

SNAPSHOT | Investing in Infrastructure Across Minnesota

2017 Budget for a Better Minnesota

Communities across the state of Minnesota have unmet critical infrastructure needs ranging from roads and bridges to public safety and higher education. Thanks to Governor Mark Dayton’s sound fiscal management, Minnesota enjoys a triple-A credit rating that lowers the cost of bonding. The state also has more than \$3 billion in available bonding capacity for 2017-2018. This year, Governor Dayton and Lt. Governor Smith have proposed a \$1.5 billion bonding bill that makes commonsense investments in the public infrastructure, education, health, and safety initiatives necessary to support an economy that works for everyone, everywhere in Minnesota. The Dayton-Smith proposal protects Minnesota’s long-term financial standing, while making critical investments in our future.

This snapshot breaks down projects that would be completed under the Governor and Lt. Governor’s proposal, sorted by county.
