improvement and refine program delivery

Developing realistic and informed outcomes:

When crafting outcomes:
Are the outcomes related to the “core business” of CLAC or its Legislative Program?
Is it within CLAC’s control to influence these outcomes?
Are CLAC’S outcomes realistic and attainable? Are they achievable within the reporting period(s)?
Are CLAC’S outcomes written as change statements—will things increase, decrease, or stay the same?
Has the Council moved beyond stakeholder satisfaction in CLAC’S outcomes?
Is there a logical sequence among CLAC’S short-term, intermediate, and long-term outcomes?
Are there any big “leaps” in CLAC’s outcomes, i.e., gaps in the progression of impacts?
Minnesota Council on Latino Affairs (MCLA) Strategic Management & Operational Planning & Action Steps to ensure alignment with statutory core functions and measurable outcomes.

**IV. CLAC 2015 Strategy – Development of Legislative Program**

Recommendation to assess the following required steps from a managerial and organizational perspective.
- Determine where is the organization at currently?
- Define what is important on a policy level?
- Define what must the organization achieve?
- Determine who is accountable? Align working titles with actual daily duties and job title.
- What are necessary core budgetary adjustments to allow for meeting future expectations?
- Review, Reassess and tweak strategic plan as necessary on a quarterly basis.

Recommendation from a Legislative Program perspective to assess the following:
**What will MCLA do to obtain closer understanding of its constituency?**
- Create rural and urban Latino demographic profile
- Create rural and urban Latino needs profile
- Create rural and urban Latino contribution profile
- Create rural and urban Latino priorities profile

**How will MCLA go about in ascertaining geographic profile of its constituencies?**
- Create maps of Latino concentration per district
- Align those districts with given Legislators
- Align those districts with local key Latino organizations/or agencies/orgs who provide direct services to large Latino communities.

**V. 2015 Policy Program**  
**Narratives and Measurable Outcomes**

**Rochester Early Childhood Education Pilot Project “The Hub”– Promise Neighborhood:**
The purpose of this project is to permanently close the achievement gap and end generational poverty in Southeast Rochester. Together with partner organizations, we will walk side by side with low-income families as they put their children on a path to college. The Hub’s wraparound framework will effectively support low-income children of color so that they will graduate from high school prepared for college. This project began in the spring of 2013. Art Rolnick, Early Childhood Education strong supporter, came to the leadership of Rochester to propose the creation of a "Promised Neighborhood" program modeled after the Northside Achievement Zone (NAZ) in North Minneapolis. Since then, MCLA has organized meetings with local leaders like Mayo Clinic, Rochester Area Foundation, Rochester Public Schools, Rochester Area Chamber of Commerce, Southern Minnesota Initiative Foundation, NAZ, MPOWR, Families First of Minnesota formerly Childcare Resource and Referral, Olmsted County Social Services, ACHLA, CLUES, COBM, Aldrich Memorial Nursery School, RCTC, Family Services Rochester, Minnesota School of Business, and many others to look for funding and build support for its creation. The Business Plan has been presented to the leadership group in Rochester for their consideration.  
**Problem:** Latino children are not prepared to enter kindergarten and families of color face many obstacles due to poverty.  
**Goals:** Prepare children to be ready for kindergarten and remove barriers for families and children’s success.

**Police Policy Oversight Commission, Rochester, MN:**
Participated in the creation of the city ordinance to create the Police Policy Oversight Commission for the Rochester Police Department. RCLPC Sedarski was also appointed by Mayor Ardell Brede to become one of the 7 Commissioners. The purpose of this Commission is to assist the Rochester Police Department in reviewing and making comments/recommendations on the policies, practices and procedures adopted or to be adopted by Police Administration as they relate to legal requirements of state and federal law and the expectations of the community.

**Problem:** The Chief of the Rochester Police Department, Roger Peterson, created this commission in a proactive way to build trust with all the communities that live in the city. Efforts started almost 2 years ago, before all the racial tensions began to surface around the country.

**Goal(s):**
+ Connect the Rochester community to policies and actions by the police department, requesting input from citizens in how they want to be policed.
+ Build trust between law enforcement and the communities they serve in the city of Rochester.

Rochester Area Chamber of Commerce Supplier Diversity Initiative:
This initiative is a collaborative effort of the Mayo Clinic, Rochester Area Chamber of Commerce and its Foundation, the City of Rochester, and Rochester Area Economic Development, Inc. (RAEDI) to provide assistance and education to small and diverse business area suppliers who seek access to the Southern Minnesota economy and business community.

Problem: Limited number of minority certified owned businesses in Southern Minnesota

Goals: + Increase support, information, and advantages for minority business to obtain certification as Disadvantaged Business Enterprises (DBE’s)
+ The inclusion of minority and Latino own businesses in contracts awarded to them for Destination Medical Center (DMC) related construction projects within the city of Rochester.

Provided support and connection to the Diversity and Inclusion committee to begin conversations with the city of Rochester and its leadership about becoming the first Intercultural City in the United States. The Intercultural Cities Initiative is a city strategy that will impact public perception and policies to trigger collective dynamics towards "taming" and harnessing diversity for the benefits of the city and its people. Leaders in the city will continue conversations and plans in January 2016.
Northern Mexico Economic Corridor:
On March 2nd and 3rd, 2015, with the support of the Assistant Commissioner of Agriculture, Mr. Jim Boerboom, Mayor of Rochester Ardell Brede and the President of the Rochester Area Economic Development, Inc., Mr. Gary Smith, RCLPC Rebeca Sedarski attended the Northern Mexico Economic Corridor Conference. This regional event took place in Mazatlán, Mexico. The purpose for the reunion was to gather the leadership, mayors and heads of the Municipal Economic Development Departments along the 7 states that belong to this land corridor and discuss issues of importance and ways to promote the region. The Northern Mexico Economic Corridor accounts for 22.5% of the Mexican GDP. This land corridor begins with the city of Mazatlán and ends with the city of Matamoros. The 7 states that belong to this corridor are: Sinaloa, Durango, Chihuahua, Coahuila, Nuevo León, Tamaulipas and Zacatecas. The state of Nayarit became the 8th state to join the efforts of the NMEC. Among other objectives, this newly completed corridor is intended to provide an alternative land route to trade between Asia and North America.

**Problem:** Dependence of only one sector of the regional economy: Healthcare

**Goals:**
+ Create a bilateral economic collaboration with Northern Mexico

**Alliance of Chicano Hispanics and Latin Americans (ACHLA).**

ACHLA works to empower Hispanics/Latinos to participate in enriching the quality of life for all people in the Rochester area through:

- Educational opportunities
- Civic engagement
- Community-wide partnerships and collaborations
- Cultural exchange
- Building capacity within the Hispanic/Latino community

ACHLA also works with the community by providing educational programs for adult including English language instruction, and classes on different topics. Children participate in math tutoring, enrichment and recreational activities, and mentoring. We also organize and participate in community outreach events to provide information on available resources and help people understand how the system works. Our goal is to promote leadership in the community by helping each other. One of the duties as Community Liaison working in Rochester was to help coordinate, support, and reorganize the board members of the organization. The Board was re-established in 2014.

Through the work of board members and volunteers, the organization put together the 2015 Latino Fest in Rochester, MN. The Latino Fest brought resources and information to the Latino Community

**Problem:** Reintegration of the Latino community in Rochester and surrounding area

**Goals:** +To continue providing support to the Latino community living in Rochester and the surrounding area and to the new immigrants

+ Integration of the Hispanic community while maintaining our cultural identity and heritage

+ Work to build a sense of community and belonging among ourselves and with the community at large.

+ To share our cultural heritage, involve other organizations in our activities, and collaborate with other groups serving the Hispanic community, and with community members from different cultural backgrounds.

CLAC Community Engagement

The “CLAC Community Engagement” process enables The Council to *genuinely capture the voice of the Latino community* and gain input from others working within agencies or organizations that support the Latino community. The community engagement plan supports the following objectives:

To directly engage Latino community members in discussing their accomplishments and challenges;  
To understand the Latino community’s perspective on root causes of socio economic challenges and solutions;  
To provide Latino community members with information regarding the state legislative process, policies and budget programs that support their socio economic situation;  
To understand the perspectives on Latino community contributions and support challenges of: local government, employers, educators, faith based leaders and service providers;  
To identify individuals that may provide testimony in presenting issues & solutions to state government;  
To identify individuals and organizations that would support recommendations in issues briefs;  
To gather and integrate direct qualitative research into CLAC analysis.

CLAC identified Southern Minnesota as the region of the state with the most demographic and economic growth. Our office has suggested 3 Southern Minnesota regions of focus with cities with the largest Latino communities and/or isolated Latino communities. 4 cities where selected to hold community forums from September through October.

Cities selected were; Worthington, Austin, Faribault and Rochester. Partnerships were created with local community churches home to the largest pockets of Latinos and the University of Mankato to assist in the outreach efforts.
