Fiscal Analysis Department
Minnesota House of Representatives

The House Fiscal Analysis Department is a team of twelve analysts who provide professional, non-partisan, and confidential services for all members of the House of Representatives, as well as providing legislative support services to the House finance and tax committees on fiscal issues. The Department researches, prepares and distributes publications providing information on state budget issues and government finance.

This document was compiled by ***Katherine Schill***, who works with tax expenditures including property tax refunds, aids and credits, motor vehicle taxes and other taxes. She is available at [*katherine.schill@house.mn*](mailto:katherine.schill@house.mn).

Purpose This catalog seeks to provide a quick reference for specific budget activity—past expenditures, current appropriations and projected spending—in the area of Tax Aids & Credits, under the purview of the Tax Committee. Bills that seek to make changes in spending or changes to related tax program parameters would be referred to the Tax Committee.

Format and Definitions

Each budget activity entry includes the following information

- Title and Legal citation
- An eight-year fiscal summary (dollars in thousands) for FYs 2008-2015, updated from the November 2010 Forecast Consolidated Fund report
- Annual percentage change in spending
- Appropriation type, Fund type
- Brief description of how the budget activity functions

Types of Appropriations

The following definitions are commonly used in the Governor’s Biennial Budget documents and in current accounting practices.

A. "**Statutory Appropriation**" refers to the spending authority that is codified in state statute, rather than session laws. This authority to spend state resources is ongoing and independent from the passage of an appropriations bill each biennium. Typically, statutory appropriations are made in dedicated receipt activities, but they are also applicable to situations where state resources are perpetually made available for spending.

The Governor's biennial budget document specifically highlights a section for "Statutory Appropriations" and the figures contained within are generally based upon anticipated receipts within an agency's budget. These codified appropriations are processed in the accounting system annually based on agency estimates -- without legislative action.

B. "**Direct Appropriation**" is an appropriation made in biennial or annual budget bills and is valid for a limited period of time, usually within the biennium.

C. "**Open Appropriation**" refers to the authority to spend an unspecified amount of resources to meet a program's objective or a constitutional requirement. These resources are typically made available when an agency provides a forecast of the estimated need. (An example would be the Property Tax Refund for Homeowners, page 10.)

The Governor's biennial budget document specifically identifies "Open Appropriations". Approved funding uses agency estimates and documentation that establishes the funds in the accounting system. Rather than canceling at year-end, any excess dollars are processed as a reduction in the appropriation.

D. "**Standing Appropriation**" is the authority to spend a pre-determined dollar annual amount for an activity for a specific period of time or indefinitely. (Example: MS 477A.03, Subd. 2b., " For aids payable in 2011 and thereafter, the total aid payable under section [477A.0124, subdivision 3](#), is \$96,395,000.")

TAX EXPENDITURE TYPES

Tax refunds are direct payments from the state to taxpayers to lessen their personal tax burden. *Property tax refunds* are direct payments from the state to certain homeowners and renters to offset their property tax liabilities.

Local aids are state payments to local jurisdictions, including school districts, intended to replace tax levy income. *Property tax aids* are state payments to local taxing jurisdictions intended to replace property tax levy income.

Tax credits directly reduce a taxpayer's tax liability. *Property tax credits* reduce property tax liabilities for individual taxpayers; local taxing jurisdictions receive state payment for these credits.

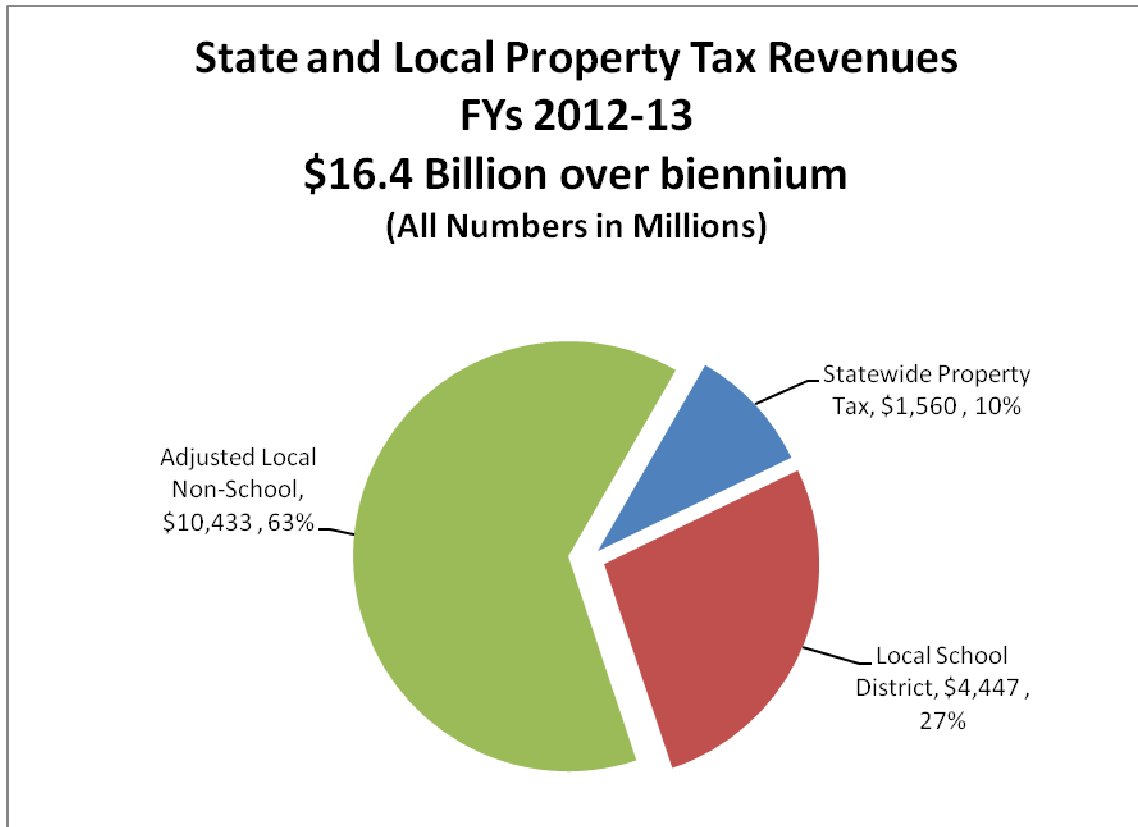

In all cases, whether using a tax refund, a tax aid or a tax credit, the effect is that property taxpayers pay less than what the taxes would be otherwise, and the state makes up the difference.

Other expenditures are direct appropriations with a tax-related purpose, usually to a state agency or local government, and usually administrative in nature.

Overview: House Committee on Taxes

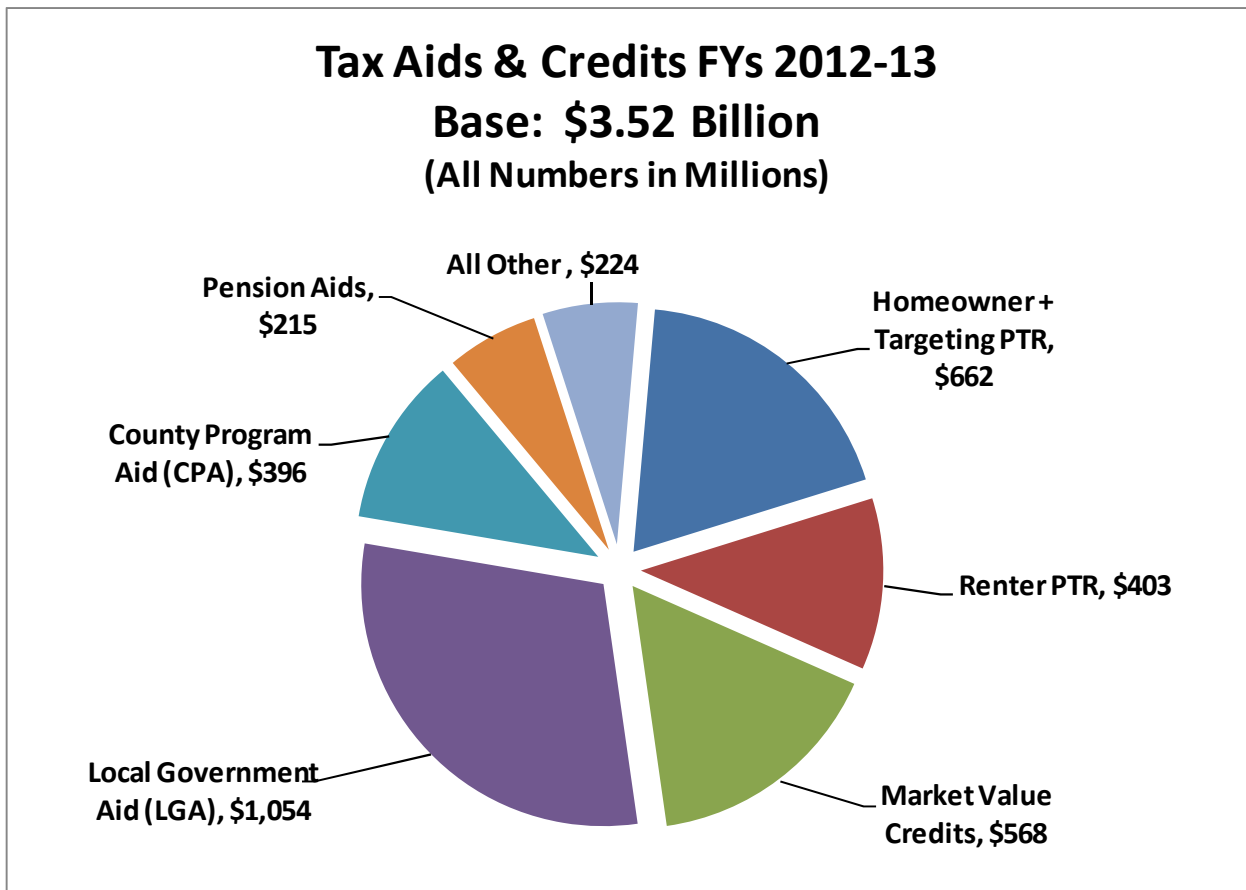

The House Committee on Taxes has the dual responsibility of overseeing state revenues and certain state appropriations from the general fund that support state aids and credits. Because most of these expenditures seek to mitigate the impact of local property taxes, a review of all property tax revenue is helpful.

For the FY 2012-2013 biennium, Minnesota's state and local property tax revenues are projected to be \$16.44 billion. Of this amount, local government revenues (counties, cities, towns, special districts) are estimated at \$10.43 billion or 63.46%, school district revenues at \$4.45 billion or 27.05%, and statewide property tax revenues at \$1.56 billion or 9.49%.

November 2010 Forecast, Price of Government report

Likewise, projected FY 2012-2013 expenditures for Tax Aids and Credits total \$3.52 billion, with \$1.67 billion in property tax aids, \$1.07 billion in property tax refunds, \$568 million in property tax credits and \$224 million in other appropriations.

List of House Tax Committee Budget Items

Currently, thirty-two budget activities are reflected as general fund items on the expenditures portion of the House Taxes Aids and Credits spreadsheet. These programs are administered in whole or in part by the Department of Revenue. Other programs are funded with special revenues or administered locally as noted. Additional detail for each program can be found beginning on page 10 of this catalog.

Appropriation Type: Statutory, Open **Fund:** General

Description: This budget activity provides property tax relief (in the form of direct payments) to homeowners based on their net property taxes relative to income. Claimants household income may not exceed \$99,240 for filers with no dependents, up to \$121,140 for households with five or more dependents, or \$124,790 for senior or disabled homeowners with five or more dependents. The maximum refund amount is \$2,370. Known as the “circuit breaker” program, in calendar year 2009, over 338,600 homeowners received an average refund of \$620. Of this group, 126,700 or 37.4% were senior or disabled filers with an average refund of \$630.

Appropriation Type: Statutory, Open **Fund:** General

Description: This budget activity provides property tax relief (in the form of direct payments) to renters whose rent and “implicit property taxes” are high relative to their incomes. Claimants’ household income may not exceed \$53,540 for filers with no dependents, or up to \$75,440 for households with five or more dependents. The maximum refund amount is \$1,520. Known as the “renter's credit” program, in fiscal year 2011 (which reflects property tax as a percentage of rent at a 15% threshold), approximately 296,400 renters will receive an average refund of \$458.

Appropriation Type: Statutory, Open **Fund:** General

Description: This budget activity provides property tax relief to owners of residential homestead property when there is a relatively large, one-year increase (greater than 12 percent and over \$100) in property taxes. Unlike the regular property tax refund program, eligibility for this additional refund is independent of income. The refund equals 60% of the property tax increase in excess of 12%, up to a maximum of \$1,000. In calendar year 2009, over 113,000 homeowners received an average refund of \$75.

Appropriation Type: Statutory, Open

Fund: General

Description: This state program allows a taxpayer to claim a refund equal to the amount of the taxpayer's contributions made in the calendar year to candidates and to a political party. The maximum refund for an individual must not exceed \$50 and for a married couple, filing jointly, must not exceed \$100. In calendar year 2009, over 114,000 individuals received an average political contribution refund of \$50. Due to budget constraints, these refunds were temporarily suspended for fiscal years 2010 and 2011. (Note: FY 2010 contains payments for claims filed prior to the deadline of June 30, 2009.)

Description: This account contains interest expenses that must be paid on an overpayment refunded or credited to taxpayers, from the date of payment of the tax until the date the refund is paid or credited. When the amount of tax exceeds the tax shown on the original return by \$10, the amount refunded bears 3% interest (CY 2011) from 90 days after (1) the due date of the return of the taxpayer, or (2) the date on which the original return is filed, whichever is later, until the date the refund is paid to the taxpayer. When the amount to be refunded is less than \$10, no interest is paid. In FY 2011, budget constraints caused in a 6-month delay of payments, shifting a total of \$236 million in refunds plus interest from FY 2011 to FY 2012.

% Chg	(11.1%)	11.8%	(11.4%)	23.6%	0%	0%	0%

Appropriation Type: Statutory, Open & Standing **Fund:** General

Description: This budget activity provides state property tax relief aid to cities that is distributed according to “need factors” – measured differently for small cities (with populations of under 2,500 residents) versus large cities (with populations of 2,500 or more)- minus the “ability to pay” measured by cities’ tax base. Local Government Aid (LGA) provides general-purpose funding annually to 763 of Minnesota’s 855 cities; 608 of these LGA-receiving cities have a population less than 2,500. The program underwent significant changes in calendar year 2003 including a reduction in funding and the elimination of most "grandfathered" aid components. In the FY 2010-2011 biennium, budget constraints temporarily reduced the LGA appropriation by \$147 million, followed by second action that permanently cut another \$7.8 million in FY 2011 and then \$31 million each year thereafter. In addition, inflation adjustments were removed from the law.

% Chg	(20.9%)	20.2%	(15.4%)	19.7%	0%	0%	(0.2%)

Appropriation Type: Statutory, Open & Standing **Fund:** General

Description: This budget activity provides general purpose aid to Minnesota's 87 counties to reduce property tax levies, based on the needs of the populations they serve relative to the size of their tax bases. County Program Aid (CPA) is distributed through two main formulas, roughly equal in size. The need aid formula is based on each county’s relative share of needy populations; the tax base equalization is based on the size of each county’s tax base relative to its population. Appropriations payable for CY 2011 and annually thereafter are limited to \$96.395 million for need aid and \$101.309 million for equalization aid for a total of \$197.7 million. In the FY 2010-2011 biennium, budget constraints temporarily reduced the CPA appropriation by \$100 million. Beginning in FY 2012, the 2010 legislature permanently cut CPA by \$43.8 million and eliminated inflation adjustments from the law. Of the total annual appropriation, up to \$714,000 is retained by the Commissioner of Revenue to pay for public defender costs pursuant to Minnesota Statutes 611.27 and to pay for the cost of local impact notes as required by section 3.987.

Appropriation Type: Statutory, Standing **Fund:** General

Description: This budget activity provides state aid to certain counties that suffered extreme reductions in aid attributable to the 2003 consolidation of five aid programs into County Program Aid. Seven counties (Aitkin, Chippewa, Cook, Kanabec, Kittson, Traverse, and Wilkin) qualified for a total of \$1.3 million of transition aid in CY 2005, which was then reduced by one-third in each CY 2006 and CY 2007. This provision was due to sunset in calendar year 2007 (FY 2008), but it was reinstated and made permanent by the 2008 Legislature (Ch 366).

Description: This budget activity represents set-aside moneys to pay for public defense services for correctional facility inmates. Under prior law, 1.5 percent of the criminal justice aid was designated for this purpose. However, since the CY 2005 consolidation of county aids, these funds (up to \$500,000 per year) are now deducted from the need aid portion of the County Program Aid appropriation.

Description: This budget activity provides annual funding of up to \$207,000 for the Commissioner of Finance and up to \$7,000 for the Commissioner of Education to pay for administrative costs incurred from completing local fiscal impact notes on legislation considered by the Minnesota Legislature. As was done previously with county Homestead Agriculture Credit Aid (HACA) distributions, these funds are subtracted from the equalization aid portion of the County Program Aid formula.

Description: This budget activity reflects state aid paid to more than 1300 local governments, including counties, townships and school districts, to provide relief to high tax rate areas. The program was created in 1988 and unlike other aids that provide non-property tax revenues to local governments, disparity reduction aid is applied directly to local tax rates. A local tax rate is determined by subtracting the disparity reduction aid (DRA) from the initial tax rate, up to the amount that the total local tax rate does not fall below 90 percent.

Description: This budget activity reflects state aid payments to counties with a tribal casino. Through this program, the state pays ten percent of the state’s share of excise taxes (tobacco, alcoholic beverage, and motor fuels) collected under the tribal tax agreement. Because the tribal government receives one-half of the taxes collected, the county, in effect, receives 5 percent of these shared taxes. Currently, 17 casinos representing 11 tribes are operating in Minnesota.

Description: Created in 2006 and made permanent in 2008, this budget activity provides partial replacement aid to local governments in Mahnomen. In 2006, the United States Department of the Interior, Bureau of Indian Affairs, placed revenue producing land (a tribal casino) in Mahnomen into trust, thus removing it from the property tax rolls and causing a void of over \$932,000 in tax revenues. Of the \$600,000 payment, \$450,000 is for Mahnomen County, \$80,000 for the City of Mahnomen, and \$70,000 for Mahnomen Independent School District No. 432.

Description: This budget activity reflects reimbursements to taxing districts for property tax credits issued to residential homeowners. Under this program, homeowners may receive tax credits equal to 0.4 percent of the market value of the parcel up to a maximum of \$304, subject to a phase-out of the credit beginning at \$76,000 in market value. The phase-out rate is equal to .09 percent of market value above \$76,000 with no credit for homes valued at \$414,000 and above.

For School Districts, reimbursement is provided for the amount of the Homestead Market Value Credit deducted from each school district’s tax revenues in proportion to each district’s share of the gross tax, excluding school referendums. Currently Minnesota’s 337 independent school districts –no charter schools—receive this reimbursement.

For Non-School entities (local governments), reimbursement is provided for the amount of the Homestead Market Value Credit deducted from each local government’s tax revenues in proportion to the local government’s share of the gross tax. Over the CY 2003 to 2010 period (save 2007), budget constraints have prevented a full reimbursement of the credit to local governments.

For CY 2010, over 1.34 million homesteads participated. The average credit was \$218 for homes in greater Minnesota and \$181 for homes in the metro area.

Description: This budget activity reflects reimbursements to taxing jurisdictions for property tax credits issued to owners of agricultural property minus the value of the house, garage and 1 acre of land. Applicants receive tax credits equal to 0.3 percent of the market value of the parcel up to a maximum of \$345 subject to a phase-back of the credit beginning at \$115,000 in market value. The phase-back rate, equal to .05 percent of market value above \$115,000, reduces the credit amount to a maximum of \$230 for farms valued at \$345,000 and above.

For School Districts, reimbursement is provided for the amount of the Agricultural Market Value Credit deducted from each school district’s tax revenues in proportion to each district’s share of the gross tax, excluding school referendums.

For Non-School entities (local governments), reimbursement is provided for the amount of the Agricultural Market Value Credit deducted from each local government’s tax revenues in proportion to the local government’s share of the gross tax.

In CY 2010, there were over 88,000 agricultural homesteads in Minnesota.

Description: This budget activity provides reimbursement to counties for property tax relief to private landowners who practice long-term forest management investment in accordance with the Sustainable Forest Incentive Act (2001). In CY 2009/FY 2010, approved claimants enrolled just

under 800,000 acres in the program and received a credit of \$8.74 per acre. In CY 2010/FY 2011, about 1,700 property owners enrolled over 869,000 acres and received a credit of \$15.67 per acre. The 79% per acre rate increase was due to a change in law from class 2b, timberland, to higher-valued class 2c, managed forest land. Also in FY 2011, a one-time limit of \$100,000 per taxpayer was imposed due to budget constraints.

Appropriation Type: Statutory, Open **Fund:** General

Description: This budget activity is a combination of three pension aid provisions that provide payments to certain counties, municipalities, independent nonprofit firefighting corporations, and other entities to supplement their budgets. The commissioner of revenue determines which local governments are qualified to receive state aid based upon personnel and equipment certifications, financial compliance reports and other relevant information. Funding for Fire State Aid comes from the dedicated proceeds of the state insurance premium tax (generally 2%) on fire insurance. Police State Aid is financed by the dedicated proceeds of a 2% automobile insurance premium tax. Funding for the First Class City Fire Insurance Surcharge comes from a tax on insurance written on property located in a first class city and allocated to the applicable city.

Table 1 of this document (on page 27) provides additional detail regarding these aid distributions.

The fiscal disparities program is a system that shares a portion of the revenues generated by the commercial-industrial property tax base among all local governments within a defined geographic area. Minnesota has two fiscal disparities programs currently operating in the state: one in the seven-county area of the Twin Cities and the other in the Iron Range of northern Minnesota.

Fiscal disparities distribution levies are disbursed on a formula primarily based on real property market value and population. The contribution to the “pool” is 40% of the growth since 1971 in commercial and industrial tax capacity.

2010 Minnesota Laws, Chapter 389, Article 1, sections 28 and 32, require the Commissioner of Revenue to conduct a study of the metropolitan fiscal disparities program. Topics to be analyzed include how the benefits of economic growth are shared within the region, program impacts on tax rates, program impacts on homestead property tax burdens, and impacts on properties with regional benefits. A report of the findings and issues for further consideration by the Legislature is due by February 1, 2012.

BUDGET ACTIVITIES REPORTED IN PREVIOUS YEARS

Payments in Lieu of Taxes (PILT) for Lands Owned by the Department of Transportation

[*Minnesota Statutes, section 477A.12 (DOT).*]

This budget activity reimburses counties and towns for lost revenues attributable to the removal of tax-generating properties from their property tax inventories for highway right-of-way lands. The commissioner of revenue provides payment in-lieu of tax (PILT) payments to local governments for this land.

Court Aid Adjustment [*Minnesota Statutes, 477A.0124, subd. 4.*]

This budget activity, which provides state aid to Anoka and Washington Counties to pay for certain postretirement costs for court employees, has been integrated into the annual calculation that determines the county tax-base equalization aid portion of county program aid.

Court MOE Aid

This budget activity provided state aid payments to certain courts undergoing economic difficulty with judicial district transitions from county to state-level funding in CYs 2002-2005. Specifically, courts were required to increase their expenditures by 8 percent per year. The last two districts -- the Sixth and Tenth Judicial Districts – finished transitioning in FY 2006.

Court Takeover Aid

This budget activity reflects state aid paid to certain courts undergoing judicial district transitions from county to state-level funding in CYs 2002-2005. Specifically, court takeover aid primarily reflects one-time costs attributed to timing differences between county and state fiscal years.

Taxpayer Assistance Grants [*Minnesota Session Laws 2005, 1st Special Session – Chapter 3.*]

In FY 2006, this budget activity, which provides \$125,000 per year in grant moneys to nonprofit organizations to assist low-income and disadvantaged taxpayers, became part of the Department of Revenue's base budget.

Disaster Grants [*Minnesota Session Laws 2005, 1st Special Session – Chapter 3.*]

In FY 2006, this item provided a one-time disaster grant of \$500,000 to the Department of Employment and Economic Development (DEED) for disaster relief in Otter Tail County.

Cargo Grants [*Minnesota Session Laws 2005, 1st Special Session – Chapter 3.*]

In FY 2006, this budget activity provided a one-time appropriation of \$750,000 to the Department of Employment and Economic Development (DEED) for business assistance in an international trade zone.

REPEALED PROGRAMS

Attached Machinery Aid
Homestead Agricultural Credit Aid (HACA)
Family Preservation Aid
Criminal Justice Aid

Beginning in 2004, four aid programs -- Attached Machinery Aid, Homestead Agricultural Credit Aid (HACA), Family Preservation Aid, and Criminal Justice Aid -- were repealed and consolidated into one general aid program, called county program aid, found on page 3 of this catalog.
